

## We'll take it from here

### Your dependent child's orthodontia benefits will continue in good hands with Delta Dental of Missouri

Delta Dental of Missouri is proud to cover orthodontia treatment for St. Joseph School District eligible dependent children at 50% up to the \$1,000 or \$1,500 lifetime max, depending on the plan selected. This matches your previous plan. And, we will continue the exact same lifetime max going forward. Depending on the amount of orthodontia benefits received under your previous plan, your benefits with Delta Dental of Missouri will be adjusted to equal the \$1,000 or \$1,500 lifetime max, depending on the plan selected. Here's an example:

#### Orthodontia in progress example

Benefits received under your previous dental insurer	Lifetime max	Benefits remaining with Delta Dental of Missouri
\$300	\$1,500*	\$1,200*

#### Talk with your orthodontist

After your benefits become active with Delta Dental 7/1/2022, at your next orthodontist appointment, inform them that you now have dental benefits through Delta Dental of Missouri.

To be sure your benefits continue uninterrupted, Delta Dental asks your orthodontist to refile your claim with some additional information shown below. Most orthodontists are familiar with this process.

#### To be provided by your orthodontist

- Employee name
- Patient name
- Complete ADA claim form
- Prior carrier payment history and/or explanation of benefits
- Treatment plan (including):
  - Banding date
  - Amount of initial fee
  - Total case fee
  - Total number of months

\*Example based on enrolling in the Buy-Up Plan.
