

Hinsdale High School District 86

Weekly Update

June 29, 2023

Update No. 108

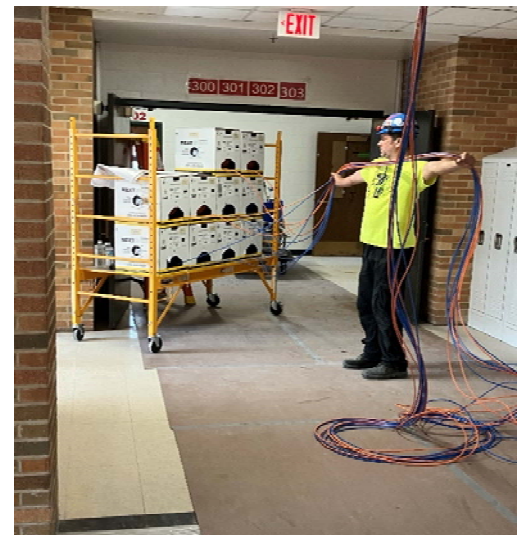

The referendum renovations are in their final phase. Phase 4 is comprised of refreshing 85 classrooms at Hinsdale Central. Improvements include new flooring, lighting, paint and acoustic ceilings. Most of the classrooms are getting new furnishings.

The week of June 26-30, demolition and abatement continued. Wall prep and paint was well under way on the first floor. Ceiling grid installation started in the science wing. Throughout the school, low-voltage wiring is being run for upgraded fire alarm and classroom AV.

Next Steps: The painters will move up to the second floor social studies wing, while ceilings continue in the science wing. Then, paint will begin in the social studies wing. Electrical will follow the ceiling grid, installing light fixtures.

Left: A science classroom with fresh paint and ceiling grid. New light fixtures are on deck for installation.

Right: A technician pulls low-voltage cable on the second floor.

Left: New window installation is progressing along the second floor.
