SPECIAL TRANSPORTATION

The following uses of district transportation are a privilege, not a right, and, except where bound by the terms of a lease, the district may revoke that privilege through official board action at a regularly scheduled and legally advertised meeting. Any staff member may deny transportation to any student who violates the district’s written rules and regulations.

School Activities
Transportation may be provided by the district for all activities which have been officially designated by the board as school activities. Activities may include, but not be limited to:

A. Educational field trips growing out of regular classroom activity which are planned by the teacher, approved by the principal and supervised by school staff, provided that any over-night trip or any out of state trips requires prior approval of the board (Policy No. 2320); and
B. Athletics, debate, drama or music programs or other board-approved co-curricular programs. Participants in any other activity who feel such activity should be considered an official school activity may petition the board, through the superintendent, to have it considered as a school activity.

Extracurricular Activities
The superintendent may authorize the use of district transportation vehicles transporting nonparticipating students to extracurricular activities. Such vehicles may be so used when the users or sponsoring club pay an amount sufficient to reimburse the district for the complete cost of such use. District drivers shall be used on all such trips. Participants shall be supervised by staff.

Cooperative Programs
The board may enter into cooperative transportation agreements with other districts when it is economically advantageous to the cooperating districts and when it does not impair the quality of educational programs available to students.
