SECTION I GENERAL CONSIDERATIONS AND PLANNING GUIDELINES

PURPOSE

Emergencies in schools are defined as undesirable events that occur and have the potential to cause injury or illness to members of our school community or disrupt the orderly educational process. They range from acts of bullying or harassment to catastrophic natural or man-made events. Emergency management is the discipline of dealing with and avoiding risks. It is a discipline that involves preparing for an emergency situation or disaster before it occurs as well as supporting and rebuilding from the emergency after natural or human-made disasters have occurred.

Emergency management in our schools is the continuous process by which our staff, students, administrators, parents, school groups, emergency responders and our community manages hazards in an effort to avoid or mitigate the impact of disasters resulting from hazards. Preventive measures and good planning will reduce the likelihood that emergencies will occur and allow us to address those that do in an expeditious and effective manner.

Districts are required to develop district-wide school safety and emergency management plans designed to prevent and effectively manage such events to minimize the effects of serious incidents and emergencies. These plans also facilitate the coordination of the District with local and county plans and resources when incidents and emergencies occur.

The district-wide plan is responsive to the needs of all schools in the District and is consistent with the more detailed building-level emergency plans. Districts are vulnerable to a wide variety of acts of violence; and natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (S.A.V.E.) law. Project S.A.V.E. is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Haldane Central School District supports the S.A.V.E. legislation. As such, the Superintendent of Schools, Board of Education, and the entire District staff encourages and advocates on-going district-wide cooperation in support of Project S.A.V.E.

Prior to the first annual drill, staff shall review emergency response procedures and drill requirements with students during class time. Students are also provided the opportunity to ask questions on any procedure that they are not clear on. The appropriate Fire Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding effective building evacuation in the event of a fire. Four of the required drills must be through use of the fire escapes on buildings *where fire escapes are present* or through the use of identified secondary means of egress.³⁰ The appropriate Police Department may upon mutual agreement with the District, participate in some or all of the lockdowns drills and offer feedback regarding the effectiveness of these drills. Drills shall be conducted at different times of the school day with at least one of the eight required evacuation drills occurring during a mass gathering event such as lunch or assemblies. Instruction in drill procedures, including during lunch periods and assemblies, is conducted annually by staff.³¹ At least two additional drills must be held during summer school in buildings where summer school is conducted, one must be held during the first week of summer school.³²

EARLY DISMISSAL DRILL³³: The District will conduct an Early Dismissal drill annually wherein students are dismissed no more than 15 minutes before the normal dismissal time. Parents will be notified of these drills at least one week prior. Transportation Officials and District staff may also take place in conducting and evaluation of this drill. This drill also allows the District to test the usefulness of the communications and transportation system during emergencies.³⁴

The appropriate Police Department may, upon mutual agreement with the District, participate in some or all of the drills and offer feedback regarding the effectiveness of these drills.

In addition to post-drill debriefings conducted by each building-level emergency response team, each building will complete a drill evaluation form that will be submitted to the district-wide safety team for periodic review, which includes observations from the drill as well as any additional feedback obtained from building personnel. Changes to procedures are made as needed. The district-wide safety team should evaluate communications and transportation systems during emergencies.³⁵

Each Building-level Emergency Response Team and representatives of the District administration engage in tabletop exercises facilitated by the district's emergency management consultant. Emergency response agencies are encouraged to participate in these exercises. The district may opt to conduct functional exercises with emergency response agencies to involve staff, students and parents in realistic drills. The school board will ensure that information about drills be provided in the teacher's manual or handbook.³⁶

2. All schools have greeters or office staff members just inside the entrance to each school in the District. These individuals ensure visitor sign-in procedures and help supervise building traffic flow. The building principals are responsible for supervision of the greeters and other staff.
3. Staff members are required to wear visible identification badges.
4. Visitors are required to sign in and wear visitor identification.
5. Visitor access is limited to specific areas of the school building.

VITAL EDUCATIONAL INFORMATION³⁸

Information on each building’s student and staff, transportation needs, and the telephone numbers of key officials are outlined in each Building-level Emergency Response Plan. The purpose of including such information in the Building-level plan is to ensure coordination or coverage in the event of a serious incident.

EARLY DETECTION OF POTENTIALLY DANGEROUS BEHAVIOR³⁹

This section contains the District policy and procedure for disseminating information regarding early detection of potentially dangerous behavior.

1. A “plain language” summary of the District’s Code of Conduct is provided to all students in the District at the start of every school year to ensure that all students understand acceptable behavior in the school setting. The Code of Conduct delineates, among other behavior, lack of tolerance for harassment, discrimination, bullying and violence.

