

Rain Falls from the Sky

Siberian Tiger

Eats the Wolf

Smashes the cat

Pounces on the bird

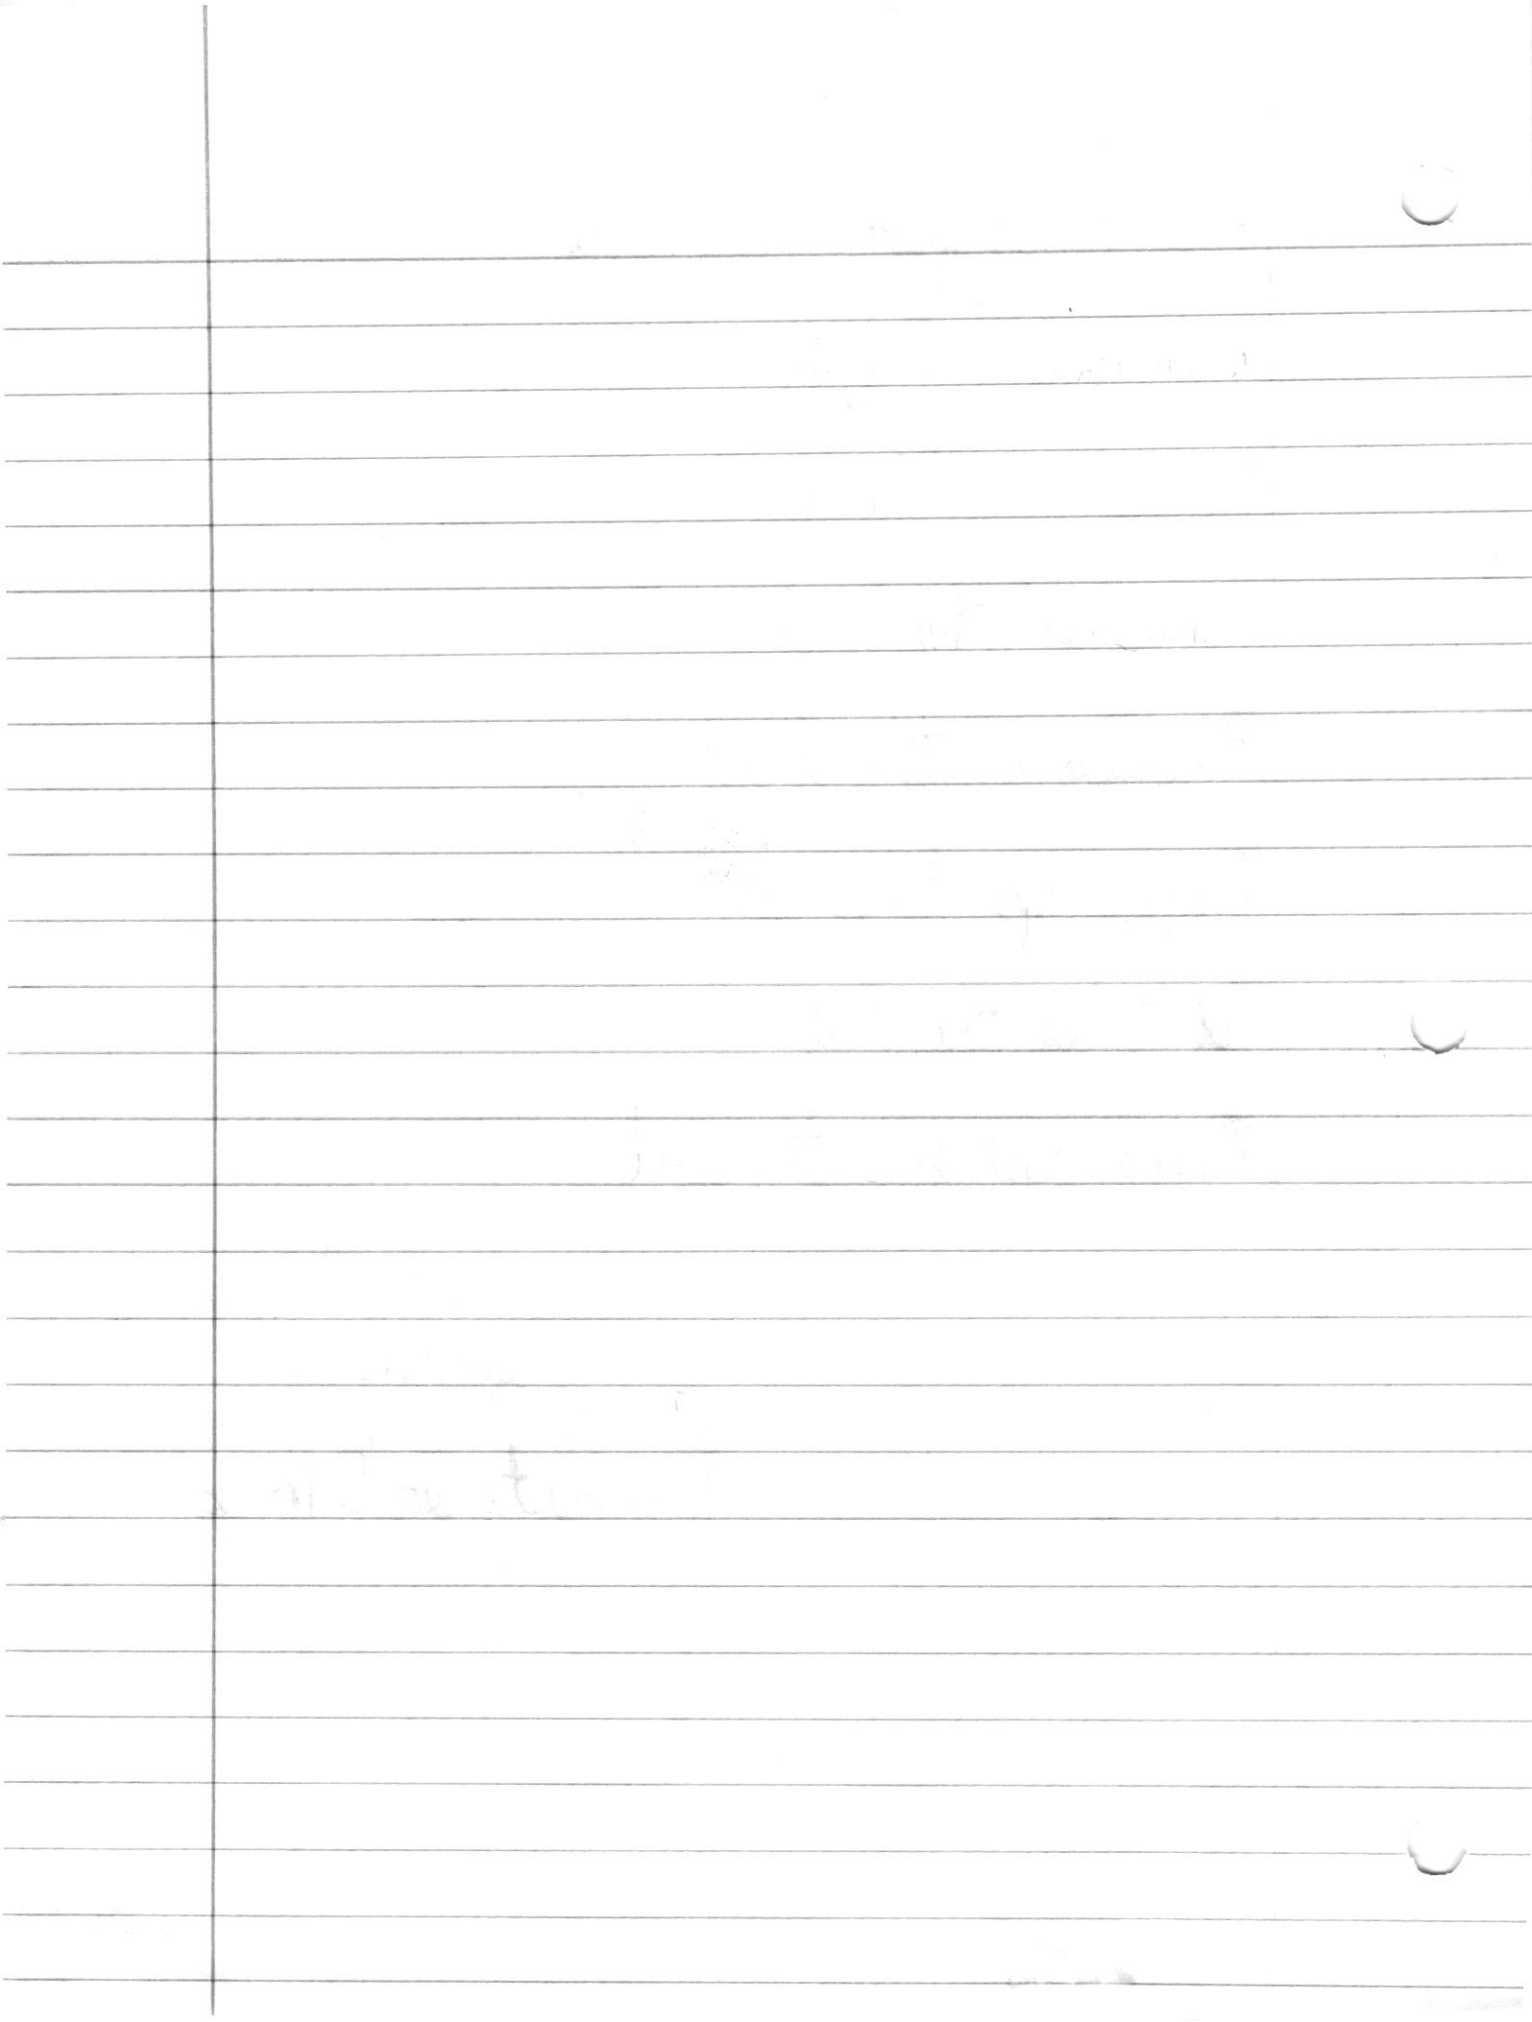

Diges up the worm

Nibbles the leaf

And drinks the water

DOGS, DOGS

Dogs, dogs are the best,
