

A large sunflower with a dark brown head and bright yellow petals stands tall in a garden bed. The garden bed is bordered by concrete blocks and contains other green plants. In the background, a school building with large windows is visible. Two children are in the foreground; one is watering the plants with a red watering can, and the other is standing nearby. A green circular graphic with a yellow border is in the top right corner, containing the text 'School Garden Packages'. The bottom right corner features the 'Seedleaf' logo with the tagline 'Nourishing Communities'.

# School Garden Packages

The background of the entire page is a close-up photograph of a person's hands cupped together, holding a large quantity of dark brown, moist soil. Numerous reddish-brown earthworms are visible, crawling through the soil. The hands are positioned at the top and bottom edges of the frame, with fingers slightly curled. A solid green horizontal bar is located at the top of the image, serving as a header background.

# Classroom Vermicompost Kit

**Seedleaf will provide an indoor vermicompost system equipped with worms, start-up bedding and an informational sheet on basic worm and bin care. Seedleaf's education and outreach coordinator will make (1) trip to classrooms who purchase bins to provide a presentation on vermicomposting to students.**

**\$30**

# School Garden Bed Construction

**Seedleaf will install a basic school garden that consists of (3) 8'x3'raised beds filled with a blend of topsoil and compost. Beds are constructed from 2' x 12' Cedar boards.**

**Note: For new or expanding raised beds, schools must first submit a Project Proposal (<https://apps.fcps.net/Proposal/>). . [Additionally, school staff must follow FCPS Outdoor Classroom Manual protocols, to include Needs Assessments, forming an Outdoor Classroom Team and hosting an initial OC Team meeting. Please see the FCPS Outdoor Classroom Manual [HERE](#).**

**\$1221**

# Seasonal Plant Packages

**Seedleaf will provide spring and summer plant packages for school gardens. Each package consists of 30 individual Plants.**

**Chard**

**Cucumber**

**Dill**

**Calendula**

**\$100/ea**

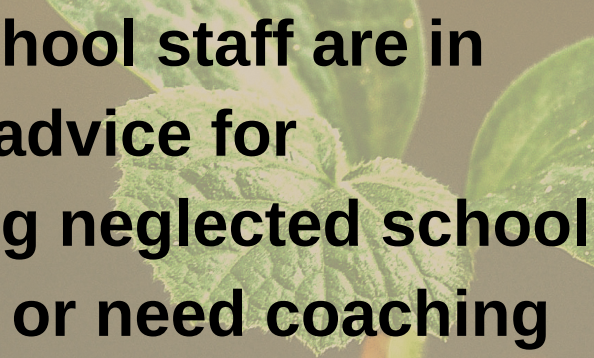

# Garden Club Support

**Seedleaf works with school staff to engage students in school garden care through leading Garden Club time during after-school hours up to 4 hours per school semester. Students engage in garden related activities such as weeding, planting and harvesting of garden produce with Seedleaf's Education and Outreach Coordinator. In institutions where there is already an existing garden club, Seedleaf provides support in the form of special presentations and limited material support for club time activities.**

**FREE**

# School Garden Consultation

Often school staff are in need of advice for restarting neglected school gardens or need coaching on beginning new school garden projects. Seedleaf staff routinely visit schools throughout Fayette County to provide advice on an array of school-garden based questions and issues. Please email [Social@seedleaf.org](mailto:Social@seedleaf.org) for more information.