³⁸ 155.17(h)(i) Except in a school district in a city having a population of more than one million inhabitants, the chief executive officer of each educational agency located within a public school district shall provide to the superintendent of schools information about school population, number of staff, transportation needs and the business and home telephone numbers of key officials of such educational agencies.

³⁹ 155.17(c)(1)(xii) policies and procedures for the dissemination of informative materials regarding the early detection of potentially violent behaviors, including but not limited to the identification of family, community and environmental factors to teachers, administrators, school personnel including bus drivers and monitors, persons in parental relations to students of the school district or board, students and other persons deemed appropriate to receive such information;

2. A “plain language” summary of the District’s Code of Conduct is mailed or emailed to all parents/guardians of students in the District at the start of each school year, and is disseminated at the time of registration thereafter.
3. All new employees will be provided with a copy of the Code of Conduct at the time of hire. All teachers and other staff members will be provided with a copy of the Code of Conduct annually.
4. Efforts are made on the building level in each of the District’s schools to identify, prevent, and resolve potentially dangerous behavior at the earliest possible stage. Teams meet regularly in each building in order to work with classroom staff in identifying and preventing potentially dangerous behavior. School counselors, school psychologists, school social workers, nurses, outside agencies (when appropriate), administrators, teachers, parents/guardians and students may be involved in this process. Staff in each building have been trained in Mental Health First Aid.
5. District students at all grade levels participate in instruction guided by evidence-based violence prevention/intervention programs. Elements of these programs support students in identifying potentially violent or problematic situations with peers and in developing strategies to address these such as reporting to an adult.
6. Secondary health curricula incorporate information regarding emotional health, the impact of drugs and alcohol on an individual’s behavior, and on responsible decision-making.
7. Each of the District’s school psychologists/social workers may facilitate counseling groups for identified students around issues related to poor social skills development, managing emotions, and good decision-making.
8. Certified and noncertified staff members working with students who have been identified by the school support/clinical team as being at-risk for engaging in violent behaviors receive annual training in crisis prevention and intervention.
9. The District may work in collaboration with building-level and District-wide PTAs to offer parents/guardians information regarding early-warning signs of potentially dangerous and/or violent behavior, as well as a forum to discuss specific parental concerns.

Police Agencies

The District buildings fall within the jurisdiction of the following police departments:

<u>Agency</u>	<u>Phone Number</u>
Cold Spring Police Department	845-265-3407

HAZARD IDENTIFICATION

Identification of Potentially Dangerous or Hazardous Sites:

Each school will identify and locate areas of potential emergencies in and around its building. The Director of Facilities and building custodians will locate these sites.

2. These sites of potential emergencies will be listed in each Building-level Emergency Response Plan supplied to police, fire, emergency management services, and District personnel.
3. Potentially dangerous sites indicated below that are contained within school property and under the jurisdiction of the school district, will be checked regularly and inspected by building safety personnel on a regular schedule, at least annually. They include but are not limited to:
 - Electrical panels/shut-offs
 - Gas lines/shut-off

School Resource Officer

This plan includes contracts or memoranda of understanding that define the relationship between the district, personnel, students, visitors, law enforcement, and public or private security personnel. These contracts or memoranda are consistent with the Code of Conduct, and define the roles, responsibilities, and involvement in the schools of law enforcement or security personnel. The role of school discipline is delegated to school administration.

Security Allocations

- A. At the elementary and middle school level, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel assigned to the Elementary/Middle School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.
- B. At the high school level, there is a single point of entry for visitors, which is staffed during normal school hours by one of several staff members or safety personnel assigned to the High School. Visitors to the school must be buzzed into the building, sign in and receive an identification badge issued by a safety greeter. Staff in the building all wear district-produced identification badges, which must be worn at all times. In addition, safety personnel are assigned to areas throughout the building.

Hiring

The interviewing and hiring of safety personnel follows the district's practices for hiring of new staff. All new staff employed by the District must be fingerprinted in order to be employed.

Duties and Training

SECTION III RESPONSE

NOTIFICATION AND ACTIVATION - INTERNAL AND EXTERNAL COMMUNICATIONS

Internal

After receiving the information from the Incident Commander at the scene, an email will be sent from the Superintendent's office to all administrators and administrative offices alerting them to the nature and status of any incident in the district. The mass communication system may be used to provide information as deemed appropriate by the Incident Commander. Portable radios will also be used when possible.

External

Anyone with knowledge of an emergency event is encouraged to immediately call 911.

The District's mass communication system will be used to provide information to parents/guardians and emergency contacts. The District website may also be used to provide updated information throughout an incident as deemed appropriate by the Incident Commander. Schools may also use their websites, groups, and hotlines for announcements or updates as directed by the Incident Commander.

