Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

McKinna considers families the most essential partners in achieving goals within the SPSA. The McKinna staff cultivates meaningful partnerships and authentic family engagement through healthy communication venues such as SSC, ELAC and PTA. Up until March of 2020, McKinna offered monthly literacy events on site through Family Fridays and literacy workshops. In addition, in 2019-20, McKinna offered family education opportunities on site and opportunities for families to contribute to the educational opportunities for their children. McKinna partners with organizations like Ventura County Behavioral Health and Logrando Bienestar to offer workshops and services to families for mental health. Parent education is also offered through the school counselor, social worker and ORC. The average attendance at parent workshops have been 25 -50 families and at monthly Family Fridays, 150 families. Special events like Back to School Night, the Multi-cultural Fair and PTA movie nights brought in an average of 300 families during the 2019-20 school year. During the 2020-21 school year, McKinna will offer leadership and educational opportunities through SSC, ELAC, PTA. gatherings, workshops and meetings and will be held virtually to ensure safety. McKinna will utilize the web site, Blackboard connect, Canva, Zoom, and social media to maintain ongoing communication with families.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Trauma is a barrier that significantly impacts student achievement. McKinna's high percentage of referrals to Ventura County Behavioral Health, illustrate that a large number of students and families are dealing with trauma for a variety of reasons including substance abuse, domestic violence, mental health issues and immigration concerns. Therefore, it is especially important to provide a systematic multi-tiered approach to connect families to community resources and to address the academic and social-emotional needs of students who have experienced trauma. The District funded ORC, counselor, social worker work closely with McKinna families to coordinate resources and maximize services for educational, mental and physical health through partnerships with organizations like Ventura County Behavioral Health. This is especially important during the 2020-21 school year to support academic, physical, and social-emotional needs created by COVID pandemic.

Although McKinna administered the Healthy Choice Survey to 5th graders and parents, there were not enough completed responses to have a valid benchmark assessment of school climate through this measurement tool in 2018-19. Due to COVID, the survey was not conducted in the 2019-20 school year. During 2020-21 McKinna staff will support the administration of the CA Healthy Kids

Survey within the 5th grade classrooms and at family gatherings in order to obtain a valid benchmark assessment.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

McKinna staff will continue to promote family engagement and empower parents/guardians as essential partners in their students' education. In addition to encouraging participation in decision making bodies like SSC, PTA and ELAC, McKinna will offer multiple venues for family engagement through workshops to promote literacy and technology skills, including a better understanding of Canvas. Parent workshops will be offered during the 2020-21 school year virtually to ensure safety during COVID Pandemic. Parent workshops like Project 2 Inspire to increase EL parent engagement and advocacy will be offered through the District. McKinna will continue to continue ongoing communication through venues like Blackboard connect, Canvas, social media and the school web site. The school will include families in SST, IEP and attendance review and goal setting meetings as well.

Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

Budget Summary

| Description | Amount |
|---|--------------|
| Total Funds Provided to the School Through the Consolidated Application | \$93,986.00 |
| Total Federal Funds Provided to the School from the LEA for CSI | \$0 |
| Total Funds Budgeted for Strategies to Meet the Goals in the SPSA | \$231,230.00 |

Other Federal, State, and Local Funds

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

| Name of Members | Role |
|-----------------|----------------------------|
| Wendy Garner | Principal |
| Leticia Batista | Classroom Teacher |
| Beatriz Viveros | Classroom Teacher |
| Veronica Garcia | Classroom Teacher |
| Elena Salgado | Other School Staff |
| Ruth Rocha | Parent or Community Member |
| Susana Lopez | Parent or Community Member |
| Guadalupe Ortiz | Parent or Community Member |
| Maria Diaz | Parent or Community Member |
| Roberto Vicente | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

| Signature | Committee or Advisory Group Name |
|---|------------------------------------|
|  | School Site Council |
|  | English Learner Advisory Committee |

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10/13/20.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

For questions or technical assistance related to meeting federal school improvement planning requirements (for CSI, TSI, and ATSI), please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school’s identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school’s identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Ramona's Vision - Empowering Ramona Elementary students to achieve excellence through hard work, perseverance, and a commitment to lifelong learning.

Ramona Mission - To provide a safe, nurturing environment where students reach their academic potential and become responsible global citizens.

Ramona School is committed to the following:

- Guide students to become global citizens using technology and collaboration to develop critical, independent thinkers and leaders.
- Utilize technology to accelerate and provide individualized and personalized learning.
- Provide a supportive environment that addresses all students' needs, including nutrition, physical, social-emotional, safety, intellectual growth, and development.
- Provide opportunities for family and community partnerships through participation in school committees and events.
- Educate confidently with a positive attitude and enthusiasm with respect for students, parents, and each other.
- Inform and provide differentiated instruction to ensure that all students are given learning opportunities in all content areas.
- Use formative assessment data throughout the year to communicate and collaborate as a team member, be open to new ideas, and reflect on our practices to continue our growth as professionals.
- Ensure that all students can access the Common Core Standards State Standards Curriculum by building foundational skills that lead to college and career readiness.
- Create an environmentally responsible campus.
- Attend professional development that enhances our understanding of research-based Common Core State Standards core practices to build school capacity.
- Participate in reciprocal Professional Learning Communities to reflect, improve, and advance instructional practices
- Attend training, which supports Project-Based Learning and focuses on developing STREAM-based learning.
- Continue to provide and support educational and social-emotional services during distance learning do to the COVID19 pandemic

Ramona Elementary School is located on the east side of Oxnard, where the population is predominantly of Latino/Hispanic descent with a significant immigrant population. Our school is comprised of 99% Latino, 1% white, 98.3% socioeconomically disadvantaged, and 85.4% English Learners. Among the English Language Learners, we have dialects such as Mixtec and Zapotec, which comprise 8.85 percent of the English Language Learners. Although the odds are against our students, Ramona Staff committed to our students, and through collective efficacy, we had significant gains on our English Language Arts CAASPP. Overall, we had a four percent improvement in grades three through five. In addition, our longitudinal data showed fifth-grade students with a significant gain of 13 percent. In addition to our teachers' collective efficacy, students had the support of Lexia CORE5, which enriches the academic instruction and reinforces learning in an adaptive, personalized, and individualized learning that motivates students by creating a customized and personalized learning path. Lexia Core5 provides a systematic and structured approach to six critical reading phonological awareness: phonics, structural analysis, automaticity, fluency, vocabulary, and comprehension. ST-Math starts by teaching the foundational concepts visually and then connects the ideas to the symbols and language. ST Math is a standards-aligned

program that creates opportunities to move away from digitized math drills and puts them in the mindset to think creatively. Challenging games help students explore non-routine problems and build numbers sense instead of memorizing disconnected facts. Both Lexia and ST Math programs create personalized learning paths for students of all abilities through adaptive placement and scaffolded activities that align with rigorous standards.

Lastly, we believe we need to develop lifelong learners to explore the world through reading. Therefore at Ramona, we celebrate every child's success by acknowledging their reading success through the Accelerated Reading Program. With our Mission, Vision, and Commitment in mind, we at Ramona Elementary School work consistently and diligently improve upon our strong gains in student achievement. Hard work and dedication to our goals have shown an increase in student achievement, especially in Language Arts, mathematics, and our English Language Learners.

We critically examine and determine what actions empower our students to achieve and which areas need further development to enable students to achieve greater success. Professional Learning Community, grade-level teams collaborate after each assessment to analyze data from both formative assessments such as Star 360 Early Literacy, Reading, Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, curriculum-embedded assessments, and summative (CAASPP, ELPAC) assessments to monitor student achievement and identify key learning targets within the Common Core State Standards to target and modify instruction. Teachers use grade-level data to plan lessons, identify instructional strategies, target students' intervention and adjust as needed. Acquiring academic English language continues to be an essential goal for Ramona School students, especially for our English Language Learners (ELLs). For the 2020-2021 School Year, Ramona Elementary will provide parents the opportunity to enroll their children in a 50/50 Dual Immersion Program (DLI) starting in Kindergarten through 2nd-grade. We believe this switch from TBE to DLI empowers to learn a second language (Spanish) and validate students' first language, while simultaneously offering monolingual students access to non-English language. Every year we will be adding one year until every grade Kinder through fifth grade, becomes part of the Dual Immersion Language program.

NOTE: Given the COVID19 pandemic Teachers are teaching through distance learning, and collaborating weekly in order to address the needs of all students.

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

The site administration and members of the District Dual Immersion personnel and English Language Services visit classrooms throughout the year to identify best practices and ensure implementation of expectations. Classroom observations provide information to develop goals, actions, and services. Some of the expectations are for students to be aware of and understand the lesson's learning objective, making sure that students are doing most of the talking, with conversations that are purposeful and academically focused. Ensure students have a clear understanding of the activity, participating in cooperative learning, problem-solving, creative projects, and various high-level thinking that engage and provide meaningful student participation. One area of focus of visits during the upcoming year, 2020-2021, is on oracy, emphasizing communication, collaboration, critical thinking, and creativity across all academic areas, specifically in writing and mathematics.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Ramona has been and will continue to use state CAASPP and District STAR360 assessments to inform and improve instruction and student learning. In addition to the California Healthy kids survey and Panorama Social-Emotional Learning Survey.

The local formative assessments are the STAR360 Reading and Math, IABs, and teacher-selected writing assessments with other supplemental programs as Lexia CORE5 and ST-Math, which support instruction. In the spring, students take the CAASP as part of the Summative Evaluation for ELA, Mathematics, and Science.

Panorama Survey is given to students three times during the year to unify the district SEL work and measure student's progress in areas social awareness, growth mindset, self-management, emotional regulation, sense of belonging, and teacher-student relationships.

5th-grade students, parents, and staff take the Healthy Kids Survey in the spring. It enables schools and communities to collect and analyze data regarding youth health risks and behaviors, school connectedness, school climate, protective factors, and school violence.

Both Panorama and the California Healthy Kids Surveys are part of a comprehensive data-driven decision-making process on improving school climate and student learning environments for overall school improvement.

The school Faculty meet weekly to discuss local assessments, planning of instruction, and professional development.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

In order to address the needs of all students and specifically underperforming students, teachers are provided time to meet as a grade level. The purpose is to increase student achievement and teacher awareness of students' level. After each assessment, teachers review the data and plan accordingly.

Within a Professional Learning Community context, grade-level teams frequently collaborate to analyze data from both formative (Star 360 Early Literacy/Reading/Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments to monitor student achievement and identify key learning targets within the Common Core State Standards to target and modify instruction. The teacher also tracks formative and summative data to support student learning, including the progress not only on assessments but also on tools that provide students opportunities to address their individual educational needs through Lexia and ST Math programs.

While on Distance Learning do to COVID19, teachers meet and an additional hour to celebrate successes and tackle student learning challenges.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

The district ensures that that all site staff meets requirements to be considered "highly qualified." This is monitored by the district's Human Resources Department.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Incoming teachers are appropriately credentialed and provided with various forms of support. New Teacher Orientation is offered which includes District expectations and procedures, training on current curricular materials and programs and tips on classroom management. The district has a PAR (Peer Assistance and Review) program to offer support to any teacher who requests or requires it. The district works with the Ventura County Office of Education to provide Induction for new teachers. Professional development is always offered when new materials are adopted. Follow up training is available to continue to support the use of the materials.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Professional development is provided at the site and district level to ensure that instruction is aligned to current Common Core State Standards. There is a district assessment calendar to ensure that student progress is sufficiently monitored throughout the year. Professional development and support is provided on the assessment system and the specific types of assessments. Structures are in place at school sites to allow teachers to analyze data in collaborative groups in order to identify student needs and adjust instruction accordingly.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

The Educational Services Department includes Directors who provide support for Curriculum, Instruction, Biliteracy Programs, English Learner Services, Special Education and Pupil Services. Instructional Specialists work directly with teachers to support instruction in Science and Math. A DLI (Dual Language Immersion) TOSA (Teacher on Special Assignment) works directly with teachers to support biliteracy instruction. Site Principals function as instructional leaders.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Through frequent, ongoing, and evidence-based collaboration, teachers are able to identify underperforming students in need of targeted intervention services. Utilizing the Multi-Tier System of Supports model, specific and aligned intervention strategies are provided to underperforming students at Tier I, II, and III levels. Students' progress and response to these intervention strategies are closely monitored by using pre and post-assessment data during six to eight-week-long rounds of intensive intervention.

Tier I students not meeting the expected outcomes after a round of intervention will be referred to the Coordination of Services Team (CoST) process and receive Tier II level intervention for an additional six-weeks.

Tier II students not meeting the expected outcomes are referred to as the Success Study Team (SST) process. And receive Tier III level intervention for an additional six-weeks.

Tier III students not making adequate progress after receiving Tier I, II, and III levels of intensive intervention may be referred for Special Education assessment if it is suspected that the student has a learning disability that might be interfering with the student's ability to make progress towards grade-level standards.

Note: If a learning disability is suspected at any time, and it is evident through the student's initial observation, and evaluation the teacher or any other person working with the student can refer the student for Special education assessment. Also, if a parent or guardian is concerned about their child's progress in school, they can request an evaluation at any time.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Collaboration work, using the PLC (Professional Learning Communities) model, supports use of instructional strategies aligned to current CA Common Core State Standards. State adopted and approved curricular materials support instruction.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Instructional minutes are monitored by the Business Services office. All school schedules adhere to the guidelines governing recommended instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

The district assessment calendar and adopted curricula provide guidance on lesson pacing. Student needs are determined by data analysis. Courses are scheduled based on these student needs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Instructional materials provided for all students are managed by our district Textbook Coordinator. Participation in Williams Inspections confirms that all students have access to required materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Adopted and standards-aligned materials are provided for use in all classrooms. Intervention materials must be research-based. Funds are allocated to sites to purchase any additional materials they determine are necessary to meet student needs.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Students are supported in class through small group instruction. The groups are flexible and based upon a student's needs. Also, the Instructional Support Teachers support students and teachers to reduce teachers' ratio to students and provide targeted instruction. In order to address the needs of all students and specifically underperforming students, teachers are provided time to meet as a grade level PLC. The purpose of the PLC time to increase student achievement. This provided an opportunity for teachers not only to backward map the year, but also to become familiar with the curriculum. In addition, PLC meetings have been strategically scheduled throughout the year after each assessment.

