Date Issued:	Address:	Permit Number	Total Valuation	Work Class	Application Type	Occupancy Code	Application Date	Applicant	
	40 SOUTH MAIN STREET, WEST HARTFORD, CT 06107 5095 2 40 0001	PRSN202302658	\$10,000.00	Alteration	Sign	U-Utility, miscellaneous	05/01/2023	Contact Type	Contact Description
					(1) d/f internally illuminated sign cabinet with opaque faces that have stencil cut, pushed through letters that read Fleming's (top) and BOQUERIA (bottom) on the south facing side and vice versa (BOQUERIA on top and Flemings on the bottom) on the north facing side. The letter faces have opaque and translucent vinyl. This is a replacement cabinet of the formerly "Besito's" illuminated sign and the existing, temporary place holder sign panel. The new sign cabinet will be mounted to the existing posts that have existing brick bases. This design is consistent with the SDD sign parameters. 				I want to erect a 20'x40' tent in the parking lot for outdoor dining. The tent has a 7.5ft drip edge and will be secured with 10 1750lbs concrete ballast blocks one at ever vertical pole. The only electrical need will be out door LED string lights (as shown in the layout plan) the lights will be suspended at 8ft on the inner perimeter of the tent connected to a dedicated outdoor GFCI outlet. The tent will be grounded by a bare copper wire to a 5/8in 8ft long copper grounding rod in the ground. The tent also meets both NFPA-701 and CPAI-84 fire requirements. Per state regulations an anemometer will be in the area along with wind evacuation signs. I own the tent and will be erecting it without the help of an outside contractor. 'Butterfly Restaurant'.				Applicant	GFI, LLC, Address:831 farmington ave., Phone:(860) 729-4786

								Applicant	Northeastern Chimney, Inc., Address:NORTHEASTERN CHIMNEY, INC.
								Contractor	Northeastern Chimney/David Lamb,

Remove 45 feet of existing water guard from the basement and install a 160 feet water guard IOS instead.
Install sump pump plus
Install 10 feet of 1.5" PVC pipe connecting to existing iceguard

Installation of a new Bosch hi-efficiency gas furnace and Bosch 20 Seer heat pump system. This consists of a new indoor furnace, heat pump coil and outdoor heat pump unit.
The furnace and indoor coil will be placed in the same position. There will be some ductwork modifications to get a perfect fit. New air filter kit, neutralizer condensate pump, updated electrical switch with GFI service outlet and cement block risers. The PVC intake / exhaust and gas piping will be reconnected.
The new outdoor heat pump unit will be placed in the same position. A new Heat pump riser pad will be used to lift the unit off the ground by about a foot. New outdoor electrical disconnect box with wiring connections. New refrigeration piping will be installed if the route is accessible. If the piping is hidden behind finished drywall, we will flush and clean out the existing piping.
This system comes with a new Bosch smart WiFi thermostat. This thermostat will control the heat staging between the gas furnace and heat pump. The thermostat will be connected to the WiFi for weather monitoring and remote log in.
This proposal includes the installation of a new State 40 gallon hot water heater. The hot and cold water piping will be reconnected using new valves. Gas pipe reconnection. New metal exhaust piping from the tank to the chimney

- Bosch 100k btu 96% gas furnace Model# BGH96-M0100-C5A
- Bosch 5 ton 20 Seer outdoor heat pump Model# BOVA-60HDN1-M20G
- Bosch 4 ton indoor heat pump coil Model# BMAC-4248-CNTF
- State 40 gallon nat atmos water heater tank
- New refrigeration piping and nitrogen testing
- Ductwork modifications
- Air filter package
- PVC exhaust and air intake piping connections
- Condensate and neutralizer kit
- Bosch smart WiFi thermostat BCC100
- Gas pipe connections
- Outdoor riser pad

