### Tutoring

Teachers shall not teach privately for pay any student enrolled in the school or any student in their class or classes without approval from the school Principal.

It is expected that every effort will be made by the Principal and teacher to resolve the learning problems of a student at school before recommending that parents engage a tutor or seek other outside professional help. The Board of Education believes that by maintaining high quality instructional staff and providing for a rich, varied curriculum, the need for individual tutoring is minimized.