When an emergency requires notification of parents and students, the Superintendent or his designee will provide updated information to parents and students through the emergency notification system. Additional information may also be found on the District's website: <https://www.haldaneschool.org/>

During an emergency, all contact with the media will be handled either by the Superintendent or their designee. The media and public will be informed and updated as soon as practicable on all developments in statements released by the Superintendent or their designee. Students, staff and parents should refer all questions and requests for information to the Superintendent in order to assure the release of factual and current information. The Superintendent may refer such requests to the Public Information Officer for response.

By definition, emergency events are unforeseen and unpredictable. The safety of students and staff is the primary focus of all activities surrounding an emergency event. Every effort will be made to contact parents and the general public once the situation has stabilized.

SITUATIONAL RESPONSES

MULTI-HAZARD RESPONSE

In the event of an emergency, a Command Center will be set up at a safe location in collaboration with emergency responders. Each building has specific plans for dealing with a wide range of hazards. Specific response procedures are sensitive in nature and therefore are contained within each confidential building-level emergency response plan.

In each emergency, the building's administrator will contact the District office for assistance. The District office will provide support as appropriate and deemed necessary by the Incident Commander on the scene (i.e. sending additional mental health resources). The Superintendent or their designee will be the sole contact person for releasing information to the media and for communicating the status of the emergency with other District schools, out-of-district schools, private schools, and outside agencies.

RESPONSE PROTOCOLS

Written information on emergency response procedures is disseminated to parents, age-appropriate students and staff via email by October 1st annually. This non-sensitive information may also be found on the district website.

SCHOOL CANCELLATION

- The Superintendent or their designee will monitor any situation that may warrant a school cancellation and will make the determination to do so.
- The Public Information Officer will activate use of the District's mass communication system.
- The Public Information Officer will contact local media, post the information on the website and social media sites utilized by the District.

EARLY DISMISSAL

- The Director of Facilities and Transportation will arrange transportation. They will also arrange for student-parent reunification.
- The Director of Facilities and Transportation will clear all evacuation routes and sites prior to evacuation
- Principal(s) will evacuate all staff and students to prearranged evacuation sites as outlined in building plans. They will report to the superintendent or their designee any missing staff or students.

- The Superintendent or their designee will determine the level of the threat and communicate with building principal(s) who are affected by the emergency.
- Principal(s) will move all staff and students to pre-arranged sheltering sites as outlined in building plans. They will report any missing staff or students.
- The Director of Facilities and Transportation will make appropriate arrangements for human needs in the event of a long-term situation.

PROTOCOLS FOR RESPONDING TO BOMB THREATS, HOSTAGE-TAKINGS, INTRUDERS, ABDUCTION, AND OTHER EMERGENCY SITUATIONS⁴¹

- Abduction
- Armed Intruders / Active Shooters
- Bomb Threats
- Cyber Security
- Early or Alternate Emergency Dismissal
- Explosions
- Fires
- Hazardous Material Incident
- Homeland Security Threats
- Hostage Situations
- Infectious Disease

RESPONSES TO IMPLIED OR DIRECT THREATS OF VIOLENCE⁴²

⁴¹ 155.17(c)(1)(xv) the identification of appropriate responses to emergencies, including protocols for responding to bomb threats, hostage-takings, intrusions and kidnappings;

⁴² 155.17(c)(1)(i) policies and procedures for responding to implied or direct threats of violence by students, teachers, other school personnel, including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which for the purposes of this subdivision shall include suicide;

1. Students are required to inform school staff about any direct or indirect threat of violence or actual act of violence to themselves, others or school property.
2. Staff members are required to immediately inform the Principal or their designee of any direct or implied threat of violence or actual act of violence by students, teachers, or other school personnel including bus drivers and monitors as well as visitors to the school, including threats by students against themselves, which shall include suicide. The Principal or their designee decides whether to utilize the building's trained clinician(s) in an effort to de-escalate or defuse the situation.
3. The district disseminates educational material, including but not limited to emails and formal brochures, encouraging parents and visitors to tell school staff about any direct or implied threat of violence or actual acts of violence by students, teachers, other school personnel and visitors to the school, including threats by students against themselves.
4. After considering the specificity/generality of the threat or severity of the violent act, the Principal or their designee will determine whether to immediately contact the Superintendent of Schools or the Assistant Superintendent to advise them of the threat, obtain assistance to determine the severity of the threat or report the violent act. The Principal will have the discretion to report minor incidents to the Superintendent verbally and/or in memorandum form after the situation has been resolved.
5. Each building has the availability of a Threat Assessment Team. This is a multi-disciplinary team that uses a nationally recognized evidence-based model to evaluate threats and implement the necessary mitigation steps to help prevent a threat from escalation to an act of violence.
6. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.

