SHOULD THE READING OF THE BIBLE AND LORD'S PRAYER BE CONTINUED

In my opinion, the reading of the Bible and the recitingof the "Lord's Prayer" should be included in the opening exercises.

Some people seem to think that one is going against other religions by this practice. They seem to think that one is putting other ideas in children's heads so that in time they could be confused about their own religion. But, you must remember, if a person truly believes in his religion, nothing anybody says or does will change his mind.

Besides, this type of morning exercises isn't conducted with the idea of changing a child's mind about his religion, but to give us a peaceful moment with our God before we start each day.

I don't think this performance will ever hurt anyone; in fact, more people should try it.

SCHOOL SPIRIT

school spirit of Pottsgrove High School has really taken a big jump. It has been said that the students in Pottsgrove don't support the teams and the school activities. Well, this year it is the complete opposite! We have made the grade! Never before did we have so many patrons at our games. Voices have been lost many Saturday afternoons, yelling and cheering our team on to victory. The support given our footballteam has been most remarkable. It is a real credit to our school!

When our boys are out on the gridiron playing the sport for us, they need a spark behind them to show that we're with them. And we want them to know that we're there. By our yelling and cheering, our guys can tell that we want them to make that touchdown. This support means a lot to those boys. When they hear us cheering for them, they want to win for us. They want to do it because they know it's for the school, and we are the school.

Not every game we play means another victory. We cannot expect to win every single game we play. Come on, kids! Let's show the guys that it's not the winning score that means so much. It's the way the game is played. Whether we win, lose, or tie, Let's show the team that we'll still back them up, and we'll always stand by our school.

School spirit does not mean only the support we give the football team. Don't forget -- Pottsgrove has a fine hockey team, a Junior High football team, a girl's softball team, a boys' baseball team, a track team, a chorus, a band, and a lot of other cluts and organizations. School spirit does not stop with "Fight, team, fight!" That's only a stepping stone. School spirit is the attitide we have when we ask, "Support the Falcon;" "Buy the Pottsgrovian." School spirit is the supour pep rallys, our dances. It is the whole school's attitude and attendance at

Come on, kids, let's make this an un-A council, consisting of the principal, forgetable year by showing it can be done. Let's practice school spirit to the fullest capacity of Pottsgrove. Let's show everyone that we're proud of our school!

### HALLOWEEN

Halloween, which is celebrated on October 31, means hallowed or holy evening. This is because it comes before All Saints' Day.

The first people to celebrate Halloween were the Druids. They were a group of people living in Britian who celebrated their autumn festival at this time of the year. They called it Summer's End. The Druids feasted and had large bonfires which they believed would scare the ghosts spirits, witches, and elves away.

Today Halloween is a time of parties and parades. The bad thing about Halsoween is the prank boys and girls play on other people. In early times in the United States, pranks were played, but they were harmless. The pranks of today damage property and sometimes may often cause someone to lose his life.

This Halloween, when all of you fellows and girls go out to play pranks remember you wouldn't like someone destroying your property; so don't damage theirs.
