Re: Hangzhou International School Grade 6 to Grade 12 Laptop Requirement for 2023-2024 School Year

To Whom It May Concern:

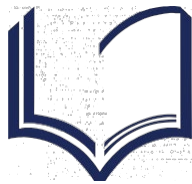

Information Literacy and Technology Literacy are essential for success in society. An internet-connected laptop, along with dedicated instruction and supervision, can open up a whole new world of learning and expression for a student.

Hangzhou International School requires each student in Grade 6 through 12 to have a laptop computer for use at School on a daily basis. Pertinent points regarding the Hangzhou International School laptop requirement include:

1. Students are required to use an Apple Macbook computer that is not older than 3 years (MacBook, MacBook Air, MacBook Pro), and requires the hard disk / flash memory capacity must be greater than or equal to 256GB
2. The school does not require parents to purchase additional software for a laptop; the basic software that comes with every Apple laptop is sufficient.
3. It is likely that a laptop over four years old will no longer meet the learning requirements of the student. As a result, Hangzhou International School recommends that the parent replace a laptop over four years old with a newer laptop.
4. Parents are responsible for purchasing the student-use laptop.
 - a) Hangzhou International School does not sell laptops, issue any official Chinese government tax receipts (fapiao) for any laptop purchases, nor include the cost of a laptop purchase on a student's tuition invoice.
 - b) If a fapiao is needed for a personal laptop purchase, parents must acquire the fapiao directly from the laptop vendor.