Through frequent, ongoing, and evidence-based collaboration, teachers can identify underperforming students in need of targeted intervention services. Utilizing the Multi-Tier System of Supports model, specific and aligned intervention strategies are provided to underperforming students at Tier I, II, and III levels. Students' progress and response to these intervention strategies are closely monitored by using pre and post-assessment data during six-week-long rounds of intensive intervention. Tier I students not meeting the expected outcomes for one round of a six-week intervention will then be referred to the Coordination of Services Team (CST) process and will receive Tier II level intervention for an additional six weeks. Students not meeting the expected outcomes from the Tier II level intervention will then be referred to the Success Study Team (SST) process. They will then receive a Tier III level intervention. Students who still do not demonstrate adequate progress after having received Tier I, II, and III levels intensive intervention may be referred for Special Education assessment if it is suspected that a student has a learning disability that is interfering with the student's ability to perform at grade-level standards.

Evidence-based educational practices to raise student achievement

Researched based strategies as outlined in the reseach of Hatti's list of most effective and beneficial were reviewed and discussed by the admininstrator and teachers. We have collectively agreed on the Power of Collective Efficacy, with an effect size of 1.57. In addition teachers integrate evidence-based educational practices to raise student achievement for all students. For the 2020-2021 school year Ramona teacher will focus on Teaching strategies with a clear focus for the lesson where students are engaged with the content and teachers continue to check for understanding and provide feedback.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Ramona provides several opportunities for parents to become involved in their children's education. Parents are encouraged to participate and support Ramona Elementary students by becoming involved in parent training workshops in various areas including, but not limited to:

Parent Project, Loving Solutions, social skills, and discipline

Family Literacy Nights

IPad and application programs such Lexia, ST-Math, MyOn and Canvas

STREAM Night where students present Inquiry-Based Projects

Parent Book Club (The Four Agreements, Hijos Triunfadores) or any book that promotes parent development

Parents are encouraged to participate in school, district and community events, including, but not limited to:

VCBH Logrando Bienestar

MICOP, Viviendo con Amor

Class and field trip volunteers

PTA events

School Site Council

Englis Language Advisory Committee, ELAC

Parent Nutrition Classes

Parenting classes

Coffee with the Principal/Title 1 meetings

Awards Assemblies

Project 2INSPIRE

The above activities are dependent on school availability of space and OSD COVID 19 pandemic guidelines.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Ramona Elementary will continue to prioritize parent involvement during the 2020-2021 school year. Parents, community representatives, classroom teachers, and other school personnel serve a vital role in guiding the planning, implementation, and evaluation of ConApp programs. Parent representatives on the School Site Council, English Language Advisory Committee, and Parent-Teacher Association are elected on an annual or biennial basis. School or district-adopted bylaws govern the protocols and decision-making process for each of these committees to ensure annual goals and fiscal spending is centered on student success. Throughout the 2020-2021 school year, the school staff, community, and governance stakeholder groups will continue to monitor the actions identified to support the SPSA goals and to determine the school's effectiveness of meeting these goals. School Site Council and the English Language Advisory Committee meet monthly to discuss and monitor the school's progress towards meeting the SPSA goals, as well as to review the implementation of supports, programs, and services identified within the SPSA. The Principal will meet with classroom teachers and other school personnel on a weekly basis to analyze and monitor student achievement data in order to improve curriculum, instruction, and assessment.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Title I, Title III and LCFF funds are dedicated to improving student academics by providing resources, enrichment, and interventions to all students with evidence based teacher teaching collaboration focused on analyzing and monitoring data to inform classroom and school-wide instructional programs and practices.

Fiscal support (EPC)

The district receives Title I funding as we are considered a Title I district. All of our sites are considered “schoolwide.” Title I funds are allocated to each school based on the number of qualifying students. Sites then determine how to use the funds based on specific student needs. The district also distributes Title III funding to sites in order for them to provide any necessary additional services or resources to support English Learners. The district receives Supplemental and Concentration LCFF funding. Sites are allocated a portion of these funds in order to provide additional resources toward student achievement.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

The Ramona SPSA was developed with the input of the School Leadership Team and reviewed with parents during our Title I and ELAC meetings. ELAC and parent groups submitted their recommendations to the School Site Council for actions to be included in the SPSA. SPSA was presented to the School Site Council and reviewed during the October meeting. All parent committees (PTA, ELAC, SSC and Title I) participated in the development of the SPSA. School Site Council reviewed and approved the SPSA.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Throughout the year regular teacher substitutes continued to be a challenge by not having adequate teacher substitutes to cover classroom teachers during their absence. Lack of Substitutes had a ripple effect on the rest of the school as teachers took additional students making learning difficulty for all students involved. Also, teachers were overstressed due to the number of students they have to manage. Lack of substitute challenges extended to other positions. The principal, counselor, or other available staff had to be taken out of their roles to ensure students' learning and safety. Another challenge was hiring an Instructional Support Teacher, ISP, as many candidates were either not qualified or will take a permanent job elsewhere.

The 2019-2020 and beginning of 2020-2021 school years brought the COVID 19 pandemic, which in turn brought challenges, including access to Wi-Fi for many of our students. In addition to not having a stable environment where parents could stay home and support their child's education.

Conclusions based on this data:

Overall the student population at Ramona School has minimally changed from one year to the next. The Mixtec indigenous population represents the second greatest subgroup in the school as well as in the district. Currently we host about 70 families who speak Mixtec. but over all our student population remains largely unchanged from 99.5% Latino to 0.5% White.

Conclusions based on this data:

The 2019-20 preliminary ELPAC data for students assessed the following 80.9 are English Learners; 80.9% are Fluent English, and 14.1 and 16.1 are Reclassified Fluent English Proficient (RFEP). The two main languages spoken at Ramona are Spanish and Mixtec language. The data represented shows an increase of students being Reclassified for the year 201-2020 we had 82 students reclassified, primarily in third grade. Spring Reclassification was not available due to COVID19 Pandemic.

Conclusions based on this data:

ELA: From 2014-2015 the percentage of students who were not meeting standards decrease from 71-48.3. A 22.7% decrease. In the last couple of years, 2017-2018 to 2018-2019 went from 68% to 48.3 % with a 17.7 %, decrease in students not meeting standards. The percentage of students that were not meeting or nearly meeting standards in the last five years went from 90% to 73% a 17% decrease. With a decrease of 11.7% in the last couple of years. The number of students meeting or exceeding standards from 2014-2015 to 2018-2019 went from 10.3% to 27%, an increase of 16.7% with an increase of 11.7% in the last couple of years. The data above is from the school year 18-19, the conclusion remains the same due to COVID19 school closure.

Conclusions based on this data:

The 2018-19 preliminary CAASPP data for students assessed for English Language Learners on the CAASPP show an increase of student meeting or exceeding the standards. However, there is a clear indication that the other students require support in Reading and Writing Domains. The data above is from the school year 18-19, the conclusion remains the same due to COVID19 school closure.

| Total Enrollment | Socioeconomically Disadvantaged | English Learners | Foster Youth |
| 606 | 93.6 | 85.1 | 0.2 |

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

| Student Group | Total | Percentage |
| Hispanic | 602 | 99.3 |
| White | 4 | 0.7 |

Conclusions based on this data:

The data provided indicates Socially disadvantaged, English Learners and Hispanic students as significant subgroups. The language most represented is Spanish. Though the numbers are not significantly high in comparison to their other subgroups, our site Homeless and Foster Youth continue to increase. One of the goals for the site is to ensure that all students regardless of demographic receive rigorous instruction and opportunities for intervention and enrichment. According to current data, Ramona's current population is 99.3 Hispanic or Latino and 0.7% White. The only two races represented.

Conclusions based on this data:

Ramona experienced increases academically in language arts and mathematics overall. Although the overall increases can be considered significant over the last couple of years,, much work needs to be done to address achievement overall.

The data above is from the school year 18-19, the conclusion remains the same due to COVID19 school closure.

Conclusions based on this data:

The preliminary data for 2018-19 indicates all students increased this past year along with English Learners and students who are Socioeconomically Disadvantaged. However, Students identified as Students with Disabilities rated as declining. Since the Hispanic subgroup is the largest represented on-site, the scores reflect most of them as not meeting or exceeding the standards. The other groups have less than ten students and they are not reported on the Dashboard. Ramona's current population is 99.5% Hispanic/Latino with 0.5% white. The data above is from 2018-19 and the conclusions remain unchanged due to the COVID-19 school closures.

Conclusions based on this data:

Based on 2018 Dashboard English Language Proficiency Assessments for California (ELPAC) data, Ramona Elementary classroom teachers will continue to strengthen both Integrated and Designated English Language Development (ELD) to increase English Learners' language proficiency skills throughout the instructional day. Students in Kindergarten will continue to receive 30 minutes of daily Designated ELD instruction, while students in grades 1-5 will continue to receive 45 minutes of daily Designated ELD instruction. English Learners will be clustered at each grade level to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum materials. ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language levels in reading, writing, listening, and speaking to more figurative language proficiencies and fluency. Oral and written language supports and scaffolds will also be integrated throughout all core subject areas by classroom teachers to enable English Learners to access grade-level subject matter.

Conclusions based on this data:

Based on 2018 Dashboard Chronic Absenteeism data for all students, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Ramona Elementary will continue to build on its success addressing students' and family's challenges to attend school daily. Ramona staff, which includes the Outreach Coordinator, the School Counselor, Attendance Tech, and Principal, will continue to meet regularly to monitor student attendance and identify students at-risk of being identified as chronically absent. And develop and implement appropriate and meaningful supports, services, and incentives to increase students' attendance. School staff will support families and recommend and refer students or parents to Ventura County-based social services, counseling, or other community-based services or programs to offer families support to address barriers that negatively impact student attendance.

Conclusions based on this data:

Based on 2018 and data from 2019 Q database Dashboard Suspension Rate data for all students, including English Learner, Socioeconomically Disadvantaged students, Students with Disabilities and Significant subgroups, Ramona Elementary will continue its success in addressing students' behavioral needs by implementing a progressive discipline policy to minimize the need for student suspension. Classroom teachers will closely monitor and document student behavior throughout the instructional day and across various contexts, including the classroom, playground, cafeteria, hallways, bathrooms, ingress, and egress. Classroom teachers will continue to maintain open communication lines with parents to inform parents of behaviors that negatively impact the school's safe, positive learning environment. Minor infractions will be documented using a student behavior monitoring log. Major offenses will result in an office discipline referral, followed by a visit to the school administrator. Consequences for student misbehavior will align with the severity of the infraction, the infraction context, the historical background of the student, and the students' social/emotional/academic/intellectual needs. In most cases, restorative practices will be made available to address the infraction's social/emotional harm caused or created. The discipline process will emphasize student accountability, self-reflection, and problem-solving to redirect student behavior and build positive outcomes with peers.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Throughout the 2020-2021 school year, Ramona School will continue to emphasize the Power of Collective Efficacy. Students will be encouraged and supported to meet their Accelerated Reader Goals, Lexia Core5, ST Math trimester goals. Teachers will monitor students, individualize and personalized plans for each student and provide support and feedback.

Teachers will also concentrate on building students' writing ability across all core content areas to promote critical thinking and better equip students with the skills required to meet state-wide summative assessments' expectations.

Professional Learning Community will collaborate after each assessment to analyze data from formative assessments such as STAR360 Early Literacy, Reading, Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, curriculum-embedded and summative (CAASPP, ELPAC) assessments. Based on outcomes, teachers will identify key learning targets within the Common Core State Standards to target and modify instruction.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

There were no major differences in implementation and/or budget expenditures.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Analysis of the 2019-2020 SPSA and school achievement outcomes resulted in the need for improved, systemic, purposeful, and evidence-based collaboration. An increased number of common formative assessment benchmarks to more closely monitor student achievement, an emphasis on academic writing across all core subject areas, and continued focus on integrating Mathematical Mindset strategies to promote students' critical thinking and problem-solving skills in the area of Mathematics.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Ramona Elementary will continue to build on its success to address students' and family's challenges to attend school regularly. The attendance team will continue to monitor student attendance periodically and develop and implement appropriate systems to increase students' attendance.

Students' social, emotional, and behavioral needs will be identified through the CST and SST process and receive individual or small group counseling services by our school counselor. Our progressive discipline matrix will assist teachers and administrators with clear guidelines for responding to student behavior at both the classroom and school levels.

Our PBIS/School Safety Team meets regularly to analyze student discipline data, identify areas of focus, and provide school staff recommendations to strengthen our school's positive learning environment. Awards Assemblies honor and recognize students' hard work and positive choices by rewarding students with praise, recognition, and incentives.

School staff will support families and recommend or refer students or parents to Ventura County-based social services, counseling, or other community-based services or programs to offer families support to address barriers that negatively impact student attendance.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Ramona Elementary is continuing to focus on building strong foundations in social and emotional learning supports, while ensuring a safe and positive school climate for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on the analysis of the 2018-19 SPSA, chronic absenteeism and suspension rate data, the Ramona Elementary PBIS committee will analyze student discipline data frequently to identify areas of focus and provide recommendations to school staff in order to strengthen our school's positive learning environment. The committee will also collaborate with school staff to develop learning activities that reinforce school-wide expectations for student behavior across all areas of the campus, including the playground, hallways, bathrooms, cafeteria, and front office.