RESPONSES TO ACTS OF VIOLENCE⁴³

1. The Principal or their designee will determine whether to contact law enforcement personnel. **Threats or actions placing students, staff and others in imminent danger require an immediate LOCKDOWN protocol followed by a call to the police and the District Superintendent (if safe to do so).** Violent offenses defined in the S.A.V.E. regulations will also require the involvement of the police.
2. The Principal, and/or their designee then determine the appropriateness of directing the Building-level Emergency Response Team to be activated.
3. The Building-level Emergency Response Team (BERT) consisting of trained staff and school personnel may assist with an Evacuation, Lockout, Shelter-in-Place, Hold-in-Place, or Early Dismissal and will follow the appropriate protocol (see appendices for further information). The Incident Command System (ICS) under the National Incident Management System (NIMS) should

⁴³ 155.17(c)(1)(ii) policies and procedures for responding to acts of violence by students, teachers, other school personnel including bus drivers and monitors and visitors to the school, including consideration of zero-tolerance policies for school violence;

be followed as closely as possible to ensure good coordination between the building-level teams, District leadership, and responding agencies.

4. If the threat of violence or danger is imminent, a Lockdown may be utilized. A Lockdown is time sensitive and therefore may be requested by any school staff member based on the incident and timely need for the Lockdown. During the Lockdown, all school staff, students, and visitors (including all BERT members) are required to Lockdown in the nearest lockable space and await further instruction, or in some situations, evacuate the campus.
5. Procedures for contacting parents, guardians and persons in parental relation to students in the event of a violent incident or early dismissal are detailed in each building-level emergency plan. The use of the District's mass communication system is typically utilized.
6. Aggressively dangerous and violent students, staff or visitors shall be managed as outlined by the procedures detailed in the district Code of Conduct.
7. The building administrator will investigate reported threats of violence and will make the determination of disciplinary measures consistent with the District's Code of Conduct.
8. School administrators must keep records of serious threats and acts of violence and report them annually to the state.
9. Prompt contact with appropriate law enforcement officials is essential in the event of a violent incident. These relationships have been established by participation of local response officials on Building-Level Emergency Response Teams. These individuals and appropriate means of contact are documented in each Building-Level Emergency Response Plan.⁴⁴
10. The district has a zero-tolerance policy for acts of school violence.

PROTOCOLS FOR A STATE DISASTER EMERGENCY INVOLVING A COMMUNICABLE DISEASE

BACKGROUND

The following procedures provide a general overview of the District's response to a State Disaster Emergency and may require modification during an actual event based on a number of factors. The District will follow current guidance from the County Department of Health, State Department of Health and the State Education Department related to masking, distancing, quarantines, and other health-related requirements.

In September 2020, Governor Cuomo signed legislation that requires all New York State public employers to adopt a plan for operations in the event of a declared state disaster emergency involving a communicable disease. The new legislation will constitute New York State Labor Law [Section 27-c](#), and

⁴⁴ 155.17(c)(1)(iv) policies and procedures for contacting the appropriate law enforcement officials in the event of a violent incident;

serve as a response to the effects of the sudden onset of the COVID-19 pandemic in the Spring of 2020. In addition to 27-C, the following section was added to [2801-a of the Education Law](#) that required additions to the District Plan.

Education Law - 2801-a (m) - protocols for responding to a declared state disaster emergency involving a communicable disease that are substantially consistent with the provisions of section twenty-seven-c of the labor law.

PROTOCOLS

1. In the event of a state-ordered reduction of the District's in-person workforce, the following is a list of **essential** employees.

Essential Position	Description
Building Level Emergency Team	Certain members of the Emergency Team, as indicated in the BLERP, as needed.
District Level Emergency Team	All assigned members of the Emergency Team, as indicated in the DWSP.
Leadership Team	All assigned members of the Leadership Team.
Technology Team	Certain members to assist in remote access.
Custodial Staff	Certain staff members, as needed.
Food Service Staff	Certain staff members, as needed.
Clerical Staff	Certain staff members, as needed.

2. In the event of a state ordered reduction of the District's in-person workforce the District will provide the opportunity for all **non-essential** employees to telecommute including, but not limited to, facilitating or requesting the procurement, distribution, downloading and installation of any needed devices or technology, including software, data, office laptops, or phones, and the transferring of office phone lines to work or personal cell phones as practicable or applicable to the workplace. District staff will be guided on this per the **Building Level Emergency Plans**, specifically the **Continuity of Operations and Continuity of Instruction** sections.

