

## STUDENTS

### BOARD POLICY – IMMUNIZATIONS

BP 5141.31

To protect the health of all students and staff and to curtail the spread of infectious diseases, the County Board shall cooperate with state and local public health agencies to encourage and facilitate immunization of all County Education Office students against preventable diseases.

Each student enrolling for the first time in a County Education Office infant, preschool, elementary, or secondary school program or enrolling in or advancing to grade 7, shall present an immunization record from any authorized private or public health care provider certifying that the student has received all required immunizations in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

Each enrolling student shall be requested to present the student's immunization record, if possible, upon registration in a County Education Office program.
