b) The % of participation is not based on all extracurricular activities, it's only based on participation in sports. Many sports are cut sports. If a student hasn't previously participated it could be a barrier to participation in high school.

4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

- Distribute free ASB cards to all students that provide consent to share F&R information.
- Communication through school newsletters, district messages, district/school webpages, and social media about fee waivers for eligible students.
- Make hard copies of consent to share forms for counselors/office staff to make readily available/handout.
- Make information available in other languages.