The data above is from 2018-19 and the conclusions remain unchanged due to the COVID-19 school closures.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Parent engagement is a critical component for students to be successful in their education. For this reason Ramona School provides ample opportunities for parents to engage and learn how to navigate the education system as well as to how to support their children's education and well-being. Engagement is provided through our English language Advisory Committee (ELAC), Parent Teacher Association (PTA), School Site Council (SSC) in coordination with our Outreach Coordinator.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Throughout the 2019-20 school year, Ramona Elementary will continue to focus on building strong parent and family engagement to support student success for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on analysis of the 2018-19 SPSA, parent needs assessments and parent requests, Ramona Elementary will continue to provide communication in the form of flyers. In addition, messages sent home through our parent connect will be done in English, Spanish and Mixtec dialect. School staff will also continue to support parents in aligning structures and positive reinforcement strategies implemented during the school day to those offered within the home environment to connect academic, social and emotional learning between the school and the home. The data above is from 2018-19 and the conclusions remain unchanged due to the COVID-19 school closures.

Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

Budget Summary

| Description | Amount |
|---|--------------|
| Total Funds Provided to the School Through the Consolidated Application | \$98,864.00 |
| Total Federal Funds Provided to the School from the LEA for CSI | \$0 |
| Total Funds Budgeted for Strategies to Meet the Goals in the SPSA | \$217,266.10 |

Other Federal, State, and Local Funds

List the additional Federal programs that the school is including in the schoolwide program. Adjust the table as needed. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

| Federal Programs | Amount (\$) |
|------------------|-------------|
| Title I | \$56,611.00 |
| Title III | \$27,565.00 |

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

| Name of Members | Role |
|-----------------------------|----------------------------|
| Dr. Andres Duran, Principal | Principal |
| Jeffrey Carranza | Other School Staff |
| Bridget Sims | Classroom Teacher |
| Martha Amezcua | Classroom Teacher |
| Maria Bassuk | Classroom Teacher |
| Jose Ortega | Parent or Community Member |
| Rodolfo Salvador | Parent or Community Member |
| Paola Morales | Parent or Community Member |
| Erika Andrade | Parent or Community Member |
| Simon Jijada Solano | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

School Site Council

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on October 13, 2020.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

For programmatic or policy questions regarding Title I schoolwide planning, please contact the local educational agency, or the CDE's Title I Policy and Program Guidance Office at TITLEI@cde.ca.gov.

For questions or technical assistance related to meeting federal school improvement planning requirements (for CSI, TSI, and ATSI), please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**asurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the "Goal #" for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school's identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school's identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the "Strategy/Activity #" for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Vision Statement: Emilie Ritchen is a school community of successful, life long learners.

Mission Statement: We work together to foster responsibility, respect and appreciation for one another, while maintaining high academic and behavioral expectations for all students and staff.

As described within our Vision and Mission Statements, Emilie Ritchen Elementary School is committed to providing the best educational program possible for our students. The quality of our instructional program is a reflection of our highly committed staff. We are dedicated to ensuring Ritchen School is a welcoming, stimulating environment where students are actively involved in their education, while building positive character traits focused on always choosing kindness. Through the shared vision of our staff, parents, and community, our students are challenged to reach their maximum potential. Our academic focus has centered on building strong foundations in reading,

writing, and mathematics. Throughout the 2020-21 school year, Emilie Ritchen will emphasize building rigor across all grade levels, while scaffolding instruction to strengthen students' skills on grade-level standards. Students are encouraged and supported to meet their Accelerated Reader trimester goals to build their literacy skills and reach their reading potential. Teachers will also concentrate on building students' writing ability across all core content areas to promote critical thinking and to better equip students with the skills required to meet expectations of state-wide summative assessments. Finally, teachers will continue focusing on implementing Mathematical Mindset strategies across all grade levels, enabling students to build their academic vocabulary and reasoning skills in the area of Mathematics.

Our over-arching academic goal is to raise achievement scores for all significant student subgroups. Working together within a Professional Learning Community context, teachers are engaged in ongoing, grade-level collaboration to analyze and discuss formative and summative assessment data so as to:

1. Identify learning targets and objectives from State-approved, Board-adopted curriculum that are aligned to the Common Core State Standards;
2. Inform effective classroom instruction practices;
3. Provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills;
4. Integrate classroom technology (e.g., One-to-One devices, Promethean Boards) to enhance student engagement; and,
5. Develop and implement student support and intervention programs and services for underperforming students.

Utilizing the Response to Instruction and Intervention (RTI2) or Multi-Tiered Systems of Support (MTSS) Model, students are identified through the Coordination of Services Team (CST) and Student Success Team (SST) process to receive intervention. Tier I level intervention services are provided by classroom teachers during Asynchronous/Universal Access time and English Language Development. Tier II to Tier III-Level Intervention services are provided by classroom teachers during Universal Access and English Language Development, and by our two Intervention Support Providers (ISPs) in small group settings in ELA and Math.

Aligned to our Strand Focus centered on Science and Technology, classroom teachers will provide science lessons and labs to students utilizing Foss Curricular materials aligned to Next Generation Science Standards (NGSS) when we return to live instruction. Additionally Identified Gifted and Talented Education (GATE) students, as well as other targeted students, will be provided with academic enrichment through Robotics to meet their academic ability and extend their instructional programs. Students are also given the opportunity, based on need, to enroll and participate in the Oxnard Scholars after school program to receive additional core instruction, academic enrichment, and study skills support. Our Preschool and Transitional Kindergarten programs prepare students to enter Kindergarten with the academic and social/emotional skills necessary to ensure school success.

Here at Ritchen, we take pride in fostering a safe, positive, and professional learning environment. In order to address our students' social, emotional, and behavioral needs, students are identified through the CST and SST process to receive individual and/or small group counseling services provided by our school counselor. Our progressive discipline matrix assists teachers and administration with clear guidelines for responding to student behavior at both the classroom and school levels. The Positive Behavior Intervention and Support model concentrating on STOIC (Structure, Teach expectations, Observe and monitor, Interact positively, and Correct fluently) guides all staff in providing a proactive and positive approach to managing student behavior both in

and out of the classroom. Our PBIS/School Safety Team meets on an ongoing basis to analyze student discipline data, identify areas of focus, and provide recommendations to school staff in order to strengthen our school's positive learning environment. When we are live, weekly Eagle assemblies and monthly awards assemblies will be held to honor and recognize the hard work and positive choices students make by rewarding students with praise, recognition, and incentives. During our current situation of distance learning, every Monday, the Principal and Counselor create a video highlighting, praising and recognizing students and teachers that are choosing kindness towards themselves by demonstrating high levels of participation, engagement and or demonstrating academic excellence. Students that earn incentives and or awards are given a scheduled time to come by the school to pick up their incentives safely.

In order for students to achieve their fullest potential, we know that parental involvement is a critical factor to ensure students' educational success. Our English Learner Advisory Committee (ELAC), Parent Teacher Association (PTA), and School Site Council (SSC), in coordination with our Outreach Coordinator, offer and encourage parents to become active participants in their children's education by participating in the meaningful and productive opportunities offered. The school's Parent Involvement Policy provides clear guidelines for parents to serve as volunteers in classroom and school activities. Our Back to School Night, Parent Nights focusing on Literacy, Math, and/or the Strand Focus, along with Trimester "Ritchen Coffee Talk" meetings, further support and foster parental engagement. During our current situation of distance learning video communication is being posted every week on our on school Dojo page and our school website.

We are also holding parent Q/A sessions over zoom that include the Counselor, ORC and the school Principal. Moreover, by offering a rigorous academic curriculum taught using data driven instructional practices, by maintaining high expectations for student success, by fostering a safe, positive learning environment, and by strengthening home-school partnerships to increase parental involvement, Emilie Ritchen Elementary School will meet the goals identified within this School Plan for Student Achievement.

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Ongoing data from both formal and informal classroom observations conducted weekly in Preschool through 5th grades throughout the school year assisted with the development of the goals, actions, and services highlighted throughout the School Plan for Student Achievement. Analysis of this classroom observational data highlighted the need for improved, systemic, purposeful, and evidence-based collaboration; an increased number of common formative assessment benchmarks to more closely progress monitor student achievement; an emphasis on academic writing across all core subject areas; and continued focus on integrating Mathematical Mindset strategies to promote students' critical thinking and problem solving skills in the area of Mathematics.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

The school utilizes data from both formative (Star 360 Early Literacy/Reading/Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments at critical points throughout the school year to modify instruction based on Common Core State Standards in order to improve student achievement outcomes for all significant student subgroups.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Within a Professional Learning Community context, grade-level teams will collaborate frequently to analyze data from both formative (Star 360 Early Literacy/Reading/Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments to monitor student achievement and identify key learning targets within the Common Core State Standards to target and modify instruction. Ongoing monitoring of summative and formative assessment data will also enable grade-level teams to identify, through the Coordination of Services Team (CST) and Student Success Team (SST) process, students in need of intensive, evidence-based small group intervention provided by the classroom teacher and/or the Intervention Support Providers (ISPs) during Universal Access time (asynchronous time during distance learning) or during before or after school tutoring.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

The district ensures that that all site staff meets requirements to be considered “highly qualified.” This is monitored by the district’s Human Resources Department.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Incoming teachers are appropriately credentialed and provided with various forms of support. New Teacher Orientation is offered which includes District expectations and procedures, training on current curricular materials and programs and tips on classroom management. The district works with the Ventura County Office of Education to provide Induction for new teachers. Professional development is always offered when new materials are adopted. Follow up training is available to continue to support the use of the materials.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Professional development is provided at the site and district level to ensure that instruction is aligned to current Common Core State Standards. There is a district assessment calendar to ensure that student progress is sufficiently monitored throughout the year. Professional development and support is provided on the assessment system and the specific types of assessments. Structures are in place at school sites to allow teachers to analyze data in collaborative groups in order to identify student needs and adjust instruction accordingly.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

The Educational Services Department includes Directors who provide support for Curriculum, Instruction, Biliteracy Programs, English Learner Services, Special Education and Pupil Services. An Instructional Specialist for science and a Math Manager work directly with teachers to support instruction in Science and Math. Site Principals function as instructional leaders.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Working together within a Professional Learning Community context, teachers are part of ongoing, grade-level collaborative teams that analyze and discuss formative and summative assessment data from state and local assessments in order to: 1. Identify learning targets and objectives from State-approved, Board-adopted curriculum that are aligned to the Common Core State Standards; 2. Inform effective classroom instruction practices; 3. Provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills; 4. Better integrate classroom technology (e.g., One-to-One devices, Promethean Boards) to enhance student engagement; and, 5. Develop and implement student support and intervention programs and services for underperforming students.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Collaboration work, using the PLC (Professional Learning Communities) model, supports use of instructional strategies aligned to current CA Common Core State Standards. State adopted and approved curricular materials support instruction.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Instructional minutes are monitored by the Business Services office. All school schedules adhere to the guidelines governing recommended instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

The district assessment calendar and adopted curricula provide guidance on lesson pacing. Student needs are determined by data analysis. Courses are scheduled based on these student needs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Instructional materials provided for all students are managed by our district Textbook Coordinator. Participation in Williams Inspections confirms that all students have access to required materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Adopted and standards-aligned materials are provided for use in all classrooms. Intervention materials must be research-based. Funds are allocated to sites to purchase any additional materials they determine are necessary to meet student needs.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Through frequent, ongoing, and evidence-based collaboration, teachers are able to identify underperforming students in need of targeted intervention services. Utilizing the Multi-Tier System of Supports model, specific and aligned intervention strategies are provided to underperforming students at the Tier I, II, and III levels. Students' progress and response to these intervention strategies are closely monitored through the use of pre and post-assessment data during six week long rounds of intensive intervention. Tier I students not meeting the expected outcomes for one round of a six week intervention will then be referred to the Coordination of Services Team (CST) process and will then receive Tier II level intervention for an additional six weeks. Students not meeting the expected outcomes from Tier II level intervention will then be referred to the Success Study Team (SST) process and will then receive Tier III level intervention. Students who still do not demonstrate adequate progress after having received Tier I, II, and III level intensive intervention may be referred for Special Education assessment if it is suspected that a student has a learning disability that is interfering with the student's ability to perform at grade-level standards.

Evidence-based educational practices to raise student achievement

Classroom teachers integrate evidence-based educational practices to raise student achievement outcomes for all students. These practices may include, but are not limited to, the provision of clearly articulated learning goals based on Common Core State Standards, integrating depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards, use of scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations, the provision of immediate feedback to students, reteaching of core subject matter based on formative assessment data, facilitation of student collaboration and peer modeling strategies, and teachers' belief of every student's ability to achieve success on grade-level Common Core State Standards.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Ritchen Elementary provides several opportunities throughout the school year to strengthen partnerships with family, school, district, and community stakeholders to assist under-achieving students. Family nights focusing on Literacy, Math, and/or Science engage stakeholders in academic activities to raise awareness and understanding of the expectations set by the Common Core State Standards. Throughout the year, parents will be invited to attend Parent/Teacher Conferences to collaborate with their child and their child's teacher to review achievement data and identify strategies for improving student success. Parents will also be encouraged to attend Student Success Team meetings if their child has been identified as significantly below grade-level standards or is exhibiting significant needs in social, emotional, and/or behavioral areas. Parent training and education will be coordinated and provided by the school's Outreach Coordinator to improve parents' ability to support their children's learning. Fiscal resources provided by the Ritchen Elementary PTA will assist in supporting standards-based field trips if it is safe to do so, providing supplemental instructional resources for classroom teachers, and supporting monthly Eagle Dollar Store, Awards Assemblies, and the annual Accelerated Reader Carnival (if it is safe to do so) to provide academic incentives and reward students for meeting their learning goals. During our current situation of Distance Learning, incentives purchased by the PTA are being provided to students that are being selected for choosing kindness for themselves by doing exceptional work and or being kind to others.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Ritchen Elementary will continue to prioritize parent involvement during the 2020-21 school year. Parents, community representatives, classroom teachers, and other school personnel serve a vital role in guiding the planning, implementation, and evaluation of ConApp programs. Parent representatives on the School Site Council, English Language Advisory Committee, and Parent Teacher Association are elected on an annual or biennial basis. School or district-adopted bylaws govern the protocols and decision-making process for each of these committees to ensure annual goals and fiscal spending is centered on student success. Throughout the 2020-21 school year, the school staff, community, and governance stakeholder groups will continue to monitor the actions identified to support the SPSA goals and to determine the school's effectiveness of meeting these goals. School Site Council and the English Language Advisory Committee meet monthly to discuss and monitor the school's progress towards meeting the SPSA goals, as well as to review the implementation of supports, programs, and services identified within the SPSA. The Principal will meet with classroom teachers and other school personnel on a weekly basis to analyze and monitor student achievement data in order to improve curriculum, instruction, and assessment.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Analysis of current and longitudinal student achievement data guides the development of school goals and strategies to further increase achievement outcomes for all students, while also informing the identification, selection, and implementation of categorically funded services to enable underperforming students to meet grade-level Common Core State Standards. At Ritche Elementary, categorical funding from Title I, III, and LCFF is utilized to support student intervention and enrichment programs aligned with meeting the needs of underperforming students. Specifically, categorical funding is used to provide intensive, small group intervention before, during, and after the instructional day to students identified as not meeting grade-level standards and/or learning goals. Funding also supports standards and evidence-based teacher collaboration focused on analyzing and monitoring student achievement data to inform classroom and school-wide instructional programs and practices.