3. To the extent possible the District will stagger work shifts of essential employees in order to reduce overcrowding on public transportation systems and at worksites. District staff and students typically walk or drive personal vehicles to campus. In an effort to reduce overcrowding:
 - On campus class schedules will be staggered to morning and afternoon or alternate day cohorts.
 - Staff may arrive on campus prior to students at staggered times.
 - Staff may be permitted to work remotely.
 - Visitors may not be permitted on campus during school hours.
4. A quantity of personal protective equipment (PPE), sufficient to provide to all essential employees, will be procured, stored, and managed as follows:
 - The Facilities Department will maintain inventory of PPE as recommended by the NYS Education Department guidelines, and continually restocked as needed.
 - PPE will be stored on campus in compliance with the manufacturer's storage recommendations.
 - PPE will be readily available to any person in need.
5. In the event an employee is exposed to a known case of a communicable disease that is the subject of a state disaster emergency involving a communicable disease, exhibits symptoms of such disease, or tests positive for such disease, and in order to prevent the spread or contraction of such disease in the workplace, the District will follow a set protocol for the exposure, as well as the disinfecting of the affected work area(s). The District's **Building Level Emergency Plan** contains an **Infectious Disease Annex, section 25** which details:
 - The disinfecting of any area known or suspected to be infected with the communicable disease, as well as any common area surface and shared equipment such employees may have touched.
 - Available leave options for the affected employee(s) in the event of an employee's need to receive testing, treatment, isolation, or quarantine per state and local guidelines.
 - Note: Such protocol does not involve any action that would violate existing federal, state, or local law, including sick leave or health information privacy.
6. The District will document the work hours and locations of all essential employees, including off-site visits, as follows:
 - All entrances to campus buildings will be locked
 - All employees will use their access cards for entrance in order to document their entrance at each building
 - Payroll, attendance, and time cards will further document an employee's presence on campus.
 - With prior permission for campus access, visitors will sign a log upon entering each building

Such protocol shall be designed only to aid in contact tracing and to help facilitate the provision of any benefits which may be available to certain employees.

7. If emergency housing is directed by state and local officials to further contain the spread of the communicable disease, the Haldane School District will lodge an essential employee at a local hotel bearing the full cost of the stay.

If there is a declared state disaster emergency involving a communicable disease that involves the District, all essential and non-essential staff will be contacted, and they will be guided by the aforementioned protocols.

8. OTHER Any other requirements determined by the Department of Health such as contract tracing or testing, physical distancing, hygiene, and disinfectant, or mask-wearing.

Specific job duties will be assigned based on the type of emergency and in compliance with the appropriate district and building emergency response procedure. Additional district resources may be requested by any building administrator or designee as needed. The Superintendent or their designee will call in all available maintenance and custodial staff to provide support during an emergency as needed. Assistance from outside government agencies may also be requested. A specific list of available resources may be found in Appendix 4 of this plan.

EMERGENCY REMOTE INSTRUCTION

Overview

The District may offer remote instruction days to students in the event of an emergency condition, including, but not limited to, extraordinary adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of a school building, or a communicable disease outbreak.

When making decisions about remote instruction, the District will consult with students, parents, teachers, administrators, community members, and other stakeholders as appropriate. When implementing remote instruction, the District will ensure that it is complying with applicable teaching and learning requirements.

DEFINITIONS

- "Asynchronous instruction" means instruction where students engage in learning without the direct presence (remote or in-person) of a teacher.
- "Non-digital and/or audio-based instruction" means instruction accessed synchronously and/or asynchronously through paper-based materials where the student to teacher interaction occurs via telephone or other audio platforms.
- "Remote instruction" means instruction provided by an appropriately certified teacher who is not in the same in-person physical location as the student(s) receiving the instruction, where there is regular and substantive daily interaction between the student and teacher.
 - Remote instruction will encompass synchronous instruction provided through digital video- based technology and may also include asynchronous instruction intended to complement synchronous instruction. Digital video-based technology includes online technology and videoconferencing technology.
 - Remote instruction may encompass non-digital and audio-based asynchronous and/or synchronous instruction where this instruction is more appropriate for a student's educational needs.
- "Synchronous instruction" means instruction where students engage in learning in the direct presence (remote or in-person) of a teacher in real time.

FORMATS AND METHODS OF REMOTE INSTRUCTION

Remote instruction may be delivered through a variety of formats and methods. Determinations about how to best deliver remote instruction will take into account a variety of factors including, but not limited to, the number of students involved, the subject matter, the students' grade levels, and technological resources of both the District and students. Consideration will also be given to whether accommodations need to be made for students with disabilities or English language learners. Each school's Building-level Emergency Response Plan will contain this confidential information in the Continuity of Instruction Plan (COIP) section.

INSTRUCTIONAL OPTIONS

The District may engage students in synchronous and asynchronous learning on days of remote instruction under emergency conditions with an expectation that asynchronous instruction is supplementary to synchronous instruction. When remote instruction by digital technology is unavailable, appropriate special accommodations for students will be made to aid their learning.

