Independent Auditor's Report

To the Board of Trustees
Sweeny Independent School District
Sweeny, Texas 77480

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sweeny Independent School District (the "District") as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sweeny Independent School District, as of August 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 15 through 24, budgetary comparison information on page 83, the required pension schedules on pages 84 through 87, and the required Postemployment Benefit Other Than Pension (OPEB) schedules on pages 88 and 89 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and the required Texas Education Agency schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, required Texas Education Agency schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the required Texas Education Agency schedules, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
AUGUST 31, 2019

As management of the Sweeny Independent School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2019. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent period by \$ 34,264,384 (*net position*). Of this amount, unrestricted net position of \$ 4,332,803 may be used to meet the District's ongoing obligation.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$ 41,718,327. Approximately 27% of this total amount, \$ 11,179,085 is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$ 11,179,085, or 43% of the total general fund expenditures.
- The District reported net pension liability of \$ 4,080,292 and a net OPEB liability of \$ 8,112,560, at August 31, 2019, with the implementation of GASB Statements Nos. 68, 71, and 75.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference being reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (*governmental activities*) as opposed to *business-type activities* that are intended to recover all or a significant portion of their costs through user fees and charges. The District has no *business-type activities*. The government-wide financial statements can be found on pages 26 through 27 of this report.

SWEENEY INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
AUGUST 31, 2019

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The District maintains nineteen (19) governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, Sweeny Independent School District Education Foundation (blended component unit), debt service fund, and capital project fund; all of which are considered to be major funds. Data from the other fifteen (15) governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report. The District adopts an annual appropriated budget for its general fund, national school breakfast and lunch program special revenue fund, and debt service fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 28 through 33 of this report.
- **Fiduciary funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position that can be found on pages 34 and 35. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the financial statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37 through 80 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 83 through 89 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining statements can be found on pages 92 through 98 of this report. Other schedules are to be found on page 100 through 103 of this report.

Government-wide Financial Analysis

Net position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$ 34,264,384 as of August 31, 2019. Net position of the District's governmental activities increased from \$ 27,463,792 to \$ 34,264,384.

Investment in capital assets (e.g., land and land improvements, buildings and building improvements, furniture, equipment, and vehicles, and construction in progress) less any related debt used to acquire those assets that is still outstanding is \$ 23,480,553. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position (approximately 19%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* \$ 4,332,803 may be used to meet the District's ongoing obligations. This surplus is not an indication that the District has significant resources available to meet financial obligations next year, but rather the result of having *long-term* commitments that are less than currently available resources.

Governmental activities. The District's total net position increased by \$ 6,800,592. The total cost of all *governmental activities* this year was \$ 32,826,450. The amount that our taxpayers paid for these activities through property taxes was \$ 23,701,552 or 72% of total costs. The amount of costs that were paid by those who directly benefited from the programs was \$ 444,745 or 1%. The costs that were paid by other governments and organizations that subsidized certain programs with grants and contributions or by some state equalization funding was \$ 2,792,964 or 9% and \$ 2,509,556 or 8%, respectively.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$ 41,718,327, an increase of \$ 23,564,636. Approximately 27% of this total amount (\$ 11,179,085) constitutes *unassigned fund balance*. The remainder of fund balance is non-spendable, restricted, committed, or assigned to indicate that it is not available for new spending because it has already been classified 1) for inventory \$ 75,228, 2) for prepaid items \$ 182,782, 3) for grant funds \$ 428,006, 4) for capital acquisitions and contractual obligations \$ 19,385,170, 5) to pay debt service \$ 2,756,761, 6) for long-term investments \$ 3,209,602, 7) for claims and judgments \$ 250,000, 8) for capital expenditures for equipment \$ 350,000, 9) for other purposes \$ 1,424,978, and 10) for other assignment \$ 2,476,715.

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$ 11,179,085, while the total fund balance was \$ 14,478,564. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance and total fund balance to the total fund expenditures. Unassigned fund balance represents 43% of the total general fund expenditures, while total fund balance represents 55% of that same amount.

The fund balance of the District's general fund increased \$ 4,299,793 or 42% during the current fiscal year compared to last year's total general fund balance of \$ 10,178,771. Revenues increased from prior year approximately \$ 3,709,341 or 13%. Expenditures decreased approximately 4% from prior year from \$ 27,200,817 to \$ 26,140,178. Key factors related to this change were as follows:

- Facilities maintenance and operations cost decreased \$ 554,221 from prior year.
- Contracted and instructional services cost decreased \$ 580,222 from prior year.

The Sweeney Education Foundation fund has a total fund balance of \$ 4,634,580, of which \$ 3,209,602 is restricted for long-term investment and \$ 1,424,978 is committed for other purposes. The net increase in fund balance during the period in the Sweeney Education Foundation fund was \$ 3,956.

The debt service fund has a total fund balance of \$ 2,756,761 all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$ 1,390,974. The increase in fund balance was mainly due to the District collecting more taxes to pay for the District's debt obligations during the fiscal year.

The capital project fund has a total fund balance of \$ 19,385,170 all of which is restricted for capital acquisitions and contractual obligations. The net increase in fund balance during the period in the capital project fund was \$ 17,843,359. The increase in fund balance was mainly due to the District having issued \$ 16,775,000 in Unlimited Tax School Building Bonds.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved revisions to budgeted revenue and appropriations. These amendments fall into the following categories:

- Amendments approved shortly after the beginning of the new fiscal period for amounts reserved and designated in the prior year.
- Amendments to budget for donations received during the period.
- Amendments during the period for unexpected occurrences.

