## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

The High School at Moorpark College (HSMC) is a public high school serving students in 9th - 12th grades. The school belongs to the Moorpark Unified School District and is housed on the Moorpark College campus. Students from over 25 different public and private schools across Southern California come together to create a dynamic learning environment centered around our core values of Interest, Intellect, Initiative, and Integrity. Students take courses at the high school level and simultaneously earn dual enrollment credit for course work they take at the college level.

HSMC offers a thematic and integrated approach to learning where students learn meaningful content and also develop skills that are relevant to the 21st century and beyond. The dual high school and college credits offer students a shorter path to earning their two or four-year degree. HSMC focuses on assisting students with expanding their critical thinking skills, inspiring a quest for continual learning, and fostering an environment where students are sure to reach their full potential.

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## 2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

### School Facility Conditions and Planned Improvements

The High School at Moorpark College occupies six portable classrooms located on the 'T' trailer lot, near parking lot G1, on the campus of Moorpark College, and utilizes a storage shed, and patio area shaded with trees, tables and benches. Five of the portables are used as classrooms, and one is used for the office. The classrooms and office are close together, allowing for supervision and student safety, as well as establishing a Learning Community environment. Restrooms are located next to classroom TR-5. Parking is located in front of the classrooms for easy access. Classrooms contain filing cabinets, locked cabinets, a whiteboard, computers, and desks for teachers and students to use. Each room also contains a Newline Board and document camera. The rooms were wired for Internet usage during the 2012-13 school year by the MUSD Technology Department. All students are issued a district-owned Chromebook, making HSMC a 1-1 technology campus. All rooms are cleaned nightly, with maintenance provided by Moorpark College. All Moorpark College facilities are available for use by The High School at Moorpark College students. College courses taken by the students are located on the main college campus. Students have complete access to the Open Access Computer Lab, the Library, and the Campus Resource Center. Students who are taking photography, and other media arts classes, have access to the photo labs, graphics labs, and radio and/or television studio. Moorpark College also provides a Health Services Center that is available to The High School at Moorpark College students. Once parents have signed the proper release forms, students may be seen for any number of medical reasons by medical assistants and registered nurses. Psychological services are also available with parent permission.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	100	N/A	57	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	77	N/A	43	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

Junior Advisory includes both Self-Paced Career Assessment and Self-Paced Career Research. Through the use of the Naviance computer assessment program, students build awareness of their individual values, interests, skills, and personality attributes as they relate to the world of work. The assessments and research assist students in evaluating and prioritizing college and career options.

Senior Project is a yearlong career research project in which students research a career of interest. Students are encouraged to interview people in the field, complete at least one job shadow and/or internship, and present their findings to their class. They learn the process of investigation and develop keen insights into their chosen careers. In addition, "Mock interviews" are held during the spring of each year. Seniors are required to complete a cover letter, a resume, and to prepare for the "Mock Interview" with an employer in their selected career. Employers such as Archaeologists, Artists, Car Designers, Doctors, Teachers, Attorneys, Business Owners, Actors, Accountants, and Psychologists volunteer to interview students, complete a "hiring rubric," and give viable feedback. Seniors also use the Naviance computer assessment program to evaluate and prioritize career options. Each year the Juniors and Seniors attend the Moorpark College Career Speakers conference. Students are invited to learn about career trends, education requirements and interact with guest speakers.

11th and 12th-grade students have access to Moorpark College CTE courses and can work towards certifications in a variety of CTE pathways within their area of interest.

## 2021-22 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	
Percent of CTE Courses that are Sequenced or Articulated Between the School and Institutions of Postsecondary Education

UC/CSU Course Measure	Percent
2021-22 Pupils Enrolled in Courses Required for UC/CSU Admission	100.00
2020-21 Graduates Who Completed All Courses Required for UC/CSU Admission	74.19

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

The Parent Support Organization for The High School at Moorpark College is the Parent, Student, and Staff Association (PSSA). PSSA members participate by giving input and feedback to school administration regarding yearly SPSA goals and completing LCAP surveys launched by MUSD and the Parent Vision survey administered by HSMC. The PSSA also assists with general school-wide events and activities such as our yearly talent show, prom, graduation, winter dance, and other social activities. Leadership positions are available to coordinate fundraising activities, plan and organize student events, prepare educators' appreciation week, chaperone field trips, give tours, offer internships, and assist students with job shadow opportunities. Parents are also encouraged to attend the Principal's Chats that are held every month. Principal's Chats are informal meetings that offer parents the opportunity to get to know the Principal, learn about the happenings at the school, convey concerns, provide viable solutions to issues, offer feedback, and network with other HSMC parents. The overall goals of PSSA are to help improve the instruction and culture of our school community.

## C. Engagement

### State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- High school graduation rates; and
- Chronic Absenteeism

## Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.00	1.18	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

The Safe School Plan blends Moorpark College's SEMS plan as well as the Moorpark Unified School District's Emergency Management Plan and the Moorpark College Safety Plan. HSMC communicates by radio during the MUSD District-wide evacuation drill each year. First aid and emergency supplies have been purchased and are stored in the high school's office and classrooms. The office is located near the Campus Police Department, which is in close communication at all times in the event of an emergency. The Moorpark College Police Department is the law enforcement agency with jurisdiction over all incidents at Moorpark College. The staff approved the crisis intervention policy on October 3, 2014, as an addition to the Safe School Plan. In the event of a lockdown situation, the staff communicates by cell phone between the office and classrooms and classroom to classroom. The Campus Police and Dispatch will be summoned immediately by cell phone.

HSMC conducts monthly emergency drills including fire, lockdown, and earthquake preparedness. A debrief is held after each drill to evaluate any necessary changes to assure student safety. An annual school safety plan is constructed and reviewed with staff members and parents each November to ensure HSMC is a clean and safe campus at all times.
