HOW WILL IT BE USED:

- Generate individual and aggregate reports for student performance on various metrics
 - iReady
 - SBAC
 - Reading Levels (Literably/CRA)
 - On Demand Writing Assessments
- SST Meetings
- Monthly Progress Monitoring Meetings
- Historical Data on students
- Intervention
- Placement
- Planning small group and whole class instruction

INTERVENTION:

- Intervention teachers track individual student growth within each specific program
- Performance Matters will be able to store an overview of all intervention students and the various programs they have used
- It will allow for all teachers/administrators to pull up historical data on a student at any time

The screenshot displays the 'Intervention Admin' interface. On the left is a sidebar with a search bar (1-75 characters) and an 'Add Category' button. Below is a tree view under 'Organization Settings' with categories: ELA (Barton Reading & Spelling System, Foundation in Sounds, Language Power, Leveled Literacy Intervention (LLI), Six Minute Solution), ELD (Language Power), Math (Do The Math), and SEL. The main area is titled 'Organization Settings' and contains a table of options:

Future Considerations

- Work with Instructional Leadership Team to discuss metrics for data collection and how to use data to determine student growth and make instructional decisions within each grade level
- Input current and historical data for Intervention students
- Use program to run reports during monthly progress monitoring meetings when discussing student growth
