

### ***Purchase Continuous Glucose Monitors (CGM) at Your Pharmacy***

After your group's renewal, either July 1, 2022 or October 1, 2022, CGMs will be covered **exclusively under your pharmacy benefit**. You will be able to fill a CGM prescription at any participating pharmacy in the plan's network or have CGM supplies delivered to your home through IngenioRx Home Delivery. These options should be faster and more convenient than getting CGM supplies from a medical equipment company and may even save you money. After your renewal, **you will need to request a new prescription for CGM supplies from your doctor** and send it to your pharmacy.