COMPUTER AND CONNECTIVITY ACCESS FOR STUDENTS

The District will ensure that students have the necessary equipment at home to participate in eLearning.⁴⁷ No later than June 30th of each school year, the Superintendent will report to the Commissioner of Education the results of the survey on student access to computing devices and access to Internet connectivity on a form and format prescribed by the Commissioner.⁴⁸ The information received from the survey will aid in the development/updates to the detailed Continuity of Instruction Plan in each school's Building-level Emergency Response Plan.

MINIMUM INSTRUCTIONAL HOURS

Remote instruction provided on days when the District would have otherwise closed due to an emergency condition may be counted toward the annual hourly requirement for the purpose of state aid. The Superintendent will certify to the New York State Education Department, on a form prescribed by the Commissioner, that an emergency condition existed on a previously scheduled school day and that the District was in session and provided remote instruction on that day and indicate how many instructional hours were provided on that day and certify that remote instruction was provided in accordance with the District's emergency remote instruction plan.

⁴⁷ 155.17(xxi)(a) ensure computing devices will be made available to students

⁴⁸ 155.17(f)(2) Beginning in the 2022-2023 school year, each chief executive officer shall report to the Commissioner, no later than June 30 of each school year, on a form and format prescribed by the Commissioner, the results of the survey on student access to computing devices and access to internet connectivity

REMOTE INSTRUCTION SUPPORT

As necessary, the District will provide instruction on using remote instruction technology and IT support for students, teachers, and families. The District will also work to ensure that teachers and administrators are provided with professional development opportunities related to designing an effective remote instruction experience.

COMPLIANCE WITH DISTRICT POLICIES, PROCEDURES, AND THE CODE OF CONDUCT

Teachers and students are required to comply with any and all applicable District policies, procedures, and other related documents as they normally would for in-person instruction. Examples include, but are not limited to, the District's policies and procedures on non-discrimination and anti-harassment, acceptable use, and copyright. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted. Students will also be required to abide by the rules contained within the *Code of Conduct* at all times while engaged in remote instruction. Violations of the *Code of Conduct* and/or engaging in prohibited conduct may result in disciplinary action as warranted.

PRIVACY AND SECURITY OF STUDENT AND TEACHER DATA

The District will take measures to protect the personally identifiable information of students and teachers from unauthorized disclosure or access when using remote instruction technologies in compliance with law, regulation, and District policy. Examples of these measures include, but are not limited to, minimizing the amount of data shared to only that which is necessary, de-identifying data, and using encryption or an equivalent technical control that renders personally identifiable information unusable, unreadable, or indecipherable to unauthorized persons when transmitted electronically.

SECTION IV COMMUNICATION WITH OTHERS

SECTION V RECOVERY

Continuity of Operations

This District maintains continuity of operations at both the district and building level to ensure that essential functions continue during an emergency and its immediate aftermath. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of instruction. Specific continuity plans are contained within each Building-level Emergency Response Plan.

Continuity of Instruction

The District offers a suite of online instructional tools that can be used to support remote instruction and communication. General instructional tools for communicating with students include online services including:

- Google Drive with shared folders
- GSuite (Docs, Sheets, Slides, Forms, Classroom, Sites)
- Gmail

Detailed grade-specific remote instructional procedures are contained within each building-level emergency plan.

Note: The local public Library online resources are available remotely and can be accessed by students who have a library card.

District Support for Buildings

When the Chief Emergency Officer is notified that an emergency exists, he/she will respond accordingly.

Members of the District Safety Team will assist as needed either at their respective Building Command Posts or by responding where directed by the Incident Commander(s). The District Safety Team will assign such other personnel as deemed necessary to meet the needs of the situation.

The District Safety Team members will remain at their assigned posts until the Incident Commander(s) has determined that the emergency is over, or it is unsafe, or no longer necessary to remain, or need to relocate.

Should the incident involve a single building, at the discretion of the District Safety Team leader in consultation with that building's administrators and Building Emergency Response Team (BERT), other school buildings may be called to support the Building Emergency Response Team in that building.

Should the incident involve multiple buildings, at the discretion of the District Safety Team leader, in consultation with building administrators, additional mental health support from the County Crisis Team and local area hospitals may be solicited to support the Emergency Response Teams in the affected building(s).

In any case, a “debriefing”, or post-incident analysis, will be facilitated by the District Safety Team. This process will include a review of the actual incident, the Team’s response to the incident, and post-traumatic incident debriefing.

District clinicians (or, mental health professionals from outside agencies if they have been involved) will provide ongoing as-needed support to the Team members, and will monitor post-traumatic stress symptoms in team members. As appropriate, team members may be provided with a referral to EAP and/or with information regarding private mental health providers in the area.