they are better than the rest.

Cats? NO!

Pigs? NO!

Birds? NO!

Dogs? Yes!

Dogs are better than the rest,
Why?

Because...

Cats think they are the boss of you,

Pigs, they like goo,

Birds, they like to poo on everything

But dogs...

They love you to bits like
your old sandwich.

Saving the World

By: Weston Grade 3

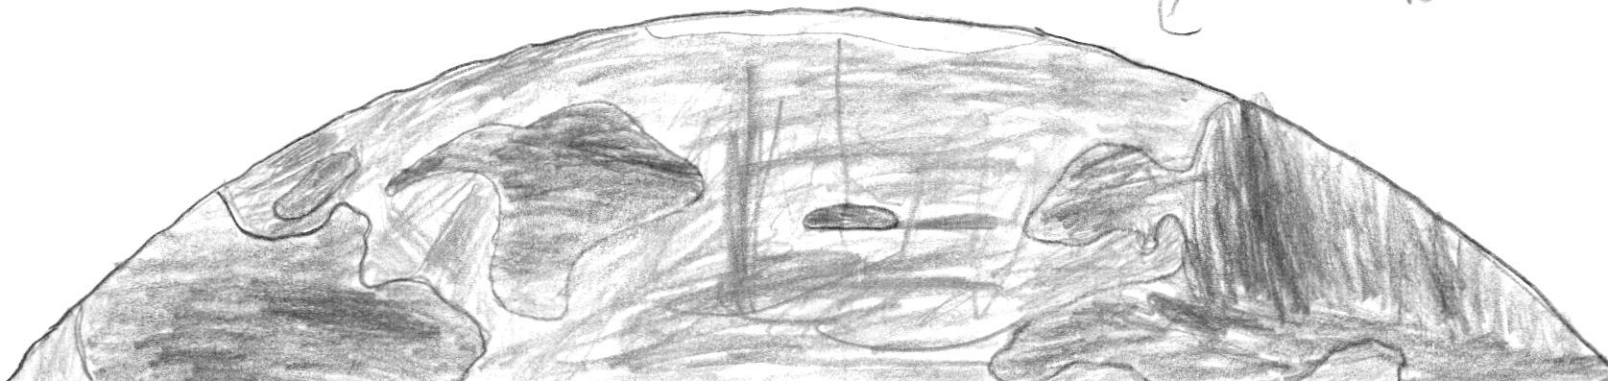

The world is important,
We need it to survive.
So that we can go on,
And that people can thrive.