Fiscal support (EPC)

The district receives Title I funding as we are considered a Title I district. All of our sites are considered "schoolwide." Title I funds are allocated to each school based on the number of qualifying students. Sites then determine how to use the funds based on specific student needs. The district also distributes Title III funding to sites in order for them to provide any necessary additional services or resources to support English Learners. The district receives Supplemental and Concentration LCFF funding. Sites are allocated a portion of these funds in order to provide additional resources toward student achievement.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Emilie Ritche Elementary School governance stakeholder groups were involved in the development of the School Plan for Student Achievement. School Site Council met on October 8th to analyze 2018-19 summative, 2019-20 formative and current 2020-21 formative student achievement data to align categorical funding to students' academic and social/emotional/behavioral needs. In addition, School Site Council acknowledged the input provided by school staff to support the development of the three SPSA goals and objectives focused on setting high academic standards in ELA and Math, providing social emotion support and fostering a positive and safe school climate, and increasing parent and family engagement. Similarly, the English Language Advisory Committee met on October 12 and provided recommendations to the School Site Council, particularly in the areas of parent and family engagement and building English Learners' language proficiency skills to ensure academic success. The school's Parent Teacher Association was also involved in supporting the development of the SPSA by aligning the PTA budget and activities to support the overall goals identified within the SPSA.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

Due to cuts to 2020-21 categorical funding, Ritche Elementary has had to eliminate one Technology Support Technician position and a Reading Specialist position which not only eliminate those two positions, but also the professional development these positions provided to school staff.

| Grade 4 | 91 | 91 | 96 |
| Grade 5 | 112 | 89 | 97 |
| Total Enrollment | 629 | 612 | 596 |

Conclusions based on this data:

From 2017 to 2019, there have been only two significant subgroups of students (30 or more students) at Ritche Elementary: Hispanic/Latino and White. The percent of total of enrollment for each of these two significant subgroups has remained consistent during this time. Based on analysis of student enrollment by grade level between 2017 and 2019, total enrollment has decreased by 33 students. It is important to note that this data reflects school enrollment from three (2017-18) and two (2018-19) years ago. Current Kinder through 5th grade enrollment for the 2020-21 school year is 564 not including Ritche Elementary's Preschool program. This reflects a further decrease of student enrollment since the 2017-18 school year. As a result, Ritche Elementary school staff will continue to monitor changes in student enrollment and the impact these changes have on the programs and support services provided at each grade-level.

School and Student Performance Data

| Reclassified Fluent English Proficient (RFEP) | 32 | 26 | 43 | 5.1 | 4.2 | 16.9 |

Conclusions based on this data:

Based on analysis of English Learner enrollment at Ritchen Elementary for the 2019-20 school year, 34.7% of Ritchen Elementary's total student population were English Learners. An additional 16.9% of Ritchen Elementary total student population during the 2019-20 school year was made up of students who had been redesignated as Reclassified Fluent English Proficient students. The sum of these two student group enrollment percentages was close to half of Ritchen Elementary's total student population in the 2019-20 school year. As a result, Ritchen Elementary will continue to provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills throughout the instructional day.

Conclusions based on this data:

Based on analysis of CAASPP summative data for English Language Arts/Literacy, all students in grades 3-5 at Ritchen Elementary have demonstrated improved student achievement outcomes between 2017 and 2019, with the total number of students who met or exceeded standard increasing from 22.58% in the 2016-17 school year to 29.96% in the 2018-19 school year. Although the percentage of students who nearly met standard also increased from 19.03% in the 2016-17 school year to 25.99% in the 2018-19 school year, the percentage of students who did not meet standard decreased from 58.39% in the 2016-17 school year to 44.04% in the 2018-19 school year. Analysis of data from the four CAASPP Claim areas shows that all students in grades 3-5 at Ritchen Elementary showed greatest gains in the Claims of reading and listening between 2017 and 2019, with increases by 3.4 percentage points and 2.05 percentage points respectively. Overall, percentages of all students in grades 3-5 scoring below standard in all four Claims decreased between 2017 and 2019, with the greatest decrease occurring in the Listening Claim in which the percentage of students scoring below standard fell by 13.36 percentage points. Based on the small percentages of grades 3-5 students meeting or exceeding standards, Ritchen Elementary classroom teachers will continue to implement evidence-based instructional practices in order to provide all students clearly articulated learning goals based on Common Core State Standards; depths of knowledge levels throughout instructional activities to increase rigor within and across grade-level standards; scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations; immediate feedback to students; reteaching of core subject matter based on formative assessment data; opportunities for student collaboration and peer modeling; and high expectations for student success on grade-level Common Core State Standards. Teachers will also provide underperforming students Tier I level intervention, including intensive, small group instruction before, during, and after school in order to increase students' skills in English Language Arts.

Conclusions based on this data:

Based on analysis of CAASPP summative data for Mathematics, all students in grades 3-5 at Ritche Elementary have demonstrated improved student achievement outcomes between 2017 and 2019, with the total number of students who met or exceeded standard increasing from 11.93% in the 2016-17 school year to 24.91% in the 2018-19 school year. Although the percentage of students who nearly met standard also increased from 24.52% in the 2016-17 school year to 32.85% in the 2018-19 school year, the percentage of students who did not meet standard decreased from 63.55% in the 2016-17 school year to 42.24% in the 2018-19 school year. Analysis of data from the three CAASPP Claim areas shows that all students in grades 3-5 at Ritche Elementary showed greatest gains in the Claims of Concepts and Communicating and Reasoning between 2017 and 2019, with increases by 5.23 percentage points and 4.55 percentage points respectively. Overall, percentages of all students in grades 3-5 scoring below standard in all three Claims decreased between 2017 and 2019, with the greatest decrease occurring in the Concepts and Procedures Claim in which the percentage of students scoring below standard fell by 21.87 percentage points. Based on the small percentages of grades 3-5 students meeting or exceeding standards, Ritche Elementary classroom teachers will focus on integrating Mathematical Mindset strategies throughout the instructional core Mathematics program to build students' critical thinking skills, while, at the same time, providing underperforming students intensive, small group intervention before, during, and after school. Classroom teachers will also implement effective, evidence-based instructional strategies in order to provide all students clearly articulated learning goals based on Common Core State Standards; depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards; scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations; immediate feedback to students; reteaching of core subject matter based on formative assessment data; opportunities for student collaboration and peer modeling; and high expectations for student success on grade-level Common Core State Standards in the area of Mathematics.

| Total Enrollment | Socioeconomically Disadvantaged | English Learners | Foster Youth |
| 612 | 65.2 | 40.7 | 0.5 |

This is the total number of students enrolled.

This is the percent of students who are eligible for free or reduced priced meals; or have parents/guardians who did not receive a high school diploma.

This is the percent of students who are learning to communicate effectively in English, typically requiring instruction in both the English Language and in their academic courses.

This is the percent of students whose well-being is the responsibility of a court.

| Hispanic | 536 | 87.6 |
| Two or More Races | 4 | 0.7 |
| White | 42 | 6.9 |

Conclusions based on this data:

Based on Dashboard Student Population data, there were a total of three significant subgroups at Ritchen Elementary during the 2018-19 school year: English Learners (40.7%), Socioeconomically Disadvantaged (65.2%), and Students with Disabilities (12.2%). In addition, there was one significant subgroup based on ethnicity during the 2018-19 school year: Hispanic (87.6%). Based on this data, Ritchen Elementary will focus on strengthening both Integrated and Designated English Language Development (ELD) for English Learners (ELs) throughout the instructional day, while, at the same time, analyzing formative and summative student achievement data for ELs, Socioeconomically Disadvantaged, and Students with Disabilities subgroups in order to progress monitor student achievement outcomes, identify underperforming students, and develop targeted, intensive intervention for students not meeting grade-level standards.

Conclusions based on this data:

Based on 2018 Dashboard Overall Performance data for all students, Ritche Elementary will continue to focus on improving student achievement outcomes in the areas of English Language Arts and Mathematics. Since Overall Performance for all students within the Dashboard indicators of Chronic Absenteeism and Suspension Rate fell within the green range, Ritche Elementary will continue to monitor and address daily student tardies and absences, implement effective preventative programs and incentives to increase students' positive attendance, and address students' behavioral, social, and emotional needs in order to administer progressive and meaningful measures of corrective action, while minimizing the need for student suspension. Both College/Career and Graduation Rate Dashboard indicators were both not applicable to Ritche Elementary School in 2018.

Conclusions based on this data:

Based on the small percentages of all grades 3-5 students meeting or exceeding standards, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Ritchen Elementary classroom teachers will continue to implement evidence-based instructional practices in order to provide all students clearly articulated learning goals based on Common Core State Standards. To increase student achievement for English Learners in the area of English Language Arts, teachers will provide both Integrated and Designated English Language Development (ELD) to improve English Learners' language proficiency skills. For Students with Disabilities, teachers will continue to scaffold standards-based instruction to connect students' prior knowledge and current ability levels to grade-level standard expectations. For Socioeconomically Disadvantaged students, teachers will continue to integrate depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards; provide immediate feedback; reteach core subject matter based on formative assessment data; provide opportunities for student collaboration and peer modeling; and promote high expectations for student success on grade-level Common Core State Standards.

Conclusions based on this data:

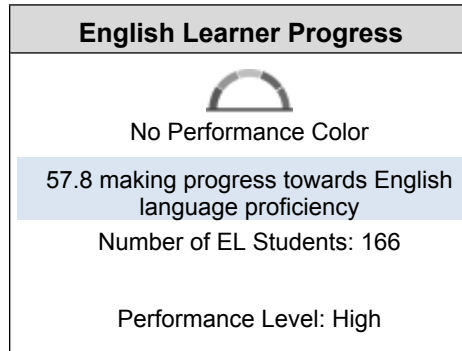

Based on the small percentages of all grades 3-5 students meeting or exceeding standards, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Ritchen Elementary classroom teachers will focus on integrating Mathematical Mindset strategies throughout the instructional core Mathematics program to build students' critical thinking skills, while, at the same time, providing underperforming students intensive, small group intervention before, during, and after school. To increase student achievement for English Learners, teachers will provide opportunities for student collaboration and peer modeling to build English Learners' oral and written language skills and academic vocabulary in the area of Mathematics. For Students with Disabilities, teachers will continue to scaffold standards-based instruction to connect students' prior knowledge and current ability levels to grade-level standard expectations. For Socioeconomically Disadvantaged students, teachers will continue to integrate depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards; provide immediate feedback; reteach core subject matter based on formative assessment data; and promote high expectations for student success on grade-level Common Core State Standards in the area of Mathematics.

| 13.8 | 28.3 | 3.6 | 54.2 |

Conclusions based on this data:

Based on 2019 Dashboard English Language Proficiency Assessments for California (ELPAC) data, Ritchen Elementary classroom teachers will continue to strengthen both Integrated and Designated English Language Development (ELD) in order to increase English Learners' language proficiency skills throughout the instructional day. Students in Kindergarten will continue to receive 30 minutes of daily Designated ELD instruction, while students in grades 1-5 will continue to receive 45 minutes of daily Designated ELD instruction. English Learners will be clustered at each grade level to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum materials. ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency. Oral and written language supports and scaffolds will also be integrated throughout all core subject areas by classroom teachers in order to enable English Learners to access grade level subject matter.

Conclusions based on this data:

Based on 2019 Dashboard Chronic Absenteeism data for all students, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Ritche Elementary will continue to build on its success to address students' and family's challenges to attend school daily. School staff, including the Outreach Coordinator, School Counselor, Attendance Tech, and Principal, will meet regularly to monitor student attendance, identify students at-risk of being identified as chronically absent, and develop and implement appropriate and meaningful supports, services, and incentives to increase students' positive attendance. School staff will provide support to families and will recommend and/or refer students or parents to Ventura County-based social services, counseling, or other community-based services or programs with the intention of offering families support to address barriers which negatively impact student attendance.

| | 1.1 | 0.9 |

Conclusions based on this data:

Based on 2019 Dashboard Suspension Rate data for all students, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Ritchien Elementary will continue its success in addressing students' behavioral needs through the implementation of a progressive discipline policy in order to minimize the need for student suspension. Classroom teachers will closely monitor and document student behavior throughout the instructional day and across a variety of contexts, including the classroom, playground, cafeteria, hallways, bathrooms, ingress, and egress. Classroom teachers will continue to maintain open lines of communication with parents to inform parents of behaviors that negatively impact the safe, positive learning environment within the school. The school will communicate to Spanish-speaking parents in their primary language to ensure parents have a good understanding of their child's behavior at school. Minor infractions will be documented using a student behavior monitoring log. Major infractions will result in an office discipline referral, which will be followed up by the school principal. Consequences for student misbehavior will align to the severity of the infraction and will take into consideration the context of the infraction, the historical background of the student, as well as the students' social/emotional/academic/intellectual needs. For most cases, restorative practices will be provided to address the social/emotional harm caused or created by the infraction. The discipline process will emphasize student accountability, self-reflection, and problem solving in order to redirect student behavior and build positive outcomes with peers.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Throughout the 2020-21 school year, Emilie Ritche will emphasize building rigor across all grade levels, while scaffolding instruction to strengthen students' skills on grade-level standards. Students are encouraged and supported to meet their Accelerated Reader trimester goals to build their literacy skills and reach their reading potential. Teachers will also concentrate on building students' writing ability across all core content areas to promote critical thinking and to better equip students with the skills required to meet expectations of state-wide summative assessments. Finally, teachers will continue focusing on implementing Mathematical Mindset strategies across all grade levels, enabling students to build their academic vocabulary and reasoning skills in the area of Mathematics.