Following is a summary of amendments made to appropriations:

- \$ 25,723 increase for contracted services
- \$ 47,624 increase for donations & grants
- \$ 30,000 increase for legal fees
- \$ 15,048 increase for miscellaneous operating expenses
- \$ 18,000 increase for property value audit
- \$ 109,920 increase for salary changes
- \$ 63,318 increase for software & supplies
- \$ 37,000 increase for utilities

After appropriations were amended as described above, actual revenues were more than the final budget by \$ 2,383,229 mainly due to increase in local and intermediate source revenue and state program revenue. Actual expenditures were \$ 2,432,812 below final budget amounts. The major portion of this positive variance was due to the decreases in expenditures in instruction, student (pupil) transportation, facility maintenance and operations, and contracted instructional services.

Capital Asset and Debt Administration

Capital assets. The District's investments in capital assets for its governmental activities as of August 31, 2019 amounts to \$ 58,439,651 (net of accumulated depreciation). This investment in capital assets includes land and land improvements, buildings and building improvements, furniture, equipment and vehicles, and construction in progress.

District's Capital Assets (net of depreciation)

	<u>2019</u>	<u>2018</u>
Land and land improvements	\$ 1,591,884	\$ 1,703,554
Buildings and building improvements	53,800,085	55,431,227
Furniture, equipment and vehicles	2,494,433	2,432,976
Construction in progress	<u>553,249</u>	<u>13,257</u>
Total at historical cost	<u>\$ 58,439,651</u>	<u>\$ 59,581,014</u>

Additional information on the District's capital assets can be found in Note 5 on page 58 through 59 of this report.

Long-term debt. At August 31, 2019, the District had total long-term debt outstanding of \$ 66,771,643, an increase of \$ 18,311,515 from the previous year, primarily due to the payment of outstanding bonds, issuance of a new bond, and the change in pension and OPEB liability. Long-term debt is made up of the following:

District's Long-Term Debt

	<u>2019</u>	<u>2018</u>
General obligation bonds	\$ 49,975,000	\$ 35,870,000
Tax notes	1,465,000	1,600,000

SWEENEY INDEPENDENT SCHOOL DISTRICT**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
GOVERNMENTAL ACTIVITIES STATEMENT OF ACTIVITIES
YEAR ENDED AUGUST 31, 2019**

Exhibit C-2R

Net change in fund balances – total governmental funds (from C-2)	\$ 23,564,636
Amounts reported for governmental activities in the statement of activities (B-1) are different because:	
Governmental funds report capital outlays as expenditures. However, in the governmental activities statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays \$ 1,570,602 was less than depreciation of \$ 2,651,465 in the current period.	(1,080,863)
Governmental funds report pension payments as expenditures. However, in the governmental activities statement of activities, the pension cost is calculated by an actuary and involves multiple factors. The amount of pension expense reported was \$ 245,491 more than the amount reported in the funds.	(245,491)
Governmental funds report OPEB payments as expenditures. However, in the governmental activities statement of activities, the OPEB cost is calculated by an actuary and involves multiple factors. The amount of OPEB expense reported was \$ 144,180 less than the amount reported in the funds.	(144,180)
Property tax revenues in the governmental activities statement of activities do not provide current financial resources and are not reported as revenues in the funds. Change in deferred property tax revenues for the general fund and the debt service fund amounted to \$ 92,444 and \$ 17,749, respectively.	(110,193)
Premium on the issuance of bonds provide current financial resources to governmental funds but the proceeds decrease long-term assets in the statement of net position. This amount is amortized over the life of the bonds. Net premium on the issuance of bonds were \$ 1,097,661 (amortization of \$ 155,156 less premium on sale of bonds of \$ 1,252,817).	(1,097,661)
Deferred refunding cost is another use in the governmental funds, but the costs increase deferred outflows in the statement of net position. This amount is amortized over the life of the refunding bonds or the refunded bonds, whichever is shorter. Current year amortized amount was \$ 56,738.	(56,738)
Long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the governmental activities statement of net position. Long-term proceeds in the governmental fund were \$ 16,775,000 for notes.	(16,775,000)
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the governmental activities statement of net position. This amount was for general obligation bonded debt \$ 2,849,091.	2,849,091
Some expenses reported in the governmental activities statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the amount of accrued interest on long-term debt of \$ 42,509.	(42,509)
Governmental funds report proceeds from the sale of assets as revenue. However, in the governmental activities statement of activities, the cost of the assets disposed is offset against the proceeds to report gain or loss on the disposition of assets. The cost of assets disposed was \$ 60,500 (cost of \$ 60,500 less accumulated depreciation of \$ -0-).	(<u>60,500</u>)
Change in net position of governmental activities (see B-1)	\$ <u><u>6,800,592</u></u>

SWEENEY INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sweeny Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees that are elected by registered voters of the District.

The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources; and it complies with the requirements of the appropriate version of Texas Education Agency's (the "TEA") *Financial Accountability System Resource Guide* (the "Resource Guide" or "FASRG") and the requirements of contracts and grants of agencies from which it receives funds.

The following is a summary of the most significant accounting policies.

Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared, based on considerations regarding the potential for inclusion of other entities, organizations, or functions, as part of the District's financial reporting entity. Based on these considerations, the District's basic financial statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the District's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are: that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments.

Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its GASB Statement No. 61, "The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14. and No. 34". A blended component unit, although a legally separate entity, is, in substance, part of the District's operations.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

- Blended component unit. The Sweeney Independent School District Education Foundation was established under Internal Revenue Service regulations as a conduit for tax-deductible donations to the District. The Foundation's board is approved by the Superintendent. The Foundation is a supporting organization to the District. The Foundation is presented as a special revenue fund of the District.

