

FEED IT FORWARD

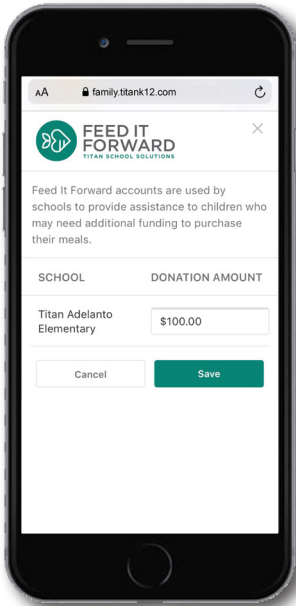

“Feed it Foward”

Never again should a child or school nutrition team member have to contend with the unpleasantness of lunch shaming.

TITAN is proud to announce our Feed it Forward program. With increased legislative pressure and scrutiny over school funds, many cafeteria workers find themselves unable to serve an occasional complimentary meal to a child in need at the point of sale due to school meal debt and negative student balances. Regrettably, students are denied meals due to a lack of funds, often resulting in the all-too-common practice of lunch shaming.

Feed it Forward encourages and accepts contributions through the TITAN Family Portal to help fund meals for children at school, as needed.* This community generosity raises additional school funds for the express purpose of serving a child an occasional meal, and avoiding the stigma of lunch shaming. TITAN is committed to *Making Schools Stronger™*.

*Not all districts may qualify for participation with the TITAN “Feed It Forward” program, but all districts are eligible for the many other TITAN innovations.
