

1 **REMEDIAL INSTRUCTION PROGRAM**

2
3 The School Board shall implement programs of prevention, intervention or remediation for
4 students who are educationally at risk, including those who fail to pass any Standard of Learning
5 assessment in grades three through eight, or who fail an end-of-course test required for the award
6 of a verified unit of credit required for the student’s graduation.

7
8 Prevention

9
10 ACPS will take steps to prevent students from failing to pass the SOL tests.

11
12 Intervention

13
14 ACPS will intervene if student assessments indicate that a student is likely to fail the SOL tests.

15
16 Remediation

17
18 ACPS shall require any student who fails all of the Standards of Learning Assessments for the
19 relevant grade level in grades three through eight to attend a summer school or participate in
20 another form of remediation. ACPS shall choose (offer) such summer school program or other
21 form of remediation as appropriate to meet the academic needs of the student.

22
23 The student may satisfy the requirement for remediation by attendance in a program of
24 prevention, intervention or remediation which has been selected by his parent and is either (i)
25 conducted by an accredited private school or (ii) a special program determined to be comparable
26 to the required public school remediation program by the Superintendent. The student’s parents
27 shall bear the costs of such private school remediation program or other special remediation
28 program. Parents must provide documentation of the student’s attendance and successful
29 completion of the approved alternative remediation program.

30
31 **Instruction.** In designing the division remediation programs required by the Standards of
32 Quality the School Board shall annually evaluate and modify, as appropriate, the remediation
33 plan based on an analysis of the percentage of students meeting their remediation goals and
34 consideration of the pass rate on the Standards of Learning.

35
36 The program shall include, when appropriate, a procedure for early identification of students
37 who are at-risk of failing the Standards of Learning assessments in grades three through eight or
38 who fail an end-of-course test required for the award of a verified credit required for the
39 student’s graduation. ACPS shall provide such students with appropriate remediation activities.

40
41 **Compulsory Attendance.** When a student is required to participate in a remediation program
42 pursuant to this policy, the Superintendent may seek immediate compliance with the compulsory
43 school attendance laws if reasonable efforts to seek student’s attendance, including direct
44 notification of the parents or guardian, have failed.

46 **Reporting.** The Alexandria School Division will annually report the following information to
47 the

48
49 School Board and Board of Education pertaining to the students eligible for remediation:
50

- 51 • The number of students failing a state-sponsored test required by the Standards of Quality
- 52 or Standards of Accreditation;
- 53 • A demographic profile of students attending state-funded remedial programs;
- 54 • The academic status of each student attending state-funded remedial programs;
- 55 • The types of instruction offered;
- 56 • The length of the program;
- 57 • The cost of the program;
- 58 • The number of ungraded and disabled students, and those with Limited English
- 59 proficiency;
- 60 • As required, the pass rate on Standards of Learning assessments; and
- 61 • The percentage of students at each grade level who have met their remediation goals.