The District receives support from various PTO and booster clubs. None of these organizations meet the criteria specified by GASB 61 to be included in the District's financial statements

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report financial information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. The *governmental activities* are supported by tax revenues, state foundation funds, grants, and intergovernmental revenues. The District has no *business-type activities* that rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Interfund activities between governmental funds appear as due to/due from on the Governmental Funds Balance Sheet and as other resources and other uses on the Governmental Funds Statement of Revenues, Expenditure and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as receivables and payables on the government-wide statement of net position.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported in separate columns in the fund financial statements.

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation **(Continued)**

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Revenue from investments, including governmental external investment pools, is based upon fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pools are permitted to report short-term debt investments at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as needed.

The District reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund. Major revenue sources include local property taxes, state funding under the Foundation School Program and interest earnings. Expenditures include all costs associated with the daily operations of the District except for specific programs funded by the federal and state government, food service, debt service, and capital projects.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation (Continued)

The *Sweeny Education Foundation* accounts for contributions that are tax-deductible. The foundation was established as a conduit for tax-deductible donations to the District.

The *debt service* fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds for which a tax has been dedicated. This is a budgeted fund and a separate bank account is maintained for this fund. Any unused sinking fund balances are transferred to the general fund after all of the related debt obligations have been met. Major revenue sources include local property taxes, and interest earnings. Expenditures include all costs associated with related debt service.

The *capital projects* fund accounts for the resources accumulated and made for Board authorized acquisition, construction, or renovation, as well as, furnishing and equipping of major capital facilities. The major revenue source includes investment earnings and other resources from proceeds from sale of general obligation bonded debt.

Additionally, the District reports the following fiduciary funds:

The *private-purpose trust funds* are used to account for donations and other specified donor purposes for family crisis. The District uses the fund to pay for medical care needed by disadvantaged students who cannot afford such care.

The *agency fund* accounts for resources held in a custodial capacity by the District, and consists of funds that are the property of students or others.

Cash and Investments

The District considers highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Current investments have an original maturity greater than three months but less than one year at the time of purchase. Non-current investments have an original maturity of greater than one year at the time of purchase.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All outstanding balances between funds are reported as "due to/from other funds". The District had no advances between funds. See Note 4 for additional discussion of interfund receivables and payables.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of January 1 for all real and business property located in the district in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

The appraisal and recording of all property within the District is the responsibility of the Brazoria County Appraisal District (BCAD), an independent governmental unit with a board of directors appointed by the taxing jurisdictions within the county and funded from assessments against those taxing jurisdictions. BCAD is required by law to assess property at 100% of its appraised value. Real property must be reappraised at least every two years.

Under certain circumstances taxpayers and taxing units, including the District, may challenge orders of the BCAD Review Board through various appeals and, if necessary, legal action.

The assessed value of the property tax roll on August 1, 2018, upon which the levy for the 2018-19 fiscal year was based, was \$ 1,724,863,250. Taxes are delinquent if not paid by June 30. Delinquent taxes are subject to both penalty and interest charges plus 20% delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2019 to finance general fund operations and the payment of principal and interest on general obligation long-term debt were \$ 1.06 and \$ 0.1517 per \$ 100 valuation, respectively, for a total of \$ 1.2117 per \$ 100 valuation.

Current tax collections for the year ended August 31, 2019 were 99.12% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the general and debt service funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2019, property taxes receivable, net of estimated uncollectible taxes, totaled \$ 181,740 and \$ 28,231 for the general and debt service funds, respectively.

Inventories

The consumption method is used to account for inventories (food products, school supplies and athletic equipment) of governmental funds. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed. Governmental fund inventories are offset by a fund balance reserve indicating that they are unavailable as current expendable financial resources. Inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Although commodities are received at no cost, their market value is recorded as inventory and unearned revenue when received in the governmental funds. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Depreciation

Capital assets, which include land and land improvements, buildings and improvements, and furniture, equipment and vehicles, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Land improvements, buildings and improvements, and furniture, equipment, and vehicles of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings and building improvements	20-40
Furniture and equipment	5-20
Vehicles	10-15

Deferred Outflows and Inflows of Resources

Guidance for deferred outflows of resources and deferred inflows of resources is provided by GASB No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". Concepts Statement No. 4, Elements of Financial Statements, introduced and defined those elements as a consumption of net position by the government that is applicable to a future reporting period, and an acquisition of net position by the government that is applicable to a future period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Further, GASB No. 65, "Items Previously Reported as Assets and Liabilities", had an objective to either (a) properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or (b) recognize certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues).

Compensated Absences

Compensated absences are absences for which employees will be paid. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the government and its employees is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the government and its employees are accounted for in the period in which such services are rendered or such events take place.

SWEENEY INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences (Continued)

In the governmental funds, compensated absences that are expected to be liquidated with expendable available resources are reported as an expenditure and fund liability in the fund that will pay for them. The remainder of the compensated absences liability is reported in long-term liabilities on the statement of net position.

Vacations are to be taken within the twelve month period that they are earned. Any unused vacation days will be forfeited with the exception of five carry over days per year. A maximum of twenty total days can be accumulated and paid when an employee retires without prior approval. Employees of the District are entitled to sick leave based on category/class of employment. Sick leave is allowed to be accumulated but does not vest. Therefore, no liability for unused sick leave has been accrued in the accompanying basic financial statements.