Within a Professional Learning Community context, grade-level teams will collaborate frequently to analyze data from both formative (Star 360 Early Literacy/Reading/Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments to monitor student achievement and identify key learning targets within the Common Core State Standards to target and modify instruction. Ongoing monitoring of summative and formative assessment data will also enable grade-level teams to identify, through the Coordination of Services Team (CST) and Student Success Team (SST) process, students in need of intensive, evidence-based small group intervention provided by the classroom teacher and/or the Intervention Support Providers (ISPs) during Asynchronous/Universal Access time or during before or after school tutoring.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Ritchen Elementary will continue to focus on building strong academic foundations for all students while tightening and being more purposeful and systemic with evidence-based teacher collaboration and instructional strategies.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Analysis of the 2019-20 SPSA and school achievement outcomes resulted in the need for improved, systemic, purposeful, and evidence-based collaboration; an increased number of common formative assessment benchmarks to more closely progress monitor student achievement; an emphasis on academic writing across all core subject areas; and continued focus on integrating Mathematical Mindset strategies to promote students' critical thinking and problem solving skills in the area of Mathematics.

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Ritchen Elementary will continue to build on its success to address students' and family's challenges to attend school daily. School staff, including the Outreach Coordinator, School Counselor, Attendance Tech, and Principal, will meet regularly to monitor student attendance, identify students at-risk of being identified as chronically absent, and develop and implement appropriate and meaningful supports, services, and incentives to increase students' positive attendance. School staff will provide support to families and will recommend and/or refer students or parents to Ventura County-based social services, counseling, or other community-based services or programs with the intention of offering families support to address barriers which negatively impact student attendance.

In order to address our students' social, emotional, and behavioral needs, students are identified through the CST and SST process to receive individual and/or small group counseling services provided by our school counselor. Our progressive discipline matrix assists teachers and administration with clear guidelines for responding to student behavior at both the classroom and school levels. The Positive Behavior Intervention and Support model concentrating on STOIC (Structure, Teach expectations, Observe and monitor, Interact positively, and Correct fluently) guides all staff in providing a proactive and positive approach to managing student behavior both in and out of the classroom. Our PBIS/School Safety Team meets on an ongoing basis to analyze student discipline data, identify areas of focus, and provide recommendations to school staff in order to strengthen our school's positive learning environment. Weekly Eagle Assemblies and

monthly Awards Assemblies honor and recognize the hard work and positive choices students make by rewarding students with praise, recognition, and incentives.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Ritchen Elementary will continue to focus on building strong foundations in social and emotional learning supports, while ensuring a safe and positive school climate for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on the analysis of the 2019-20 SPSA, chronic absenteeism and suspension rate data, the Ritchen Elementary PBIS committee will analyze student discipline data more frequently to identify areas of focus and provide recommendations to school staff in order to strengthen our school's positive learning environment. The committee will also collaborate with school staff to develop learning activities that reinforce school-wide expectations for student behavior across all areas of the campus, including the playground, hallways, bathrooms, cafeteria, and front office.

Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

Goal Subject

Parent and Family Engagement

LEA/LCAP Goal

Families will be welcomed and afforded meaningful and productive opportunities to participate in their child's academic and social-emotional growth.

Goal 3

Families will be welcomed and afforded meaningful and productive opportunities to participate in their child's academic and social-emotional growth.

Identified Need

To increase communication through websites and social media so parents and community are informed about district and school instructional programs and activities.
To facilitate parent involvement in the educational and social-emotional well-being of their children.

Annual Measurable Outcomes

| Metric/Indicator | Baseline/Actual Outcome | Expected Outcome |
|---|---|---|
| Parent attendance at Back to School Night | 85% of parents attended Back to School Night in the 2019-20 school year. | Increase the percentage of parents attending Back to School Night in the 2020-21 school year to 87%. This goal was not met as our attendance was down to 65%. We believe this was due to the fact that B2N was held virtually. Most of our teachers also held parent information sessions prior to B2N. |
| PTA Membership | The total number of PTA Memberships during the 2019-20 school year was 95. | Increase the total number of PTA Memberships during the 2020-21 school year to 100. |
| Parent attendance at ELAC meetings | The average number of parents attending ELAC meetings during the 2019-20 school year was 5. | Increase the average number of parents attending ELAC meetings during the 2020-21 school year to 8. |

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Parent and family engagement is a critical factor to ensure students' educational success. Our English Learner Advisory Committee (ELAC), Parent Teacher Association (PTA), and School Site Council (SSC), in coordination with our Outreach Coordinator, offer and encourage parents to

become active participants in their children's education by participating in the meaningful and productive opportunities offered. The school's Parent Involvement Policy provides clear guidelines for parents to serve as volunteers in classroom and school activities. Our Back to School Night, Parent Nights focusing on Literacy, Math, and/or the Strand Focus, along with Trimester "Ritchen Coffee Talk" meetings, further support and foster parental engagement. Throughout the year, parents will be invited to attend Parent/Teacher Conferences to collaborate with their child and their child's teacher to review achievement data and identify strategies for improving student success. Parents will also be encouraged to attend Student Success Team meetings if their child has been identified as significantly below grade-level standards or is exhibiting significant needs in social, emotional, and/or behavioral areas. Parent training and education will be coordinated and provided by the school's Outreach Coordinator to improve parents' ability to support their children's learning. Fiscal resources provided by the Ritchen Elementary PTA will assist in supporting standards-based field trips (if safe to do so), providing supplemental instructional resources for classroom teachers, and supporting monthly Eagle Dollar Store, Awards Assemblies, and the annual Accelerated Reader Carnival (if safe to do so) to provide academic incentives and reward students for meeting their learning goals. During our current situation with distance learning, aside from the field trips and the carnival, all else is occurring virtually. Teachers are recognizing students that are demonstrating academic excellence and or choosing acts of kindness. These students are being honored with awards and incentives by the Principal and the Counselor. Designated times are being scheduled where families and their students are being asked to come to the school to pick up their awards and incentives.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Throughout the 2020-21 school year, Ritchen Elementary will continue to focus on building strong parent and family engagement to support student success for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on analysis of the 2019-2020 SPSA and school outcomes, one area in which Ritchen Elementary staff will focus on is providing parents more opportunities to engage in parenting support programs to promote positive student well-being outside of school. School staff will also continue to support parents in aligning structures and positive reinforcement strategies implemented during the school day to those offered within the home environment in order to connect academic, social and emotional learning between the school and the home.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

| Name of Members | Role |
|-------------------|----------------------------|
| Nauman Zaidi | Principal |
| Alejo Perez | Classroom Teacher |
| Manuel Hernandez | Classroom Teacher |
| Emily Hilpert | Classroom Teacher |
| Nayeli Reyes | Other School Staff |
| Vincent Ramos | Parent or Community Member |
| Marina Wyatt | Parent or Community Member |
| Verenice Mendoza | Parent or Community Member |
| Sylvia Nunez | Parent or Community Member |
| Jessica Arciniega | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school’s plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**asurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school’s identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school’s identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

Rose Avenue School

The School Of Science and Wellness

School Plan for Student Achievement (SPSA) Template

Instructions and requirements for completing the SPSA template may be found in the SPSA Template Instructions.

| School Name | County-District-School (CDS) Code | Schoolsite Council (SSC) Approval Date | Local Board Approval Date |
|---|-----------------------------------|--|---------------------------|
| Rose Avenue Elementary-The School of Science and Wellness | 56725386055370 | October 15, 2020 | 11/04/2020 |

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Vision: Rose Avenue Elementary-The School of Science and Wellness, is dedicated to promote social, emotional, and academic growth for all students.

Mission: To prepare students to become outstanding and productive citizens of society.

Values Statement: 'Our students', not 'my students'. Collaboration not isolation. Recognize and celebrate the good.

Rose Avenue School-The School of Science and Wellness will strive to meet the Every Student Succeeds Act (ESSA) by implementing the three Oxnard School District goals: Goal 1- All students will reach high academic standards in reading and mathematics. Goal 2- The social-emotional,

health and well-being needs of students will be met in a learning environment that is safe, drug free and conducive to learning. Goal 3 -Families will be welcomed and afforded meaningful and productive opportunities to participate in their child's academic and social-emotional growth

Under the current situation with the COVID-19 Pandemic, Rose Avenue School is currently focusing on the areas of teaching and learning via remote distance learning to successfully meet the needs of all students. The staff is dedicated in using our district's adopted Management Learning System to deliver synchronous and asynchronous instruction to all students via Zoom and fully implementing the Common Core State Standards (CCSS) with an emphasis on the use of technology through the implementation of 1:1 devices for all students in grades TK-5; including distance learning support for enrichment and intervention instruction with apps such as Lexia for ELA, ST Math, MyOn and Accelerated Reader (AR). We will use both hardcopy material and digital resources for McGraw Hill curricula: My Math, World of Wonders (TK) and Wonders (K-5) during distance learning. We are currently in transition to the Next Generation Science Standards (NGSS). Mystery Science and FOSS kits will be used, if possible, during distance learning and fully once students are able to return back on campus. In addition, we will implement intervention programs to support students' individual needs via distance learning and once they are back on campus. These will include PALS-Teacher Directed Instruction K-3, Reading Horizons, WonderWorks, SonDay Systems, Frames for Fluency, and SIPPs. The teaching staff at Rose Avenue is committed to the full implementation of the CCSS while doing distance learning and dedicated to higher levels of critical thinking and learning for all students under the current remote distance learning situation and once the students are back on campus. Our teaching staff is collaboratively working during distance learning via Zoom and will be teaming in the core areas to meet the individual needs of our student population and to determine additional instructional needs when they are back on campus and as possible during remote distance learning. Teachers will focus on data driven instruction, assess students monthly using Star 360 ELA and Math and Star Early Literacy formally to monitor student growth in the core areas and meet virtually during distance learning and when back on campus to analyze student data results after the monthly assessments to plan instruction and student interventions. Rose Avenue will also focus on Positive Behavior Intervention Supports through the use of CHAMPs and MTSS to meet the needs of the whole child including academics, behavior and social emotional needs during remote distance learning and once students are back on campus. Parents and community members will play an active role in the daily school activities with multiple opportunities to volunteer and participate in the school's educational program via virtual opportunities and physically once able to come to campus. Rose Avenue will maintain continual communication with all stakeholders through Canvas, Zoom, SSC, ELAC, Title One meetings, Coffee with the Principal, PTA meetings via virtual meeting during remote distance learning, monthly informational calendars available via, Parent Blackboard, ConnectED, Facebook, and Twitter.

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Through regular daily/weekly informal classroom observations an area for growth was determined to be the effective and consistent use of mathematical mindsets strategies. English Language Development was also identified as an additional area for growth, specifically in the area of student engagement. We will increase use of effective critical thinking teaching strategies, such as student use of problem solving skills, academic vocabulary, content engagement and collaboration, across all curricular areas, especially to support English Language Development. The use of these skills will be observable during distance learning spaces of synchronous and asynchronous instruction, as well as, when students are back in the physical classroom.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

We use summative and formative data in order to understand the academic needs of our students. We work collaboratively, using the PLC model to construct a collective understanding of our how our professional practice is impacting student learning. CAASPP and ELPAC scores are used to identify trends and areas of strength in student academic achievement. Based on this data, we construct a school-wide plan that aligns our resources and provides interventions and enrichment opportunities for all our students. As a staff, this data also informs how we utilize our budget to support professional development and to provide supplemental materials and programs to increase student achievement. STAR 360 Assessments and the CAASPP Interim Assessment Blocks (IABs) are used systematically as formative assessments. Formative data is used to plan ongoing instruction, monitor student progress, group students, and implement MTSS structures to support high levels of student learning. Additionally, formative data is used during our PLC collaboration time to ensure our PLC discussions consistently focus on academic student growth. Data is used to monitor student progress on curriculum-embedded assessments and to modify instruction. PLC grade level teams meet once a week to monitor student progress using a variety of assessments including the curriculum embedded assessments, such as Wonders and My Math. Teachers use the results of these assessments to inform their instruction, identify students in need of further review or intervention, and group students for differentiated instruction in ELD, Math or ELA instruction. During PLCs, teachers review the varied assessments available to determine the level of rigor presented within the assessment and the Depth of Knowledge students would need to convey their learning. This helps teachers ensure the assessments are aligned to the instruction. Additionally, we monitor all student reading and math progress throughout the year via monthly STAR 360 assessments. The Principal leads student monitoring conferences with individual teachers three times per year. During these meetings, the teacher has an opportunity to review academic data gathered and individual student concerns with the Principal. Together they identify key standards needed to be addressed during whole class instruction and small group intervention. Students who have been identified as needing additional support and are not making expected growth after receiving additional in-class interventions will be referred to the SST process. All measures will continue in both, during distance learning and once students and staff are back in the physical school setting.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Teachers meet for weekly PLCs where student progress is monitored via the curriculum embedded assessments. Student instructional groups for UA, ELD, ELA teaming, math teaming and Tier 1 and Tier 2 interventions are determined for the following intervention cycle. Data from the following assessments is used to determine need and intervention:

