# Virtual Online College Credit for Your Student

Help your high school student get a head start on their college education and save money on their degree with our new online concurrent credit courses.

Baker University aims to educate and nurture students who will go out into the world and change their communities. As part of that mission, we are extending our reach and building a stronger pathway for high school students to jump-start their college education through our new online concurrent credit program. Now with more flexibility online, students in our concurrent credit program can earn college credit from Baker University and complete high school requirements at the same time.

Students in the online concurrent credit program will experience college-level work with layers of support and gain firsthand knowledge about the exciting opportunities at Baker.

COURSES LISTED ON BACK

## Scholarship Program

By participating, students may also be eligible for a \$50,000 (over four years) scholarship when they attend Baker full time after high school.