The following is a summary of changes in the accumulated unused vacation liability:

	<u>2019</u>
Balance, September 1	\$ 109,274
Additions – net unused	50,089
Deductions – payments	<u>(1,011)</u>
Balance, August 31	<u>\$ 158,352</u>

The amounts attributable to the current and non-current portions on the liability resulting from this policy can only be estimated. As such, the entire amount of the liability is accounted for in the general fund and national school breakfast and lunch program special revenue fund as current liability.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenditure or expenses in the current period. Net pension and OPEB liabilities are reported as long term liabilities and pension and OPEB expenses, based upon actuarial data, are reported as expenses within functional categories.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing resources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Net pension and OPEB costs are reported, based upon required contributions for the current period, are reported within functional categories as expenditures.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Budgetary Data

Formal budgetary accounting is employed for all required governmental funds, as outlined in TEA's FASRG, and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required governmental funds prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, debt service fund and the national school breakfast and lunch program (special revenue fund). The remaining special revenue funds and the capital projects fund (if utilized) adopt project-length budgets, which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles. The budget was properly amended throughout the year by the Board of Trustees. Such amendments are before the fact and are reflected in the official minutes of the Board.

SWEENEY INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Data (Continued)

The Official Budget was prepared for adoption for the general fund, national school breakfast and lunch program (special revenue fund) and debt service fund prior to August 31, 2018. The budget is prepared by fund, function, object, and organization. The budget is controlled at the organizational level by the appropriate department head or campus principal within Board allocations. Therefore, organizations may transfer appropriations as necessary without the approval of the board unless the intent is to cross fund, function or increase the overall budget allocations. Control of appropriations by the Board of Trustees is maintained within fund groups at the function code level and revenue object code level.

The Budget is formally adopted by the Board of Trustees at a duly advertised public meeting in accordance with law prior to the expenditure of funds. The approved budget is filed with the Texas Education Agency (TEA) through the Public Education Information Management System. Should any change in the approved budget be required, budget amendment requests are presented to the Board of Trustees for consideration. Amendments are made before the fact and once approved are reflected in the official minutes. During the year the budget was properly amended in accordance with the above procedures.

Encumbrance Accounting

The District utilizes encumbrance accounting, in its governmental funds. Encumbrances represent commitments related to contracts not yet performed (executor contracts), and are used to control expenditures for the period and to enhance cash management. A school district often issues purchase orders or signs contracts for the purchase of goods and services to be received in the future. At the time these commitments are made, which in its simplest form means that when a purchase order is prepared, the appropriate account is checked for available funds. If an adequate balance exists, the amount of the order is immediately charged to the account to reduce the available balance for control purposes. The encumbrance account does not represent and expenditure for the period, only a commitment to expend resources.

Prior to the end of the current period, every effort should be made to liquidate outstanding encumbrances. When encumbrances are outstanding at the current period end, the school district likely will honor the open purchase orders or contracts that support the encumbrances. For reporting purposes, as noted earlier, outstanding encumbrances are not considered expenditures for the current period. If the school district allows encumbrances to lapse, even though it plans to honor the encumbrances, the appropriations authority expires and the items represented by the encumbrances are usually re-appropriated in the following year's budget. Open encumbrances at current period-end are included in restricted, committed or assigned fund balance, as appropriate.

The District canceled all the open purchase orders at the end of fiscal year. Therefore, the District had no outstanding encumbrances as of August 31, 2019.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances

The District's Board of Trustees meets on a regular basis to manage and review cash financial activities and to ensure compliance with established policies. The District's Unassigned General Fund Balance is maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned General Fund Balance may only be appropriated by resolution of the Board of Trustees. Fund Balance of the District may be committed for a specific source by formal action of the District's Board of Trustees. Amendments or modifications of the committed fund balance must also be approved by formal action by the District's Board of Trustees. When it is appropriate for fund balance to be assigned, the Board of Trustees, delegates authority to the Superintendent or the Executive Director of Business Services. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

The District implemented GASB Statement No. 54, "Fund Balance, Reporting and Governmental Fund Type Definitions". This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on government's fund balance more transparent. The following classifications describe the relative strength of spending constraints:

Non-spendable Fund Balance - Includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid amounts, assets held for sale, and long-term receivables.

Restricted Fund Balance - Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions of enabling legislation).

Committed Fund Balance - Amounts that can only be used for specific purposes because of board resolution by the Board of Trustees.

Assigned Fund Balance - Amounts that are constrained by the District's intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body (such as a Finance Committee), or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.

Unassigned Fund Balance - This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amount had been restricted, committed or assigned.

SWEENY INDEPENDENT SCHOOL DISTRICT

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances (Continued)

As of August 31, 2019, non-spendable fund balances include \$ 39,982 for inventories and \$ 182,782 for prepaid items in the general fund and \$ 35,246 for inventories in national school breakfast and lunch program (special revenue fund). Restricted fund balances include \$ 3,209,602 for Sweeny education foundation fund long-term investments, \$ 2,756,761 for debt service fund, \$ 19,385,170 for capital projects fund, and \$ 428,006 for special revenue funds. Committed fund balances include \$ 250,000 for claims and judgments and \$ 350,000 for capital expenditures for equipment in the general fund, and \$ 1,424,978 for other purpose in Sweeny Education Foundation fund. Assigned fund balance includes \$ 2,476,715 in the general fund for other purposes. Unassigned fund balance includes \$ 11,179,085 in the general fund.

Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the FASRG. The TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reporting amounts of assets and deferred outflows of resources, and, liabilities and deferred inflows of resources at the date of the financial statements, and the reported amounts of revenues and expenditures during the period. Actual results could differ from these estimates.