Principal(s) are expected to consult with the District Public Information Officer in composing letters to parents following any emergency. The District’s Public Information Officer will assist in sending mass communication messages to affected groups. The District’s Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary services following any emergency.

Disaster Mental Health Services

The District Liaison Officer will communicate with outside agencies, such as the County Health Department, to provide necessary mental health services following any emergency. District mental health providers may be temporarily reassigned to assist in the recovery process.

Contract # 2022188

AGREEMENT

THIS AGREEMENT, made by and between HALDANE CENTRAL SCHOOL DISTRICT, having an office at 15 Craigside Drive, Cold Spring, New York 10516 (hereinafter referred to as the "District"), the COUNTY OF PUTNAM, a municipal corporation organized and existing under the laws of the State of New York, having an office at 40 Gleneida Avenue, Carmel, New York 10512 (hereinafter referred to as the "County"), and THE SHERIFF OF PUTNAM COUNTY, a constitutional officer in and for the County of Putnam, having an office at 3 County Center, Carmel, New York 10512 (hereinafter referred to as the "Sheriff").

WITNESSETH:

WHEREAS, the District desires to obtain certain specified professional services from the County and the Sheriff as more fully set forth hereunder; and

WHEREAS, the County and the Sheriff are willing to provide such professional services on the terms and conditions set forth herein and for the compensation stated hereunder;

NOW, THEREFORE, in consideration of the terms and conditions herein contained, the parties agree as follows:

FIRST: The County shall permit, and the Sheriff shall furnish one (1) School Resource Officer (hereinafter "SRO") to the District, as more fully described in the excerpts of Article 52 of the Sheriff's Department Rules and Regulations attached hereto and made part hereof as Schedule "A."

SECOND: For the services rendered pursuant to paragraph "FIRST", the District shall pay the County:

(a) \$9,162.00 in 10 equal monthly installments, commencing September 1, 2022, and ending with the final payment being due on June 1, 2023.

Prior to the making of any payments hereunder, the District shall be provided with a summary explaining the precise manner in which the monthly payment was arrived at by the County

Payment shall be due on the first business day of each month for the term of the contract. In the event that the District fails to make a payment within thirty (30) days of the due date, the County will, prior to terminating the Agreement, provide the District with notice of the default and an opportunity to cure the default within fifteen (15) days thereafter.

THIRD: This Agreement shall commence on September 1, 2022, and terminate on June 30, 2023, except as otherwise extended by a written instrument signed by the parties hereto.

FOURTH: The SRO shall be selected by the Sheriff's Department and the Superintendent of the District, as more fully set forth in § 52.2 on Schedule "A" annexed hereto and made a part hereof.

FIFTH: In the event that SRO must be replaced by a deputy sheriff in a lower salary grade, the District shall be credited the amount that reflects the salary decrease and the regular monthly amount due to the County shall reflect said change. In the event that SRO's salary increases, or the SRO must be replaced by a deputy sheriff in a higher salary grade, the District shall be charged with the amount that reflects such increase and the regular monthly amount due to the County shall reflect said change.

The monthly amount referenced in paragraph "SECOND" hereof has been calculated using the assigned deputy's actual salary, along with an estimated 2% increase to account for estimated wage increases to be negotiated with the SRO's applicable Union. Where a new

Collective Bargaining Agreement is executed between the County and the Union and said Agreement covers the time period encompassed by this Agreement, and where it results in a salary increase for the SRO over and above 2%, the District shall be charged said difference and the regular monthly amount due to the County shall reflect said change. The District shall also be responsible for fifty percent (50%) of any retroactive payments that may be due to the SRO as a result of the ratification of a new Collective Bargaining Agreement, and a separate invoice will be provided to the District for such amount. Said invoice will be accompanied by an explanation of the calculation for the amount due and owing and shall be paid to the County within thirty (30) days of receipt of said invoice.

Should a new Collective Bargaining Agreement result in a wage increase of less than 2%, then the District shall be credited said difference and the regular monthly amount due to the County shall reflect said change.

SIXTH: The SRO shall be under the general supervision of the Sheriff and shall follow all policies and procedures of the Sheriff's Department. In the event that an SRO, during the course of his or her duties, is involved in an incident in which they use physical force with regard to any student, staff, or visitor, the Putnam County Sheriff's Department's policies regarding the use of physical force will be accessed and utilized, if necessary, to make a determination as to the appropriateness of such use of force by the SRO (a copy of said policies and procedures is attached hereto and made a part hereof as Schedule "B"). Only the Putnam County Sheriff shall be authorized to make a determination as to the appropriateness of the use of physical force. This paragraph shall in no way supplant or otherwise be construed to preclude the District from fulfilling its obligations under Article 23-B of the New York State Education Law with regard to determinations regarding allegations of child abuse in the educational setting.

