

# HCE Media Center News

Although we are currently in uncertain times, one thing does remain certain... we can still READ! Please see the information below regarding ways that your child/children can continue to read and enhance their comprehension skills and other fun learning activities including coding, keyboarding skills, digital citizenship, and more. It is my hope that students will continue to read while we are away, and this time will help them to become even better readers! If I can be of any assistance to you, please do not hesitate to contact me. 😊📖❤️ Amanda Rascoe arascoe@enterpriseschools.net