New Pronouncements

GASB issues statements on a routine basis with the intent to provide authoritative guidance on the preparation of financial statements and to improve governmental accounting and financial reporting of governmental entities. Management reviews these statements to ensure that preparation of its financial statements are in conformity with generally accepted accounting principles and to anticipate changes in those requirements. The following recent GASB Statements reflect the action and consideration of management regarding these requirements:

GASB No. 83 "Certain Asset Retirement Obligations" was issued in November 2016. The statement was implemented and did not have a material effect on the financial statements of the District. The requirements of this Statement are effective for periods beginning after June 15, 2018.

NOTE 2. DEPOSITS, INVESTMENTS AND DERIVATIVES

The District classifies deposits and investments for financial statement purposes as cash and cash equivalents, current investments, and non-current investments based upon both liquidity (demand deposits) and maturity date (deposits and investments) of the asset at the date of purchase. For this purpose an investment is considered a cash equivalent if when purchased it has maturity of three months or less. Investments are classified as either current investments or non-current investments. Current investments have maturity of one year or less and non-current investments are those that have a maturity of one year or more.

Deposits

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a financial institution failure, the District's deposits may not be returned to them. The District requires that all deposits with financial institutions be collateralized in an amount equal to 100 percent of uninsured balances.

Under Texas state law, a bank serving as the school depository must have a bond or in lieu thereof, deposited or pledged securities with the District or an independent third party agent, an amount equal to the highest daily balance of all deposits the District may have during the term of the depository contract, less any applicable FDIC insurance.

At August 31, 2019, in addition to petty cash of \$ 137, the carrying amount of the District's cash, savings, and time deposits was \$ 4,171,154 and the financial institutions balances were \$ 5,430,660. Deposit balances of \$ 500,000 were covered by federal depository insurance, \$ 3,446,596 was covered by the Securities Investor Protection Corporation Insurance, and \$ 1,484,064 was covered by collateral pledged in the District's name. The collateral was held in safekeeping departments of unrelated banks, which act as the pledging bank's agent. These amounts include those of the Sweeny Education Foundation.

Total amount of Securities Investor Protection Corporation Insurance coverage at the time of the largest combined balance was \$ 3,068,808. \$ 4,500,000 was covered by collateral pledged in the District's name and \$ 5,043,072 was uncovered.

Investments

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the District to invest its funds under written investment policy (the "investment policy") that primarily emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. This investment policy defines what constitutes the legal list of investments allowed under the policies, which excludes certain instruments allowed under chapter 2256 of the Texas Government Code.

The District's deposits and investments are invested pursuant to the investment policy, which is approved by the Board of Trustees. The investment policy includes lists of authorized investment instruments and allowable stated maturity of individual investments. In addition it includes and "Investment Strategy Statement" that specifically addresses each investment option and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification and yield. Additionally, the soundness of financial institutions (including broker/dealers) in which the District will deposit funds is addressed. The District's investment policy and types of investments are governed by the Public Funds Investment Act (PFIA). The District's management believes it complied with the requirements of the PFIA and the District's investment policy.

The District's Investment Officer submits an investment report each quarter to the Board of Trustees. The report details the investment positions of the District and the compliance of the investment portfolio's as they relate to both the adopted investment strategy statements and Texas State law.

NOTE 2. DEPOSITS, INVESTMENTS AND DERIVATIVES (Continued)

Investments (Continued)

The District is authorized to invest in the following investment instruments provided that they meet the guidelines of the investment policy:

1. Obligations of, or guaranteed by, governmental entities as permitted by Government Code 2256.009;
2. Certificates of deposit and share certificates as permitted by Government Code 2256.010;
3. Fully collateralized repurchase agreements permitted by Government Code 2256.011;
4. Banker's acceptances as permitted by Government Code 2256.012;
5. Commercial paper as permitted by Government Code 2256.013;
6. No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014;
7. A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015; and
8. Public funds investment pools as permitted by Government Code 2256.016.

The District participates in a repurchase agreement for the purpose of investing funds to pay matured bonds. This agreement governs the investment of bond payments at a fixed rate between the District and the depository on scheduled dates. This agreement is not considered a deposit and is not insured by federal deposit insurance or any other insurance. These investments have a custodial risk as uninsured and unregistered, with securities held by the financial institutions trust department or agent in the District's name.

The District entered into this agreement for the purpose of repaying bonds. This agreement shall not be terminable upon demand. The District will participate in this agreement until completion of term with an interest rate of 2.95% on the investments. The District will then repay bonds with this investment. During the year ended August 31, 2019 the District made its 13th payment of \$ 37,307. At August 31, 2019 the value of cash and investments were \$ 595,295. See Note 6 on pages 59-63 for additional information regarding the bonds and mandatory sinking fund requirements.

The District participates in three Local Government Investment Pools (LGIPs): Texpool, Lonestar and MBIA Texas Class. The State Comptroller oversees Texpool and Federated Investors managing the daily operations of the pool under a contract with the State Comptroller. Advisory boards consisting of participants or their designees, maintains oversight responsibility for MBIA Texas Class and Lonestar.

The District invests in Texpool, Lonestar and MBIA Texas Class to provide its liquidity needs. Texpool, Lonestar and MBIA Texas Class are local government investment pools that were established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Code. Texpool, Lonestar and MBIA Texas Class are 2(a)7 like funds, meaning that they are structured similar to a money market mutual fund. Such funds allow shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are also adjusted on a daily basis. Such funds seek to maintain a constant net asset value of \$ 1.00, although this cannot be fully guaranteed. Texpool, Lonestar and MBIA Texas Class are rated AAA and must maintain a dollar weighted average maturity not to exceed 60 days, which is the limit.

