

## **ARTICLE VII. FACILITIES AND OPERATIONS**

### **Section 14. Acceptable Use Policy: Technology and Internet Safety.**

The District's technology resources may only be used for learning, teaching, and administrative purposes consistent with the District's mission and goals. The use of the District's computer system and access to the use of the Internet is a privilege, not a right. Users of the District's computer system and the Internet while using District technology have no legitimate expectation of privacy. The District reserves the right to monitor all technology resource activity.

The Superintendent shall develop and implement administrative guidelines, regulations and user agreements that are consistent with the purposes of the District and its mission and that comply with applicable law, including the Children's Internet Protection Act (CIPA). The District shall use technological measures to block or filter access to portions of the Internet containing visual depictions of materials deemed obscene or pornographic, including child pornography, and other material that may be harmful to minors, and to comply with CIPA.

The District will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with District policies, administrative guidelines, regulations, procedures and user agreements using District provided technology and Internet.