Math and Reading chapter tests

Weekly assessments and unit tests

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

The district ensures that that all site staff meets requirements to be considered “highly qualified.” This is monitored by the district’s Human Resources Department.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Incoming teachers are appropriately credentialed and provided with various forms of support. New Teacher Orientation is offered which includes District expectations and procedures, training on current curricular materials and programs and tips on classroom management. The district works with the Ventura County Office of Education to provide Induction for new teachers. Professional development is always offered when new materials are adopted. Follow up training is available to continue to support the use of the materials.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Professional development is provided at the site and district level to ensure that instruction is aligned to current Common Core State Standards. There is a district assessment calendar to ensure that student progress is sufficiently monitored throughout the year. Professional development and support is provided on the assessment system and the specific types of assessments. Structures are in place at school sites to allow teachers to analyze data in collaborative groups in order to identify student needs and adjust instruction accordingly.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

The Educational Services Department includes Directors who provide support for Curriculum, Instruction, Biliiteracy Programs, English Learner Services, Special Education and Pupil Services. An Instructional Specialist for Science and Math Manager work directly with teachers to support instruction in Science and Math.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

All teachers attend weekly collaboration and planning meetings after school every other Tuesday and every other Wednesday. All grade levels (TK- 5) collaborate and team for designated ELD. Grades 1st-5th team for ELA and Math. Several grade levels team for physical education as well as other enrichment opportunities. including Universal Access Time.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Collaboration work, using the PLC (Professional Learning Communities) model, supports use of instructional strategies aligned to current CA Common Core State Standards. State adopted and approved curricular materials support instruction.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Instructional minutes are monitored by the Business Services office. All school schedules adhere to the guidelines governing recommended instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

The district assessment calendar and adopted curricula provide guidance on lesson pacing. Student needs are determined by data analysis. Courses are scheduled based on these student needs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Instructional materials provided for all students are managed by our district Textbook Coordinator. Participation in Williams Inspections confirms that all students have access to required materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Adopted and standards-aligned materials are provided for use in all classrooms. Intervention materials must be research-based. Funds are allocated to sites to purchase any additional materials they determine are necessary to meet student needs.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

At Rose Avenue, we use the MTSS Model to help our underperforming students meet grade level standards. This MTSS Model includes three tiers of interventions; Tier I, Tier II, and Tier III. During regular student monitoring by teacher and grade level collaboration, students that are not achieving as expected are initially provided interventions within the classroom by the teacher as part of Tier I interventions. These interventions typically last 6-8 weeks and are specific to the student needs. Student progress is monitored and teachers adjust the interventions accordingly to ensure students reach the expected goals. When the interventions are not working, students are referred to the Coordinated Services Team (CST) for another 6-8 weeks of interventions, which can involve the Intervention Service Provider (ISP) or school counselor. Students that are not meeting expectations from Tier II interventions, are referred to the Student Success Team (SST), which involves the parents as partners in the education of their children. Students are referred to Tier III interventions and continue to be closely monitored. Those that are still not demonstrating adequate progress, may be referred to for a Special Education evaluation. This process can involve school specialists such as the Psychologist, Resource Teacher, Speech Therapist, Occupational Therapist, and/or Nurse.

Evidence-based educational practices to raise student achievement

Teachers will consistently use evidence-based educational practices as part of first good instruction to raise student achievement. These practices may include, but are not limited to; having a clear focus/purpose for the lesson, effectively communicating it to students, providing opportunities for student engagement with content, monitor and checking for understanding, and providing corrective feedback. Professional Learning Community practices, will be in place where grade levels will collaborate to analyze student assessment data results, monitor student progress and plan interventions for grade level teaming.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

At Rose Avenue, we believe in forming strong partnerships with parents and the community as they are essential to assist underachieving students. Therefore, our school provides many opportunities throughout the year to involve our parents. We invite parents to attend Family Events focused on Literacy, Science, Math and/or Curricular based Technology to raise understanding and awareness of the grade level expectations. We invite parents to attend Parent-Teacher conferences to review student achievement data. For students who have been identified as significantly below grade level or in need of an Individualized Education Plan, SST and IEP meetings are held to review progress toward meeting the expected goals. Additionally, the following parent engagement opportunities will be offered during the 2020-2021 school year. All Parent Engagement events this current school year may be modified and/or held only if allowed in accordance with safety guidelines during the current COVID-19 Pandemic.

- Grade Level Parent Family Nights/Workshops
- Back to School Night-via Zoom
- Monthly Title I Meetings/Café con El Director/Coffee with the Principal-via Zoom
- Health and Wellness Family Carnival, May 2021-If Permitted Due to COVID-19
- ELAC Monthly meetings starting September-via Zoom
- Outreach and Counselor led parent training on Navigating the School System, 2 times a year-Via Zoom
- Virtual/Physical Grade Level Field trips- parent opportunities to volunteer
- Trimester Awards Assemblies-Via Zoom
- School Site Council Monthly Meetings-Via Zoom
- Loving Solutions Parent Training-Via Zoom
- PTA-Via Zoom
- Attendance Matters Parent Training-Via Zoom
- Family Art Night
- Classroom Volunteers

These meetings allow parents to voice any concerns, receive information and to have input into critical decisions. The meetings also allow an opportunity to explain testing, scores, safety and other school related programs and activities. Our Outreach Specialist and Counselor offer support by connecting families with necessary services to address social-emotional needs.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

We feel fortunate to have strong parent involvement at Rose Avenue and we will continue to foster this partnership through 2020-2021 school year. Involvement of parents, community representatives, classroom teachers, and other personnel is vital in assisting in planning, implementing and evaluating programs at Rose Avenue. Parent governance teams such as the School Site Council, English Learner Advisory Committee and Parent Teacher Association are elected by other parents on an annual basis. Parent governance teams, teachers and other personnel provide input for the development of goals and fiscal decisions necessary to meet those goals within the School Plan for Student Achievement (SPSA). Throughout the year, the various parent governance teams and staff members monitor the implementation and progress toward meeting the SPSA goals and revise the plan as necessary.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Categorical funds were used to support small group interventions and programs for differentiation instruction to meet the needs of under performing students. Additionally, funds were used to provide equity for all students through enrichment opportunities, such as standards based field trips and technology programs that enhance the learning of under performing students. The funds were also used to support the continued development of our PBIS approach, which supports all students in their behavioral and academic progress. The following services will be funded to enable under performing students to meet the standards: Intervention-tutoring before and after school, Staff Teaming and Collaboration-weekly staff grade level collaboration, Enrichment-field trips for students related to focus strand and standards, Substitutes-grade Level collaborations and SST/IEP meetings, Librarian- support the AR and Reading Enrichment Incentive Program, Training-professional development and conferences, Positive Behaviors and Interventions- Wellness CHAMPS Classroom Activities and Incentives.

Fiscal support (EPC)

The district receives Title I funding as we are considered a Title I district. All of our sites are considered "schoolwide." Title I funds are allocated to each school based on the number of qualifying students. Sites then determine how to use the funds based on specific student needs. The district also distributes Title III funding to sites in order for them to provide any necessary additional services or resources to support English Learners. The district receives Supplemental and Concentration LCFF funding. Sites are allocated a portion of these funds in order to provide additional resources toward student achievement.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Once student achievement data is made available, the Site Leadership Team meets to analyze the data to determine students' academic and social emotional/behavioral needs. Data is shared with and input is elicited from ELAC, PTA and school staff. The School Site Council then analyzes the data, takes recommendations from the other stakeholder groups and aligns the agreed upon actions with the budget.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

The inequities identified as a result of the required needs assessments were: before and after school tutoring, but due to the current Pandemic, it was limited; a TK-Kindergarten Teacher was on leave for most of the school year; the School Counselor was on leave for most of the school year; the Outreach Specialist was on leave for most of the school year; a paraprofessional position was open all year; a substitute shortage impacted Teaming and Collaboration; the COVID-19 Pandemic impacted instruction; TK-1 students did not have access to one to one devices during the distance learning (spring); and over 120 students did not have internet access initially during Distance Learning to be able to access face to face instruction.

Student Enrollment Enrollment By Grade Level

| Student Enrollment by Grade Level | | | |
|-----------------------------------|--------------------|-------|-------|
| Grade | Number of Students | | |
| | 17-18 | 18-19 | 19-20 |
| Kindergarten | 131 | | 98 |
| Grade 1 | 101 | | 72 |

| Grade 4 | 126 | | 101 |
| Grade 5 | 96 | | 106 |
| Total Enrollment | 700 | | 566 |

Conclusions based on this data:

Student enrollment decreased due to program choices offered at school sites. Rose Avenue transitioned from a TBE/SEI instructional program to an SEI only program. Political climate and the high cost of living in our county/community also affected our current enrollment. Enrollment decrease is consistent with other local school and/or districts.

School and Student Performance Data

Student Enrollment English Learner (EL) Enrollment

| English Learner (EL) Enrollment | | | | | | |
|---|--------------------|-------|-------|---------------------|-------|-------|
| Student Group | Number of Students | | | Percent of Students | | |
| | 17-18 | 18-19 | 19-20 | 17-18 | 18-19 | 19-20 |
| English Learners | | 384 | 386 | | | 68.2% |
| Fluent English Proficient (FEP) | | 9 | 73 | | | 12.9% |
| Reclassified Fluent English Proficient (RFEP) | | 62 | 82 | | | 17.3% |

Conclusions based on this data:

Rose Avenue School had a high increase in students reaching reclassification criteria from the previous year and students who have been RFEP are continuously monitored by classroom teachers to maintain the current English language proficiency and provide necessary supports. Students in Kindergarten will continue to receive 30 minutes of daily Designated ELD instruction, while students in grades 1-5 will continue to receive 45 minutes of daily Designated ELD instruction. English Learners are clustered at each grade level by needs and proficiency to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum materials. ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language proficiency levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency needs.

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 19-20 School year. Nevertheless, Rose Avenue data from the previous administration of the SBAC shows that the overall participation of students was fully accomplished. Data shows consistent growth of two to three percent points in third and fifth grade from year to year. Fourth grade maintains progress and growth consistently. While also decreasing the number of students near the standard and below the standard to their next level. Data indicates there a consistent growth of students moving to the next band of proficiency. Data indicates continuous progress and growth of students meeting the standards and exceeding the standard. In the writing domain, the 2018-19 academic year the percentage rate increased in the Near Standard or Below Standard Area which has been identified as an area of focus across all grade levels. In order to address the areas of greatest concerns, students not making any growth in writing will supported and monitored closely. The teaching staff is committed to focusing collaboration time and addressing best instructional practices to increase student engagement and writing.

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 19-20 School year. Nevertheless, data shows overall consistent growth in grade since 2017. There was consistent percentage growth in At or Near Standard in all grade levels since 2017 and also in Problem Solving & Modeling/Data Analysis. Data also shows a decreased in both Below Standard and Near Standard. The teachers continue to collaborate during grade level collaboration time in the areas of need. In addition, staff is working with the district Math Instructional Specialist and using resources to implement best instructional practices in Math. In the area of mathematics, growth mindset concepts continue to be implemented in the daily routines. The teachers continue to receive math training on Math Mindset that leads to discussions within their grade levels during staff meetings and grade level collaboration PLCs. Collaboration time include reviewing student data as well as analyzing student work samples and planned intervention based on the data results. After reviewing student data on a six to eight week cycle, teachers decide how to modify small group interventions and teaming groups that are taking place daily, Interventions will be supported by small group instruction universal access time during teaming. All this will take place as permitted by the current distance learning situation and COVID-19 Pandemic.

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the ELPAC was not administered for the 19-20 School year. In addition, due to the previous administration of the ELPAC summative assessment data was not available as the ELPAC was not administered for the 2019-2020 school year. Nevertheless, the data shown maintains that all students are making growth across the four domains in all assessed grade levels. The focus continues to be using data to prove and identify students' needs, while making sure that all students make at least one year's growth across the domains in the ELPAC.

| White | 11 | 1.8 |

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 19-20 School year, nevertheless, Based on the data available, we can conclude that Rose Avenue School has a large percentage of students who are socioeconomically disadvantaged. Thus, we continue to ensure our families continue to have access to a variety of wrap-around services and provide supports to all of our subgroups during the current pandemic, it is our focus and objective to all student subgroups with the needed support to meet their needs. We can also continue to support our English Learners being the largest sub group, we will continue providing designated and integrated ELD to ensure English language acquisition and increase our reclassification rate. The majority of our students continue to be both socioeconomic disadvantaged and English Language Learners. Our actions will be strategically planned and implemented to meet their academic needs during the current distance learning situation and once the students comeback on campus. We also continue have a high increase in our population of students with disabilities. We are closely monitored their IEP goals to ensure they continue to make progress and their needs are met during the current COVID-19 Pandemic.

2019 Fall Dashboard Overall Performance for All Students

| Academic Performance | Academic Engagement | Conditions & Climate |
|---|---|---|
| English Language Arts  Yellow | Chronic Absenteeism  Orange | Suspension Rate  Orange |
| Mathematics  Orange | | |

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 19-20 School year. However, based on the CA Dashboard data for the previous school year, Rose Avenue School had increases on both English Language Arts and Mathematics from 2018 to 2019. This school year, while in distance learning, we will continue to focus on improving student achievement in English Language Arts and Mathematics. As both the suspension and absenteeism rates have continued to decrease from 2018 to 2019 and for the 2019-2020 school year. We will continue to monitor student daily attendance during distance learning and once the student come back on campus. We continue with our focused implementation of our Positive Behavior Interventions and Supports (PBIS/CHAMPS) approaches to promote positive interactions and behaviors, provide incentives for both attendance, student engagement and participation and behavior during distance learning as well as provide progressive discipline and corrective measures to reduce the behavior needs during the current situation. The data indicates that in comparison to the state, Rose Avenue School students overall performance is surpassing the state average for suspension rate and chronic absenteeism. Our performance and growth is consistent with that of the state in Mathematics and slightly below in English Language Arts for the previous SBAC administration. Our goal and actions for the 2020-2021 will be focus in ELA and Math and student intensive intervention support in this areas to gain academic growth in these areas. We will work to increasing our growth for 2020-2021 Dashboard: Suspension- maintain blue, ELA- increase to orange, Math- grow to yellow, Absenteeism- increase to blue.