SWEENEY INDEPENDENT SCHOOL DISTRICT*NOTES TO THE FINANCIAL STATEMENTS**YEAR ENDED AUGUST 31, 2019***NOTE 2. DEPOSITS, INVESTMENTS AND DERIVATIVES (Continued)****Investments (Continued)**

At August 31, 2019 Texpool, Lonestar and MBIA Texas Class had a weighted average maturity of 31 days, 40 days and 50 days, respectively. Although Texpool, Lonestar and MBIA Texas Class portfolios had a weighted average maturity of 31 days, 40 days and 50 days, respectively, the District considers holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value. The District's investments in LGIPs are insured, registered, or the District's agent holds the securities in the District's name; therefore, the District is not exposed to custodial risk.

The following table includes the portfolio balances of all investment types of the District at August 31, 2019.

NOTE 2. DEPOSITS, INVESTMENTS AND DERIVATIVES (Continued)

Investments (Continued)

Credit Risk – As of August 31, 2019, the LGIPs (which represent approximately 90% of the portfolio) are rated AAAM by Standard and Poor's or AAA by Finch. Certificates of deposit (which represent approximately 6% of the portfolio) are fully insured by the Securities Investor Protection Corporation Insurance and by federal depository insurance through CDARS programs. The U.S. government bond (which represent approximately 3% of the portfolio) are rated AAA by Standard and Poor's. The mutual fund (which represents approximately 1% of the portfolio) is not rated.

Interest Rate Risk – As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that investment maturities will not exceed the lesser of a dollar weighted average maturity of 365 days or the anticipated cash flow requirements of the funds. Quality short-to-medium term securities should be purchased, which complement each other in a structured manner that minimizes risk and meets the District's cash flow requirements.

At August 31, 2019, 99% of the investment portfolio was invested in AAAM or AAA rated LGIPs (2(a)7 like pools), U.S. Government Securities, and certificates of deposit. 1% of the investment portfolio was invested in mutual funds. The dollar weighted average maturity for all investments was 120 days, which was less than the threshold of 365 days.

Fair Value – The District categorizes its fair value measurements within the fair value hierarchy established by GASB No 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6. LONG-TERM DEBT**Loans**

Short term debts are accounted for through the appropriate fund, and consist of notes made in accordance with the provisions of the Texas Education Code. This District was not a party to any loan transactions during the year ended August 31, 2019.

General Obligation Bonds

Long-term debt includes par bonds, capital appreciation (deep discount) serial bonds, contractual obligations and loans. Contractual obligations are issued at parity with general obligation bonds, but carry a secondary revenue stream pledge; however, all certificates of obligation are tax, not revenue, supported. This debt, unlike other tax-supported debt, can be issued without a vote of the citizens. Bond premiums and discounts, and gain and losses on refunding are amortized using the straight-line method.

Defeased Debt

During the year ended August 31, 2013, the District issued \$ 9,205,870 in Unlimited Tax Refunding Bonds - Series 2012, for the refunding of previously issued Unlimited Tax School Building Bonds - Series 2007. The District placed the proceeds of the refunding, in the amount of \$ 9,389,893, in an escrow fund. The escrow fund is irrevocably pledged to the payment of principal and interest on the issue being refunded. The difference between the cash flow to service the old debt and that required to service the new debt and complete the refunding was a decrease of \$ 1,092,224. The economic gain resulting from the transaction was \$ 1,000,308. The balance of the escrow account and the bonds payable at August 31, 2019 was \$ 6,510,755 and \$ 5,885,000, respectively.

During the year ended August 31, 2018, the District initiated a partial defeasance, in the amount of \$ 530,000, of the previously issued Unlimited Tax Refunding Bonds - Series 2012. The District placed the \$ 553,562 of local funds in escrow for the payment of these bonds. The escrow fund is irrevocably pledged to the payment of principal and interest on the defeased fund. The difference between the cash flow to service the old debt and the amount of the escrow payment was \$ 8,900, the economic gain resulting from the transaction was \$ 8,900. The balance of the escrow account and the bonds payable at August 31, 2019 was \$ 535,053 and \$ 530,000.

NOTE 8. DEFINED BENEFIT PENSION PLANS

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-suppoused education institutions in Texas who are employed for one-half or more of the standard work load who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. The report may be obtained on the Internet at <http://www.trs.state.tx.us/amount/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

NOTE 8. DEFINED BENEFIT PENSION PLANS (Continued)

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credit service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, Section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 85th Texas Legislature, General Appropriations Act (GAA) affirmed that the employer contribution rates for fiscal years 2018 and 2019 would remain the same.

<u>Contribution Rates</u>	<u>2018</u>	<u>2019</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Employer # 1202 – 2019 Employer Contributions		\$ 264,035
Employer # 1202 – 2019 Member Contributions		\$ 259,106
Employer # 1202 – 2019 NECE On-behalf Contributions		\$ 661,341
Employer # 1202 – 2019 Medicare Part D Contributions		\$ 49,922

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

NOTE 8. DEFINED BENEFIT PENSION PLANS (Continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement age surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2017 actuarial valuation rolled forward to August 31, 2018 was determined using the following actuarial assumptions:

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	6.907%
Long-term expected Investment Rate of Return	7.25%
Inflation	2.30%
Salary Increases including inflation	3.05% to 9.05%
Payroll Growth Rate	2.50%
Benefit changes during the year	None
Ad-hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2017 and adopted in July 2018.

Discount Rate

The single discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.69 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2018 are summarized below:

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (6.907%) in measuring the Net Pension Liability.