install a stainless steel chimney lining system with all required hardware

					The following repairs will need to be done to get the system to safe and proper operating conditions. Adding a new 6" ceiling mounted supply air vent by the back of the kitchen, upgrading two existing 6" supply ducts to 7" supply air ducts and an additional ceiling return air grille. New full size auxiliary drain pan, properly mounted and pitched. The furnace and A/C coil will need to be shifted and remounted a couple inches higher to make room for the longer pan. The drain pan will be piped into the main drain. The 2" PVC intake and exhaust piping will be completely re-piped and properly glued. The leaking drain tap will be removed. The 3/4" PVC drainage for the A/C and furnace condensate will be re-piped and properly glued. Date Issued:	Address:	Permit Number	Total Valuation	Work Class	Application Type	Occupancy Code	Application Date	Applicant	
		<p>The existing drainage piping terminated into an open vent pipe for the homes drain waste piping. We will add the proper YT fitting with trap so that potential sewage smell does not enter the attic and spread through the HVAC system. The existing 16" return flex duct will be properly re-hung using the correct thicker straps. New turning vanes will be installed where the new 16" supply flex attaches to the original rectangular duct. The insulation on the return plenum will be properly taped with the correct materials. We will replace the crushed section of the 6" supply pipe with new flex duct. The bare metal 6" tee will be removed and replaced with another new section of insulated flex duct. Heat tape will be installed to protect the furnace condensate piping from potentially freezing. The heat tape will plug into the existing GFI service outlet on the furnace. We will need to pump down the refrigeration system and cut the piping at the indoor A/C coil so we can flip it around 180 for proper servicing access. The indoor cased coil will need to be completely unattached from the ductwork and furnace. We will try to repair all of the existing ceiling mounted vents. The vents were not installed flush with the ceiling and have a 1/4" gap showing. The vents can most likely be reused, re-installing brand new vents is not included in this proposal. Will need to spend time troubleshooting and setting up the Bosch smart thermostat system so the dual fuel feature operates properly. The A/C heat pump system will need to be started with 65 outdoor air to truly test the system operations. If the outdoor compressor unit is damaged from poor installation, the unit will need to be replaced and most likely wouldn't be covered under the manufacturer warranty. The replacement of the outdoor unit is not included in this proposal.</p>

		<p>We, Tuckers Party Rental, are writing to apply for a building permit to install three high peak tents (20x30 in size) and one high peak tent (20x20 in size) on June 23, 2023, over an asphalt surface. Our plan is to utilize cement blocks weighing 1000 lbs each as anchors for the tents. The anchoring details for each tent are as follows: Pride Event - set up Friday (after 4 pm) and Saturday for Saturday, 6/24/23 event. Three 20x30 Tents: Each 20x30 tent will be anchored down with six cement blocks, one block per leg, totaling six blocks per tent. The total weight of the blocks anchoring each 20x30 tent will be 6000 lbs (6 blocks x 1000 lbs per block). One 20x20 Tent: The 20x20 tent will be anchored down with four cement blocks, one block per leg. The total weight of the blocks anchoring the 20x20 tent will be 4000 lbs (4 blocks x 1000 lbs per block).</p>							

Report generated from 05/01/2023 To 05/31/2023

Date Issued:	Address:	Permit Number	Total Valuation	Work Class	Application Type	Occupancy Code	Application Date	Applicant	
<p>Below are additional details regarding our installation plan:</p> <p>Installation Date: The installation is planned for June 23, 2023, and the event will take place accordingly.</p> <p>Location: 50 South Main St West Hartford CT (Parking lot)</p> <p>Tents: We will be setting up three high peak tents, each measuring 20x30 feet, and one high peak tent measuring 20x20 feet. These tents will be utilized for various events and functions.</p> <p>Anchoring Method: To ensure the stability and safety of the tents, we intend to use cement blocks as anchors. Each tent will be securely anchored using the specified number of cement blocks as mentioned above.</p> <p>Cement Blocks: The cement blocks we will be using for anchoring weigh 1000 lbs each. These heavy-duty blocks will provide a solid foundation for the tents, minimizing the risk of displacement.</p> <p>Safety Measures: As a responsible rental company, we prioritize the safety of our clients and the general public. During the installation process, we will take all necessary precautions to ensure that the tents are securely anchored and pose no threat to individuals or surrounding properties.</p>