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 2019-2020 School year. Nevertheless, the data from the previous Fall Dashboard English Language Arts Performance for All Students/Student Group indicated that all subgroups had maintained English Language Arts performance with the exception of students with disability. Nevertheless, students with disability had increased in ELA performance levels. Based on the analysis, we project moving from red to orange on the California Dashboard for ELA in the 2020-2021 school year. We continue with the implementation of instruction first, identify effective strategies during the current pandemic and distance learning. Teaming and collaboration continue as permitted by the current distance learning situation. We are focused on providing interventions and enrichment during distance learning to continue the growth in academic achievement in English Language Arts.

Academic Performance Mathematics

The performance levels are color-coded and range from lowest-to-highest performance in the following order:

This section provides number of student groups in each color.

This section provides a view of Student Assessment Results and other aspects of this school's performance, specifically how well students are meeting grade-level standards on the Mathematics assessment. This measure is based on student performance on the Smarter Balanced Summative Assessment, which is taken annually by students in grades 3–8 and grade 11.

Conclusions based on this data:

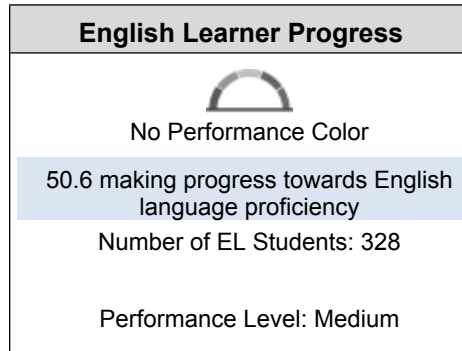

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 2019-2020 School year. However, based on the data, available all subgroups, including English Learner and Socioeconomically Disadvantaged, have maintained Mathematics performance with the exception of students with disability. Students with disability have declined in Math performance. Based on the data analysis we will use mindset mathematical practices and have identified the key areas of need to continue the growth in Mathematics while instruction occurs during distance learning to the best of our ability. Our goal is to move to the next level on the California Dashboard moving from orange to yellow for Math. During the current pandemic and distance learning, we continue with our planned strategies for math, teaming and collaboration as permitted the face to face instruction during distance learning and will continue once we come back on campus for the 2020-2021 school year. Additionally, we continue to focus in our subgroups and we will add activities that build on our collective effective teaching strategies and strengths to promote higher levels of academic achievement during the current distance learning situation.

2019 Fall Dashboard English Learner Progress Indicator

This section provides a view of the percentage of current EL students who progressed at least one ELPI level, maintained ELPI level 4, maintained lower ELPI levels (i.e, levels 1, 2L, 2H, 3L, or 3H), or decreased at least one ELPI Level.

|--------------------------|--|-------------------------|------------------------------------|
| 20.7 | 28.6 | 2.1 | 48.4 |

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the ELPAC was not administered for the 2019-2020 School year. Nevertheless, the data available shows that over 50% of students are scoring in the Well Developed and Moderately Developed levels, reducing the level of students in the Somewhat Developed and Beginning levels. Therefore, even during distance learning our students in Kindergarten through fifth grade will continue to receive daily Designated ELD instruction. During distance and as permitted by face to face instruction, English Learners are grouped at each grade level to enable the ELD teacher to provide targeted, standards-based language proficiency instruction using district-adopted curriculum materials. The ELD teacher integrates appropriate scaffolding techniques/strategies to bridge students' current oral and written language levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency needs. Oral and written language supports and scaffolds are also being integrated throughout all core subject areas during distance learning by classroom teachers in order to enable English Learners to access grade level subject matter digitally and physically during the current distance learning situation.

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 2019-2020 School year. However, the data available show that all subgroups have declined in Chronic Absenteeism with the exception of Students with Disability. Chronic Absenteeism for Students with Disability have slightly increased. We continue to address absenteeism and students engagement across all sub-groups during the current distance learning situation with the universal implementation of Positive Behavior Intervention Supports (PBIS) and CHAMPS incentives program as permitted during distance learning. Our school staff strives to provide students a safe place conducive to learning where they can reflect on their learning and positive behavior during distance learning. The Rose Avenue Staff is working with our parents and students during distance learning. The School Counselor, Outreach Specialist, School Administrator are working together to address students' social-emotional needs so that students learn appropriate methods of dealing with sadness, anger or frustration during the current distance learning situation. The school counselor and outreach consultant have established a wellness and kindness club for students to further address the socio-emotional needs of students and to reduce chronic absenteeism and student engagement during distance learning by making connections and providing an incentives program for the students to better their school attendance and engagement during current distance learning instruction.

2019 Fall Dashboard Suspension Rate by Year

| 2017 | 2018 | 2019 |
|------|------|------|
| | 1 | 1.7 |

Conclusions based on this data:

Due to the current COVID-19 Pandemic, the SBAC was not administered for the 2019-2020 School year. However, based on the data available we conclude that while we had a decrease in the suspension rate from 2018 (1.%) to 2019 (0.56%), this is a significant decrease. Additionally, Rose Avenue School's suspension rate is well below the district average of 3.37% . This trend is continuing, since this is 2017-2018 data. the 2018 Fall Dashboard Suspension Rate for All Students/Student Group indicates that all subgroups have drastically declined in suspension rates due to the ongoing implementation of Positive Behaviors Interventions and Supports and CHAMPS school-wide. We continue to focus on PBIS/CHAMPS to maintain and decrease the suspension rate for the 2020-2021 school year during the current distance learning situation and once we come back on the school campus.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Throughout the 2020-2021 school year, we will focus on and emphasize building rigor across all the grade levels; while providing necessary scaffolds during instruction to strengthen students skills on grade level standards. Students will be encouraged to meet their Accelerated Reader, STAR 360, ELA and MATH trimester goals to build their literacy skills, and reach their reading potential. Teachers will also focus on building student writing skills and abilities across all content areas to promote critical thinking and to better equip the students with the skills that are required to meet grade level expectations and as measured by state summative assessments. In mathematics, teachers will continue to focus on implementing mathematical mindset strategies across all grade levels to enable students to be successful in building their academic vocabulary, as well as reasoning skills to succeed in the area of mathematics. We will continue to implement weekly Professional Learning Communities, where all grade level teams will meet to collaborate, analyze data from formative STAR 360, Reading, Early Literacy and Math, CAASPP Interim Assessment Blocks, ELD Assessments, writing prompts, as well as curriculum embedded assessments to monitor student achievement and identify learning needs, target and modify instruction. These analyses of data will enable teachers to identify students who need specific targeted interventions or referral to the Coordinated Students Team and/or Student Success Team to identify further supports and resources such small group specific targeted intervention, before and after school focused tutoring and/or enrichment opportunities. This actions will take place as permitted by current COVID-19 Pandemic and may be virtual.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

No major differences were identified. Funding was allocated for the intended implementation of the strategies and activities with limited resources. The funding was allocated to purchase apps the support our academic goals; however, some of the apps were underutilized. As a result data in the effectiveness of these apps was inconclusive due to the current pandemic Wi-Fi access during distance learning. For the 2020-2021 school year, we will continue building strong systematic approaches through our professional learning communities as permitted by current pandemic.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on the analysis of the 2019-2020 SPSA, academic achievement results show the need to continue to build on purposeful structures and collaboration through professional learning

communities. We will prioritize preferred apps during distance learning by grade level and compare them to school-wide needs and outcomes. In addition, we will analyze the data connected to academic progress provided by the ISP that took place during the current distance learning situation. This will provide guidance in the decision to eliminate or maintain the position for the upcoming school year. We will also provide opportunities for English Learners academic development, which include after-school tutoring and enrichment in the writing domain. We will continue to focus on integrating Mathematical Mindset strategies in math to enable students to build their critical thinking skills during distance learning and continue once students come back on campus.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Rose Avenue School received the platinum level recognition from the California Coalition of PBIS for our efforts in providing Positive Behavior Interventions and Supports to our students. This indicates that the implementation of targeted activities were successful in creating a positive school climate. The 2019-2020 California Healthy Kids Survey for Rose Avenue supports this conclusion as it indicated a 42 % increase in students reporting of meaningful participation at school. Based on an analysis of our attendance data for 2019-2020 school year, school-wide, most grade levels did not meet the goal to increase the overall attendance rate and there was no significant change.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Funding had been allocated for the intended implementation of strategies, activities and resources. The funding budgeted for attendance activities was sufficient to cover the planned activities and student incentives; All the activities took place consistently, and funding allocated was not enough for all the incentives that were required. Our attendance rate was not impacted, due to the fact that the attendance activities were focused on student behavior and not on parent awareness. This coming school year we will focus on reaching more parents by providing informational meetings on the importance of attendance. thereby increasing parent awareness..

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities will be revised and added to increase attendance awareness for parents and students. Attendance incentives will be purchased throughout the year for individual students and classes that meet attendance goals. We will use student attendance certificates to recognize students have consistent attendance. We have established a positive intervention attendance club to check-

in with students with chronic absenteeism and find resources and supports to better their attendance and to ensure our goal to increase our daily attendance. We will also implementing monitoring protocols on a monthly basis.

Goals, Strategies, & Proposed Expenditures

Parent and Family Engagement

LEA/LCAP Goal

Families will be welcomed and afforded meaningful and productive opportunities to participate in their child's academic and social-emotional growth.

Goal 3

Families will be welcomed and afforded meaningful and productive opportunities to participate in their child's academic and social-emotional growth.

Identified Need

To increase communication through websites and social media so parents and community are informed about district and school instructional programs and activities.
To facilitate parent involvement in the educational and social-emotional well-being of their children.

Annual Measurable Outcomes

| Metric/Indicator | Baseline/Actual Outcome | Expected Outcome |
|---|---|--|
| Parent Attendance and Participation at school meetings based on sign-in sheets. | Parent attendance to parenting classes and activities was between 30 to 77 parents per event up until March of 2020. | Increase attendance during distance learning at parent education and activities that focus on helping parents connect to school and how to help students succeed in school by 10%. |
| ELAC Parent Participation | Parent attendance at ELAC meetings according to attendance rosters is between 30 to 50 parents per meeting until March of 2020. | Increase attendance during distance learning at ELAC meetings by 10%. |
| Rose Avenue Distance Learning Survey-Percentage of parents that feel satisfied with communication and respected when visiting our school during the School Closure. | According to the 2019-2020 Rose Avenue Distance Learning Parent Survey; of 220 parents that participated, 62% of parents felt welcome and very satisfied, 33% felt satisfied, 6% somewhat satisfied with the school | Increase the number of participants by 20% and reduce the percentage of parents who felt somewhat satisfied by 3% Use other methods of providing the survey so that more parent participate and provide responses. |

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Sign-in sheets indicated that parent attendance reflect high levels of interest in parent educational topics and participation at school held meetings. However, parent attendance at grade level and school-wide showcases of learning events was not high in some grade levels. We observed that parents are more interested in seeing the production of student learning than in educational opportunities that build parental efficacy. Parent involvement is a high priority for our school. In order to increase parent involvement in our parental programs we will need to understand more deeply what our parents are interested in learning by conducting a needs assessment survey and make a clearer connection between their involvement and student achievement at Rose Avenue. All actions have been scheduled in the master calendar and communicated to all parent via various communication modes, Peachjar, Twitter, Facebook, school website, flyers sent home, and school marquee to reach all the parents and increase participation.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Funding was allocated for the intended implementation of strategies and activities. Funding was also allocated for teachers and parents to attend the local and state CAFE conference. There was a high interest of parents wanting attend the local and State conferences from both ELAC and SSC, Nevertheless, due to the current COVID-19 Pandemic, some of our parents did not feel comfortable attending the conferences via online platforms. Parent attendance for conferences will continue to be encouraged and support will be offered to assist with technology.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Parent involvement is a high priority at our school. In order to increase parent involvement and participation at parental programs and events, we will need to understand more deeply what our parents are interested in learning by conducting a needs assessment survey and make a clearer connection between parent involvement and student achievement at Rose Avenue. In addition we will be more consistent with the use of technology tools available to communicate and inform our parents. The school principal will continue to reach out to parents and be visible and accessible to parents. Out Reach Consultant will make connections and provide more outreach opportunities for parents.

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

| Name of Members | Role |
|----------------------|----------------------------|
| Pablo Ordaz | Principal |
| Leticia Vidal | Classroom Teacher |
| Maribel De Loa Cahue | Classroom Teacher |
| Melissa Haupt | Classroom Teacher |
| Raquel Rodriguez | Other School Staff |
| Adelina Arzola | Parent or Community Member |
| Maribel Torres | Parent or Community Member |
| Ruth Martinez | Parent or Community Member |
| Azucena Gonzalez | Parent or Community Member |
| Jo Ann Olivares | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

| Signature | Committee or Advisory Group Name |
|---|------------------------------------|
|  | School Site Council |
|  | English Learner Advisory Committee |

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10/15/2020.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

For programmatic or policy questions regarding Title I schoolwide planning, please contact the local educational agency, or the CDE's Title I Policy and Program Guidance Office at TITLEI@cde.ca.gov.

For questions or technical assistance related to meeting federal school improvement planning requirements (for CSI, TSI, and ATSI), please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school’s identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school’s identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

At Sierra Linda, we are committed to developing a rigorous and supportive instructional program that prepares each child for college and/or career pathways. We will focus in the area of teaching and learning to successfully meet the needs of all students. The staff has been transitioning and dedicating themselves to the full implementation of Common Core State Standards (CCSS) with an

emphasis on technology through the implementation of 1:1 devices for all students in grades TK-5; including supporting instructional apps such as STAR360 in ELA and Math, Lexia/Core5, myOn, ST Math, and Accelerated Reader.

The staff at Sierra Linda is working to ensure that our instructional program meets the academic needs of each student. Teachers meet in grade level teams regularly in order to plan together. They analyze data and plan rigorous standards-based lessons that support students' academic progress. The staff participates in district and site professional development to improve and implement instructional practices. The teaching staff at Sierra Linda is committed to the process of implementing CCSS and dedicated to higher level thinking and learning for all students. Our staff will continue to implement our strand focus of Health and Art as part of our integrated curriculum. We will support the strand focus by providing funding and enrichment activities for all students.