	1% Decrease in Discount Rate (5.907%)	Discount Rate (6.907%)	1% Increase in Discount Rate (7.907%)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2019, the District reported a liability of \$ 4,080,292 for its proportionate share of TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	\$ 4,080,292
State's proportionate share that is associated with the District	<u>2,079,486</u>
Total	\$ <u>6,159,778</u>

The net pension liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2017 and rolled forward to August 31, 2018. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the employer's proportion of the collective net pension liability was 0.0074130% which was an increase of 0.0001015% from its proportion measured as of August 31, 2017.

Changes since the prior Actual Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The Total Pension Liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8.0 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8.0 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the Net Pension Liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2019, the District recognized pension expense of \$ 1,002,299 and revenue of \$ 661, 340 for support provided by the State.

At August 31, 2019, the District reported its proportionate share of TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 25,433	\$ 100,114
Changes in actuarial assumptions	1,471,142	45,973
Difference between projected and actual investment earnings		77,420
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	223,589	15,987
Contributions paid to TRS subsequent to the measurement date	<u>264,035</u>	<u> </u>
Total	<u>\$ 1,984,199</u>	<u>\$ 239,494</u>

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in a separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. The report may be obtained on the Internet at <http://www.trs.state.tx.us/amount/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents are not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (Continued)

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage.

TRS-Care Monthly for Retirees
Effective September 1, 2018 thru December 31, 2018

	Medicare	Non-Medicare
Retiree*	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree* and Children	468	408
Retiree and Family	1,020	999
* or surviving spouse		

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded as a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.75 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

<u>Contribution Rates</u>	2018	2019
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
Employer # 1202 – 2019 Employer Contributions		\$ 108,872
Employer # 1202 – 2019 Member Contributions		\$ 37,399
Employer # 1202 – 2019 NECE On-behalf Contributions		\$ 121,570

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB Program). When hiring a TRS retiree, employers are required to pay TRS Care, a monthly surcharge of \$ 535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$ 182.6 million in fiscal year 2018. The 85th Texas Legislature, House Bill 30 provided an additional \$ 212 million in one-time, supplemental funding for the FY2018-19 biennium to continue to support the program. This was also received in FY2018 bringing the total appropriations received in fiscal year 2018 to \$ 394.6 million.

Actuarial Assumptions

The total OPEB liability in the August 31, 2017 was rolled forward to August 31, 2018. The actual valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation, salary increases, and general payroll growth, used in this OPEB valuation were identical to those used in the respective TRS pension valuation. Since the assumptions were based upon a recent actuarial experience study performed and they were reasonable for this OPEB valuation, they were employed in this report.

The following assumptions used for members of TRS are identical to the assumptions employed in the August 31, 2018 TRS annual pension actuarial valuation:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability	

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The Post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Additional Actuarial Methods and Assumptions:

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$ 850 / \$ 2,292 were indexed annually by 2.50%
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

Discount Rate

A single discount rate of 3.69% was used to measure the total OPEB liability. There was an increase of 0.27 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The project of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.69%) in measuring the Net OPEB Liability.

	<u>1% Decrease in Discount Rate (2.69%)</u>	<u>Discount Rate (3.69%)</u>	<u>1% Increase in Discount Rate (4.69%)</u>
District’s proportionate share of the Net OPEB Liability	\$ <u>9,656,733</u>	\$ <u>8,112,560</u>	\$ <u>6,891,019</u>

Healthcare Cost Trend Rates Sensitivity Analysis

The following schedules presents the District’s proportional share of the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% greater than and 1% less than the assumed healthcare cost trend rate:

	<u>1% Decrease</u>	<u>Current Healthcare Cost Trend Rate</u>	<u>1% Increase</u>

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2019, the District reported a liability of \$ 8,112,560 for its proportionate share of TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate share of the collective net OPEB liability	\$ 8,112,560
State's proportionate share that is associated with the District	<u>4,658,670</u>
Total	<u>\$ 12,771,230</u>

The net OPEB liability was measured as of August 31, 2017 and rolled forward to August 31, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At August 31, 2018 the employer's proportion of the collective net OPEB liability was 0.0162475685% compared to 0.0151015255% as of August 31, 2017.

Changes since the prior Actual Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

1. Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018. This change increased the Total OPEB Liability.
2. The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020. This change increased the Total OPEB Liability.
3. Demographic and economic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2017. This change increased the Total OPEB liability.
4. The discount rate was changed from 3.42 percent as of August 31, 2017 to 3.69 percent as of August 31, 2018. This change lowered the Total OPEB liability \$ 2.3 billion.
5. Changes in Benefit Terms Since the Prior Measurement Date - The 85th Legislature, Regular Session, passed the following statutory changes in House Bill 3976 which became effective on September 1, 2017:
 - a. Created a high-deductible health plan that provides zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.

NOTE 9. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS (Continued)

- b. Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- c. Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- d. Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- e. Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$ 200 per month toward their health insurance premiums.

For the year ended August 31, 2019, the District recognized OPEB expense of \$ 399,768 and revenue of \$ 121,570 for support provided by the State.

At August 31, 2019, the District reported its proportionate share of TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 430,503	\$ 128,028
Changes in actuarial assumptions	135,377	2,437,359

Total	<u>\$ 1,304,504</u>	<u>\$ 2,565,387</u>

\$ 108,872 reported as deferred outflows of resources related to OPEB relating from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the year ending August 31, 2019. Other amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year ended August 31, 2019, the district purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

NOTE 13. RISK POOL PARTICIPATION

The District is a participant in the Texas Association of School Boards, Inc. (TASB) Risk Management for coverage of unemployment compensation and worker's compensation. The District pays annual premiums to the pool for coverage stated. The District participates in a pool and is not responsible for its own claims.

