

How to Update your Transcript Self View

When you add your high school to your account, you will have the option to request a free copy of your transcript, which can then be stored in your account. This transcript will be available for you to view, print, download and share online. However, it cannot be used as an official transcript.

The transcript stored in your Parchment account will not update automatically when new grades come in. Therefore, you would need to send a request to your school to have them deliver the latest version of your transcript to your Parchment account.

To view, print, download, and update your stored transcript:

Log into Parchment.Com

You will see the available transcripts.

To View: Click the image of the available transcript to view it

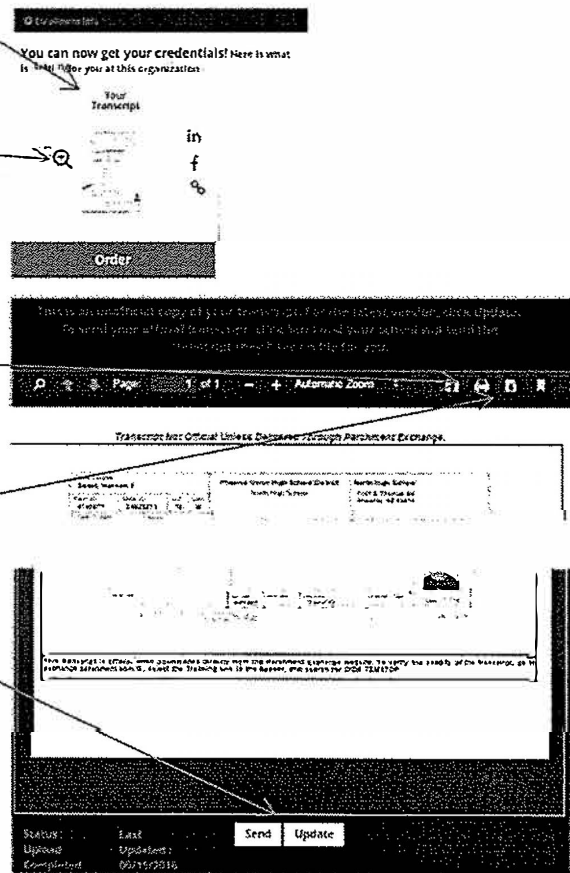

Note: If there isn't a transcript icon and the word "Pending" is in the field - the request is still awaiting approval from the high school.

To Print: Click the print icon on the top right to print it.

To Download: Click the download icon on the top right to download it.

Click **Update** at the bottom of the screen to send a request to your school to upload your latest transcript.

**Note: This will generate an order to your high school for a new official self-view transcript. Your high school will need to process this order for the updated version appears in your account.*