SEVENTH: The SRO shall be assigned on a full-time basis of eight (8) hours on the days that school is in session, (including any and all days that teachers are required to report to school regardless of whether students will be present), as more fully described in § 52.8 of Schedule "A" annexed hereto and made a part hereof. In the event that the District requires the SRO beyond normal duty hours for the purpose of providing security at school athletic, social, special or other events, the District shall be responsible for the payment of the SRO's overtime pay.

EIGHTH: Either party, upon sixty (60) days' notice to the other, may terminate this Agreement, in whole or in part, when a party deems it to be in its best interest. In such event, the County shall be compensated, and the District shall be liable only for payment for services already rendered under this Agreement prior to the effective date of termination.

NINTH: Except as otherwise contemplated herein, neither party shall assign or sub-contract any of its obligations and/or responsibilities under this Agreement and any purported delegation of duties, assignment of rights or sub-contracting of responsibilities under this Agreement is void and shall be deemed a direct breach of this Agreement.

TENTH: In addition to, and not in limitation of, the insurance requirements contained in Schedule "C" entitled "Putnam County Insurance Requirements," attached hereto and made a part of this Agreement, the District agrees to protect, defend, indemnify and hold the County of Putnam and the Sheriff and its officers, employees and agents free and harmless from and against any and all losses, penalties, damages, settlements, costs, charges, professional fees or other expenses or liabilities of every kind and character arising out of or relating to any and all claims, liens, demands, obligations, actions, proceedings or causes of action of every kind and character in connection with or from those duties and services of the SRO provided under this Agreement

and/or performance hereof over which the District retains direct control. The District further agrees to indemnify the County and the Sheriff for any damage to County property which arises out of the performance of the services provided under this Agreement. The District further agrees to indemnify the County and the Sheriff for any bodily injuries sustained by the SRO while on District property, provided such liability does not include the County's and/or Sheriff's obligations under the Worker's Compensation Law and/or Section 207-c of the General Municipal Law.

The County shall indemnify, defend and hold harmless the District, its officers, employees and agents from and against any and all claims, suits, actions, causes of action, damages, judgments, liabilities, fines, penalties, and expenses, including reasonable attorney fees and litigation costs arising out of or related to the services acts or omissions of the SRO over which the County of Putnam retains direct control.

The County will be responsible to provide the District proof of Professional Liability and Automobile insurance for the SRO's services provided under this Agreement. The District will be named as an additional insured on all Policies. The County of Putnam shall maintain Worker's Compensation Insurance in the amount required by law and provide the District documentation of such coverage.

ELEVENTH: In connection with the performance of this Agreement, the County and Sheriff will comply with all applicable laws, regulations, and orders, including, but not limited to, equal employment opportunity laws and regulations, the Fair Labor Standards Act, to the extent required by law, as well as the Education and Labor Law of the State of New York.

The County and the Sheriff will assure that they will abide by federal and state confidentiality statutes, including, but not limited to, the Family Educational Rights and Privacy

Act ("FERPA"), to the same extent that it must be complied with by the School District. The obligation to preserve the confidentiality of student information shall survive the termination of this Agreement, except where required to be disclosed by law.

The parties hereto expressly agree that they shall be solely responsible for supervising their respective employees; that they shall respectively comply with all rules, regulations, orders, standards, and interpretations promulgated pursuant to the Occupational Health and Safety Act of 1970 and the Public Employees Safety and Health Act (hereinafter referred to as "PESH"), including but not limited to training; provision of personal protective equipment; adherence to all appropriate lockout/tagout procedures; and providing all notices, material safety data sheets, labels, etc. required by the right-to-know standard.

TWELFTH: An SRO's responsibilities shall include, but are not limited to the following: (a) investigating criminal activities and enforcing criminal laws and ordinances on or adjacent to District property; (b) advising school administrators, school safety committees and building response teams in an effort to enhance safety on or near District property and at school-related events; (c) coordinating safety drills; (d) presenting law-related material at district-wide conferences/superintendent days; (e) providing support to school administrators in an effort to counsel students suspected of criminal conduct; (f) attending parent and faculty meetings to promote awareness of law enforcement functions and the School Resource Officer program; (g) attending school functions; (h) attend the training program promulgated by the New York State Juvenile Officer's Association which is geared toward School Resource Officers in such frequency as shall be required by the State; (i) attend a District sponsored training program on child abuse in the educational setting. The SRO shall not act as a school disciplinarian. All costs and expenses in connection with the SRO's completion of the child abuse in the

educational setting training described in subsection (i) of this Paragraph "TWELFTH" shall be borne by the District.
