

ARTICLE IV. STUDENTS

Section 18. Extra-Curricular Activities; Code of Conduct.

The Board encourages all students to become involved in extra-curricular, co-curricular and athletic activities. Such activities supplement the District's curriculum, and provide opportunities for student enrichment. Participation is contingent on following the rules and guidelines governing those activities, and is a privilege, not a right.

The Superintendent shall develop and administer a program of student clubs and other activities, and shall develop guidelines for the maintenance of student activity funds in support of these organizations.

The Superintendent shall develop and administer a program of interscholastic athletics.

Athletic Code of Conduct

The Superintendent will publish as an administrative guideline an Athletic Code of Conduct, which will apply to students participating in all athletic (including interscholastic) activities. This Code of Conduct will apply on a 12-month basis to all student participants, and to conduct on and off school property. The Athletic Code of Conduct supplements, but does not supersede or modify, the Student Code of Conduct to be published by the Superintendent.

Extra-Curricular Code of Conduct

The Superintendent may by administrative guideline direct that the provisions of the Athletic Code of Conduct shall also apply to students participating in extracurricular or co-curricular activities.
