

Traffic/Parking Lot Safety

- Radar trailer to be deployed in early September.
- 10 MPH signs installed at both parking lot entrances.
- Four additional parking lot cameras will be installed in October.
- “Slow down” printed on asphalt as you enter the parking lot.
- Increased communications to parents from Superintendent regarding traffic safety.

Access Control

- We are finalizing configuration of the electronic access control system. System is working as expected.
- Global lockdown and lockout are operational.
- Automatic expiration of access cards is operational.
- Dedicated lockdown card readers installed at field, gym, PAC, and front office locations (lockdown/out can also be executed from any electronic lock in the school).
- Replacement of entire mechanical key system underway- completion will be within three weeks.
- Exit panic bar for gym gate was installed with automatic closer.
- Higher fencing in southeast corner of field was installed.
- Magnetic walk gate in office re-deployed with exit buttons for egress.
- Installed automatic closer on building 600 gate.
- Disabled El Fuego walk gate so all persons, including staff will enter through the front of the school or at the gym gate.

Emergency Preparedness

- New digital hand-held radios are up and running.
- RSF Public Library and Community Center will be on our radio system for emergency communications.
- Replacement/Updates of emergency backpack supplies underway.
- Sweep team supplies and trauma kits will be ordered in mid-September.
- CPR, First Aid, and emergency trainings for leadership and staff will be completed in 2019-20. Dates TBD.
- More realistic, updated emergency drills will be conducted throughout the year.
- Camera and Monitor at front desk nearly completed