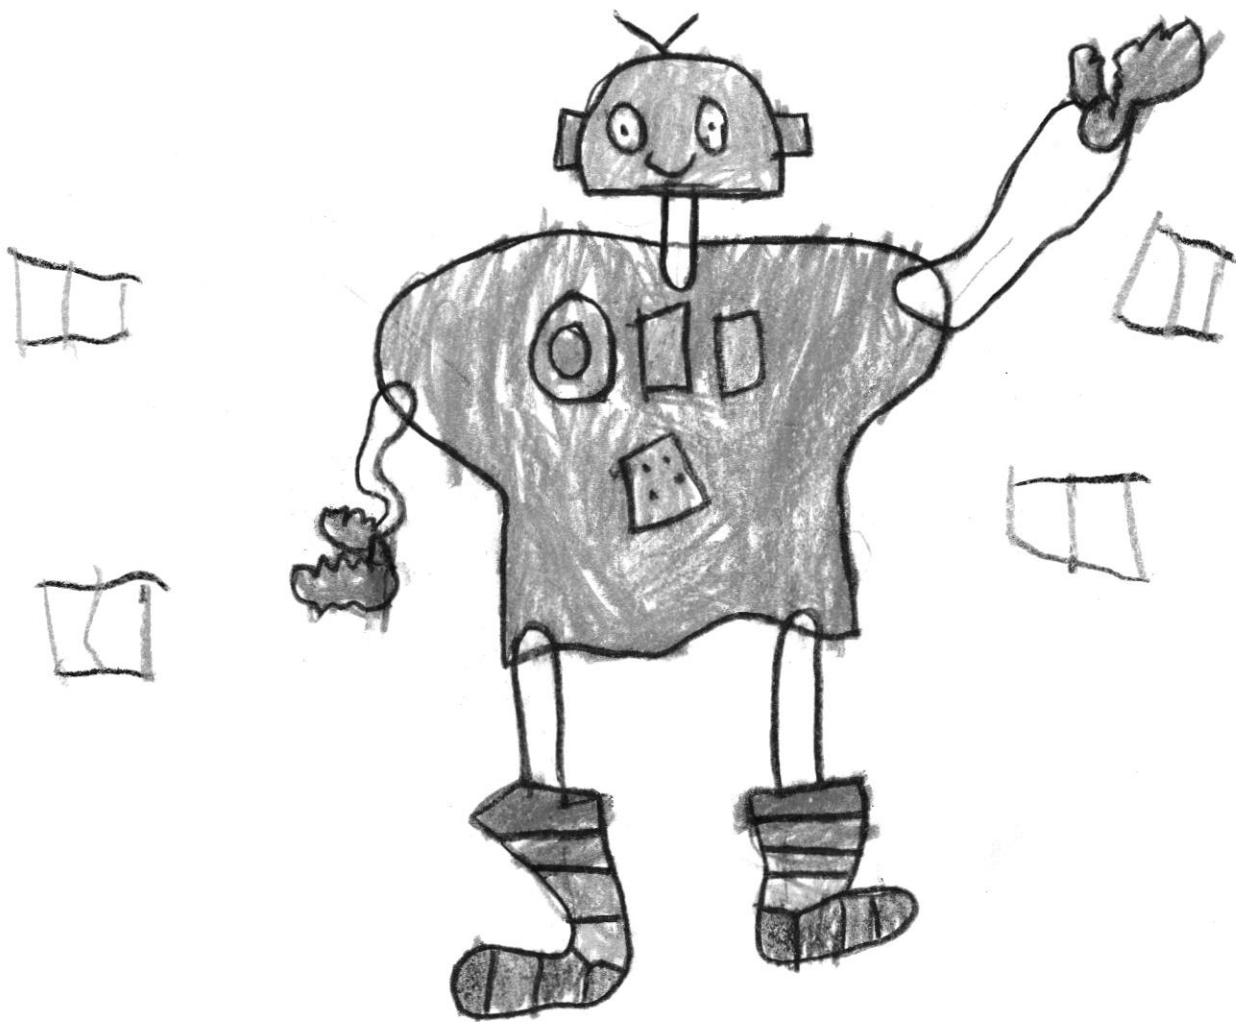

But it's getting polluted,
With smoke and exhaust.
Trash, oil, and plastic,
Nature could get lost.

Yet people can save it,
Like you and like me.
It doesn't have to be big,
Your actions can be wee.

Pick up some trash,
Take a bike not a car.
Reduce, reuse, and recycle,
To save the world, near and far.

Our polluted
World
