

Hinsdale High School District 86

Weekly Update

June 10, 2023

Update No. 105

The referendum renovations are in their final phase. Phase 4 is comprised of refreshing 85 classrooms at Hinsdale Central. Improvements include new flooring, lighting, paint and ceiling grid. Most of the classrooms are getting new furnishings.

On Friday, June 9th, moving and disposal crews began clearing classrooms immediately after final exams. Every spare area is being used to keep furnishings stored out of the way of summer sporting activity and incoming work crews.

Below is a picture of the science department furnishings lining the corridors:

Many second floor classrooms are tucked away into the gym balcony:

Demolition and abatement work will commence on Monday, June 12th.