NOTE 13. RISK POOL PARTICIPATION (Continued)

Auto, Liability, and/or Property Programs

During the year ended August 31, 2019, Sweeny ISD participated in the following TASB Risk Management Fund (the Fund) programs:

Auto Liability
Auto Physical Damage
Legal Liability
Privacy & Information Security

The Fund was created and is operated under the provision of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties .

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2019, the Fund anticipates that Sweeny ISD has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2018, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Unemployment Compensation Pool

During the year ended August 31, 2019, Sweeny ISD provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligations to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool. For the year ended August 31, 2019, the Fund anticipates that Sweeny ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. Workers' Compensation Pool

During the year ended August 31, 2019, Sweeny ISD met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers' Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$ 2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2018, the Fund carries a discounted reserve of \$ 48,977,531 for future development on reported claims and claims that have been incurred but not yet reported. For the year-ended August 31, 2019, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2018, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

NOTE 14. LITIGATION AND CONTINGENCIES

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2019 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 15. JOINT VENTURED-SHARED SERVICE ARRANGEMENTS

The District participates in a Shared Services Arrangement ("SSA") for the hearing impaired through the Brazoria-Fort Bend Cooperative with eleven other school districts. The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Fort Bend Independent School District, nor does the district have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to Sweeny Independent School District. The fiscal manager is responsible for all financial activities of the shared services arrangement. The amount of state revenues and expenditures attributable to the District's participation is not available. The District portion of cost covered by revenue received by the fiscal agent was \$ 12,300.

During the year ended August 31, 2019, the Sweeny Independent School District (SISD) entered into an interlocal agreement with Brazosport Independent School District (BISD) for management and director services for SISD's Child Nutrition Department. SISD agrees to supply necessary personnel including the Director position, equipment, supplies, food, and other costs to operate the Child Nutrition Department. BISD agrees to provide consulting services including a dietician for shared menu development along with training opportunities to allow for continuous improvement of the current program. As part of the agreement, BISD will review SISD's current purchasing contracts and operating procedures and make recommendation for SISD's administration and Board to consider. In an effort to maintain operational consistencies between the two Districts, SISD's employees will be included in trainings held at BISD. The parties intend that BISD, in performing such services, shall act as an independent contractor. In consideration of the services above, SISD agrees to pay BISD \$ 10,000 annually. The effective commencement date of this Agreement shall be September 1, 2018 and shall continue until August 31, 2019

NOTE 17. TAX ABATEMENTS

The District enters into appraised value limitations with local businesses under the Texas Economic Development Act (Tax Code Chapter 313). Under the Act, an appraised value limitation is an agreement in which a taxpayer agrees to build or install property and create jobs in exchange for a 10-year limitation on the taxable property value for the District's maintenance and operations tax (M&O) purposes. The minimum limitation value varies by District. The application for a limitation on the appraised value for M&O purposes is submitted directly to the District and requires an application fee that is established by the District. To qualify for a tax credit, a separate application must be submitted to the District after property taxes for the last complete year of the qualifying time period are paid. The credit is for M&O taxes paid in excess of the limitation amount in each complete year of the qualifying time period. The District's tax collector must credit the overage in equal parts over the last seven years of the agreement, but the credit in each year may not exceed 50 percent of the total taxes paid on the qualified property during that year. Any eligible amount not credited during the seven-year period are to be credited over the following three years, but the amount credited in each year may not exceed the total taxes paid on the qualified property in that year. The following are brief descriptions of each agreement followed by a summary of the agreements as of August 31, 2019:

The District entered into an agreement with Chevron Phillips Chemical Company on December 31, 2013. In addition to the tax abatement, Chevron Phillips Chemical Company has committed to the payment in lieu of taxes program. The agreement and all supporting documentation was assigned Texas Comptroller Application No. 281.

The District entered into an agreement with Chevron Phillips Chemical Company on December 31, 2013. In addition to the tax abatement, Chevron Phillips Chemical Company has committed to the payment in lieu of taxes program. The agreement and all supporting documentation was assigned Texas Comptroller Application No. 283.

The District entered into an agreement with Phillips 66 Company on April 8, 2014. In addition to the tax abatement, Phillips 66 Company has committed to the payment in lieu of taxes program. The agreement and all supporting documentation was assigned Texas Comptroller Application No. 286.

Independent Auditor's Report
On Internal Control over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance
with *Government Auditing Standards*

To the Board of Trustees
Sweeny Independent School District
Sweeny, Texas 77480

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Sweeny Independent School District (the "District"), as of and for year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 5, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report
On Compliance for Each Major Program and on Internal Control
over Compliance Required by the Uniform Guidance

To the Board of Trustees
Sweeny Independent School District
Sweeny, Texas 77480

Report on Compliance for Each Major Federal Program

We have audited Sweeny Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SWEENEY INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2019

NOTE 1 – BASIS OF ACCOUNTING

The District accounts for all awards under federal programs in the General and certain special revenue funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources, and current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current position.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e. both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally unused balances are returned to the grantor at the close of specified project periods.

Commodity Supplement (CFDA 10.555) received like kind goods and no grant revenue received was reported on the schedule for the monetary value of these goods. The monetary value of goods received was \$ 10,932, while the monetary value of goods used and recognized as income and expenditures was \$ 21,260.

NOTE 2 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2019. The information in the Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

NOTE 3 – FEDERAL INDIRECT RATE

The District does not use 10% de minimis cost rate as described in Section 200.414 of the Uniform Guidance.
