

COMMUNITY RELATIONS

POLICY – COMMUNICATION WITH THE PUBLIC

BP 1100

The County Board of Education believes that two-way communication both internally with the staff and externally with school districts, community members, and state and national policy makers is the key to public understanding, acceptance, and support of educational programs, and that the maximum possible knowledge about the goals, processes, and programs of education by the general public and the constituent school districts of Santa Barbara County is essential for the development of excellence in education.
