Part IV: Diagnostic Assessments

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students’ specific knowledge, skills, and understanding in order to build on each student’s strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

Part VII: Monitoring Student Progress

13. Describe how your LEA will consistently apply the selected equity analysis and diagnostic assessments to evaluate and monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and well-being.

For example:

“Our district uses an equity analysis process every three months to monitor progress, adjust strategies and identify student learning gaps.”

As identified in the Learning Recovery Plan, our school district uses a number of diagnostic tools to assess students' academic and social well-being. As soon as students were able to return to onsite learning, our teachers began to assess our students K-12 to identify learning loss as well as to monitor student growth going forward. Teachers in all programs: general education, special education, title and LAP have continued to assess students and are currently using this data to identify students for summer school. In the Fall of 2021, students will again be assessed academically as well as socially and emotionally in order to identify students for our after-school programs.

Part VIII: Supports for Strategies/Interventions

- 14.** Of the strategies/interventions your LEA has implemented or is planning to implement, identify **up to three** in which your LEA has the knowledge, skills, and capacity to mentor another LEA.

Currently, our school district has identified summer school and after-school programs as a strategy to recover learning loss and support those students who need additional social and emotional supports. Our school district has significant experience running these programs through the 21st Century grant.

- 15.** Of the strategies/interventions your LEA has implemented or is planning to implement, please identify **up to three** strategies for which your LEA needs more support.
