

Cumberland Road Elementary

Outdoor Learning Lab

Cumberland Road Elementary is excited to be building a new Outdoor Learning Lab for our students and community. Our goal is to provide a stimulating and enjoyable outdoor learning area, opportunities for students to experience native plants and wildlife, and an open-air space for CRE family/community events.

Features of the Outdoor Learning Lab

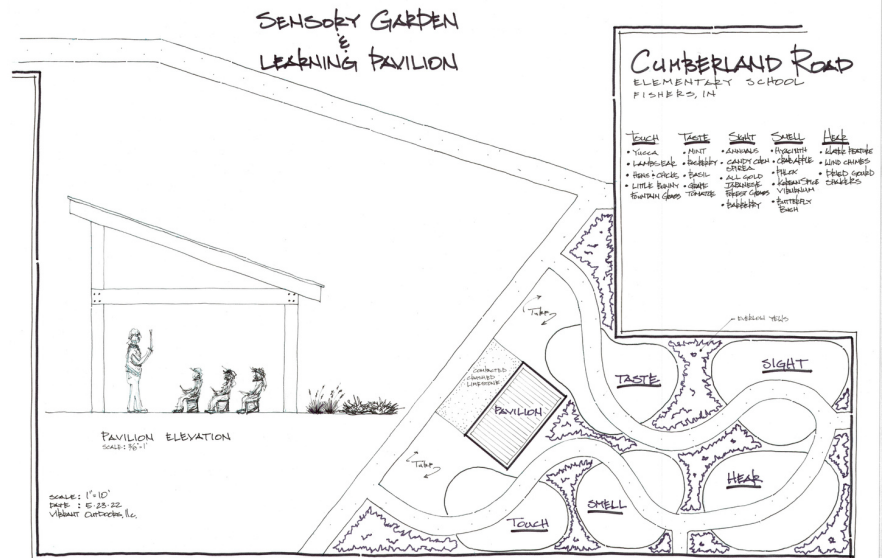

The outdoor space will support state standard and SEL curriculum, be ADA accessible, and provide hands-on experience in nature. It will feature:

- **Stage and Outdoor Classroom:** Providing outdoor space to support exciting curriculum, student performances, stimulating environment, time in fresh air, and student & community events.
- **Sensory Path Including Musical Instruments & Story Walk:** Supporting sensory work with our Exceptional Learners and providing enjoyable sensory, musical, and literacy opportunities to all students.
- **Sensory Gardens:** Themed sensory gardens providing stimulating opportunities to enjoy and learn about native plants, pollinators, and wildlife.

Construction Phases

The completion of the CRE Outdoor Learning Lab will be done in two phases.

- Phase I includes the demolition and preparation of the site, removal of a tree/stump, concrete walking path, and Yew installation.
- Phase II includes the concrete pad and pavilion for the outdoor classroom and the installation of the 5 sensory gardens. This phase can be broken into more phases, if necessary for time or budget.

Sponsors & Partners

Thank you to the generous support of CRE family donations and community sponsors, phase I is funded and will begin soon! We are still seeking donors, sponsors, and community partners. Monetary and in-kind donations can be accepted. All sponsors will receive recognition. CRE PTO is a 501(c)(3) nonprofit organization and your donation is deductible as allowable by law.

For more details about current funding or interest in partnering, please contact us or visit us online.