In all classes, integrated ELD instruction is embedded throughout all subjects and explicitly taught during designated ELD instructional time. The EL students' progress are closely monitored during grade level meetings, student monitoring conferences and through the Multi-Tiered System of Supports (MTSS) process. We use additional programs and tools in order to provide all our students with various learning opportunities. Accelerated Reader helps students hone their comprehension skills and encourage a love of reading. ST Math and Lexia/Core5 programs provide additional opportunities for students to revisit critical reading and math skills. Teachers use various technical applications that support development of foundational reading and math skills. Every student has received an iPad for use at home and at school. Teachers continue to receive training on the use of iPads and share ideas with each other on how to develop students knowledge of programs and applications. Students receive digital citizenship instruction. Parents are informed of the benefits of technology as it relates to the education of their students.

We have instituted an instructional and behavior intervention program, using the MTSS model, which revolves around ensuring that students are successful. Students receive differentiated instruction in reading in all grade levels during the week. Through district funding, the district has hired Intervention Service Provider teachers (ISP) in order to support this program. The student groups are small and the instruction is targeted to specific reading needs based on STAR Reading results. Our Special Education teachers are also involved and special education students are mainstreamed with the general education population through this model. Intervention materials are used, as well as supplemental materials for students who need to be more academically challenged. Classroom teachers use STAR 360 data to focus on Reading and Math skills during regular classroom instruction.

Our MTSS model includes processes to identify and assist students who are not making necessary academic gains and/or are having social-emotional issues in order to provide students with a safe learning environment and to instill necessary life skills so they can continue to be productive citizens beyond their attendance at Sierra Linda. We have regular CST (Coordinated Services Team) and SST (Student Success Team) meetings which include the principal, the school psychologist, special education staff, counselor, classroom teachers, the Outreach Consultant (ORC) and parents. Our positive behavior program is CHAMPS. All staff has been trained in and implement this program which focuses on teaching students specific skills such as, self-control, responsibility, self confidence and cooperation in order for them to be able to make safe and rational decisions concerning their conduct. A full time counselor is part of our staff. The counselor works with individual students and small groups in order to provide additional social-emotional support they may need in order to be successful.

Parents are partners in their children's educations. We involve and inform them in a variety of ways. There are several parent meetings, such as School Site Council, English Learner Advisory Council, Title 1 Meetings and "Coffee with the Principal," during which parents have an opportunity to provide input for shared decision-making. Parents receive a weekly phone blast informing them of all school events and activities. Teachers regularly inform parents of student progress through phone calls, conferences, progress reports, text messages, Peach Jar and behavior charts (if necessary). Our ORC and Counselor offer support by connecting families with necessary community services to address social-emotional needs. Parents participate in positive parenting programs like "Triple P" through a virtual platform in the Spring. We hold transitional meetings and workshops in order to assist parents whose children may be transitioning into Kindergarten or to the middle schools. Parent workshops will be presented on a variety of topics, including: parenting skills, technology, curricular materials and assessment.

At Sierra Linda, we provide a safe and nurturing learning environment where each child and adult is valued and respected in an atmosphere that promotes the attainment of one's academic, social, and emotional potential. It is a place where we work together to develop exemplary character traits and scholarly attributes that all students will need for success in life. We strive to promote a school environment wherein our core values of equity, integrity, purpose, perseverance and compassion are evident in every interaction with students, community and each other. Thus, effectively meeting Every Student Succeeds Act (ESSA) requirements.

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Informal and formal classroom observations were conducted by peers and administration. Students were observed using academic language to explain how or why they got their answers. Increase of engagement strategies was beneficial for all students. Thus, discussions were focused on effectiveness and consistency of common best practices. These strategies were used both in ELA and Math lessons.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Staff will collaborate, analyze and interpret data to modify instruction and improve all student achievement. The following assessment tools will be used:
STAR 360--Early Literacy, Reading and Math assessments
ELPAC
ELD Unit Assessments
IABs
BPSTs (basic literacy assessment)
Math and ELA curriculum assessments
Teacher created assessments
Previous year's CAASPP results

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Teachers monitor student academic progress during grade level collaborations on a weekly basis during Professional Learning Community (PLC)/ Collaboration time. Assessment results are used to modify instruction and create focus goals for ELA and Math. Student instructional groups for Universal Access (UA), ELD, and ELA teaming, Tier 1 and Tier 2 interventions are determined for reflection on current instructional strategies and data. Data from STAR360, IAB's, and curriculum assessments guide the discussion and need for intervention.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

The district ensures that that all site staff meets requirements to be considered “highly qualified.” This is monitored by the district’s Human Resources Department.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Incoming teachers are appropriately credentialed and provided with various forms of support. New Teacher Orientation is offered which includes District expectations and procedures, training on current curricular materials and programs and tips on classroom management. The district works with the Ventura County Office of Education to provide Induction for new teachers. Professional development is always offered when new materials are adopted. Follow up training is available to continue to support the use of the materials.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Professional development is provided at the site and district level to ensure that instruction is aligned to current Common Core State Standards. There is a district assessment calendar to ensure that student progress is sufficiently monitored throughout the year. Professional development and support is provided on the assessment system and the specific types of assessments. Structures are in place at school sites to allow teachers to analyze data in collaborative groups in order to identify student needs and adjust instruction accordingly.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

The Educational Services Department includes Directors who provide support for Curriculum, Instruction, Biliteracy Programs, English Learner Services, Special Education and Pupil Services. An Instructional Specialist for science and a Math Manager work directly with teachers to support instruction in Science and Math.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Grade level collaboration is provided on a weekly basis during our PLC/Collaboration time. In addition, staff agreed to collaboration at least twice more a month as needed to address student needs. Instructional leadership committee (grade level leads) discuss and agree upon topics for collaboration.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Collaboration work, using the PLC (Professional Learning Communities) model, supports use of instructional strategies aligned to current CA Common Core State Standards. State adopted and approved curricular materials support instruction.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Instructional minutes are monitored by the Business Services office. All school schedules adhere to the guidelines governing recommended instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

The district assessment calendar and adopted curricula provide guidance on lesson pacing. Student needs are determined by data analysis. Courses are scheduled based on these student needs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Instructional materials provided for all students are managed by our district Textbook Coordinator. Participation in Williams Inspections confirms that all students have access to required materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Adopted and standards-aligned materials are provided for use in all classrooms. Intervention materials must be research-based. Funds are allocated to sites to purchase any additional materials they determine are necessary to meet student needs.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

We use a Multi-Tier System of Supports to help our under-performing students meet grade level standards. This is an instructional model that includes universal screening, multiple tiers of supports, data collection and reviews to inform interventions in each tier. During regular student monitoring by teacher and grade level collaboration, students who are not achieving as expected are initially provided interventions within the classroom by the teacher as part of Tier I interventions. These interventions typically last 4-8 weeks and are specific to the student needs. Student progress is monitored and teachers adjust the interventions accordingly to ensure students reach the expected goals. If the student is showing little to no growth, then they are referred to the Coordinated Service Team (CST) for further interventions with our school counselor. Students that are not meeting expectations from Tier II interventions, are referred to the Student Success Team (SST). Parents are a crucial part to student success, thus they are informed of a teacher's concern as soon as Tier 1 interventions are started. Parents are invited to SST meetings in order to create a successful plan for interventions. Those that are still not demonstrating adequate progress, may be referred to for a Special Education evaluation. This process can involve school specialists such as the Psychologist, Resource Teacher, Speech Therapist, Occupational Therapist and/or district nurse.

Evidence-based educational practices to raise student achievement

Teachers will consistently use evidence-based educational practices as part of good first instruction to raise student achievement. These practices may include, but are not limited to; having a clear focus/purpose for the lesson; effectively communicating our lesson target goals in ELA and Math to all students; providing opportunities for student engagement with content; monitor and checking for understanding; and providing corrective feedback.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Parents are encouraged to participate and support Sierra Linda students by becoming involved through a variety of educational and advisory opportunities throughout the year. These include but are not limited to:

- *Class and virtual/ in-person (if available) field trip volunteers
- *PTA events, such as Jog-a-Thon (when we safely return to school), meetings, and virtual fundraisers
- *School Site Council
- *ELAC monthly meetings
- *Parent Nutrition Classes
- *Triple P parenting classes (Virtually in the Spring 2021)
- *Coffee with the Principal/Title 1 meetings
- *Awards Assemblies
- *Read-a-Across America (as readers)
- *Parent Training provided by English Learner Department

These meetings allow parents to voice any concerns, receive information and to have input into critical decisions. The meetings also allow an opportunity to explain testing, scores, safety and other school related programs and activities. Our ORC and Counselor offer support by connecting families with necessary services to address social-emotional needs.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Sierra Linda will continue to prioritize parent involvement during the 2020-21 school year. Parents, community members, classroom teachers, and other school personnel serve a vital role in guiding the planning, implementation, and evaluation of our Student Plan for Achievement and student success. Parent representatives on the School Site Council, English Language Advisory Committee, and PTA are elected on a biennial basis. School and district-adopted bylaws govern the protocols and decision-making process for each of these committees to ensure annual goals and fiscal spending is centered on student achievement. Throughout the 2020-21 school year, the school staff, community, and governance stakeholder groups will continue to monitor the actions identified to support the SPSA goals and to determine the school's effectiveness of meeting these goals. School Site Council and the English Language Advisory Committee meet monthly to discuss and monitor the school's progress towards meeting the SPSA goals, as well as to review the implementation of supports, programs, and services identified within the SPSA. The Principal will meet with classroom teachers and other school personnel on a bi-weekly basis to analyze and monitor student achievement data in order to improve curriculum, instruction, and assessment. Transitional meetings and presentations are held yearly by the middle School Counselors to inform 5th grade students of programs offered in the middle school, such as AVID and pathways to college and career readiness. In addition, principal and school counselor present A-G requirements for all 5th grade students and parents.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Title 1 and Title 3 funds were used to support small group interventions and programs for differentiated instruction to meet the needs of underperforming students. Additionally, funds were used to provide equity for all students through enrichment opportunities, such as standards based field trips and technology programs that enhance the learning of underperforming students. The funds were also used to support the continued development of our PBIS approach, which supports all students in their behavioral and academic progress.

The following services were funded through Title 1 or Title 3 funds to enable underperforming students to meet the standards. The implementation of some of the strategies below will be done virtually until it is safe to return to in-person instruction.:

- *Tutoring
- *Staff Collaboration (Virtually)
- *Professional Development and conferences (Virtually)
- *Parent Conferences (CABE- Virtually)
- *Enrichment Field Trips
- *Substitutes for Grade Level Collaborations and SST/IEP meetings
- *Intervention Support Provider (ISP)
- *Babysitting for EL parents
- *Verbal Translation for any meeting with EL parents
- *Overtime for Counselor, ORC and Clerical staff for EL parent support

Fiscal support (EPC)

The district receives Title I funding as we are considered a Title I district. All of our sites are considered “schoolwide.” Title I funds are allocated to each school based on the number of qualifying students. Sites then determine how to use the funds based on specific student needs. The district also distributes Title III funding to sites in order for them to provide any necessary additional services or resources to support English Learners. The district receives Supplemental and Concentration LCFF funding. Sites are allocated a portion of these funds in order to provide additional resources toward student achievement.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Parents are partners in their children's education. The SPSA was reviewed with parents during our Title I and ELAC meetings. Each group is given the opportunity to review the SPSA and to make suggestions for improvement of student achievement. Parent groups submit recommendations for actions to be included in the SPSA for School Site Council. The School Site Council members review and revise SPSA during September and October. ELAC members review and give recommendations during the October meetings. All parent committees (SSC, ELAC, PTA, ELAC) participated in the development of the SPSA. School Site Council reviewed and approved the SPSA. Staff members review and revise the SPSA during August through /October. All stake-holders are highly encouraged to provide feedback on strategies to improve student success. SPSA goals and strategies are the driving force for discussion at monthly parent meetings and staff collaboration. Therefore, updates on SPSA goals are calendared through out the year for all stake-holders.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

The inequities identified as a result of the required needs assessments were:

- Need for two ISPs in order to support EL students and target academic interventions, late hiring of the ISPs.
- Vacant Kindergarten Paraprofessional position
- Substitute Shortage impacted Professional Collaboration, daily instruction and intervention.

| Grade 4 | 114 | | 98 |
| Grade 5 | 96 | | 104 |
| Total Enrollment | 697 | | 605 |

Conclusions based on this data:

Student enrollment decreased due to program choice offered at school sites, transitioning from TBE and SEI instructional programs to an SEI only program. Sierra Linda served as an over-enrollment school for all students, thus some grade levels are higher in some years versus others. In addition, many students return to their home schools during the year, when space becomes available at that site. High cost of living in our county/community also affected our enrollment.

| Fluent English Proficient (FEP) | | | 42 | | | 6.9% |
| Reclassified Fluent English Proficient (RFEP) | | | 43 | | | 11.1% |

Conclusions based on this data:

Sierra Linda's overall English Learners population has decreased due to high cost of living in our area. However, we have increased in the number of students that have met reclassification criteria. Based on test scores, we believe that EL students need extra support to better access the curriculum. Students in Kindergarten will continue to receive 30 minutes of daily Designated ELD instruction, while students in grades 1-5 will continue to receive 45 minutes of daily Designated ELD instruction during our normal school year. English Learners are clustered at each grade level to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum and supplemental materials. ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency. Oral and written language supports and scaffolds will also be integrated throughout all core subject areas by classroom teachers in order to enable English Learners to access grade level subject matter. Teachers are purposeful in providing scaffolds during integrated ELD instruction. Thus, providing EL students support throughout every content area.

Conclusions based on this data:

We compared several years of data. We have identified specific areas of strength/weakness per grade level. The percentage of students in the "at/above" standard increased while the percentage of students in the "below" standard decreased between 17-18 and 18-19 school years. Our current 4th graders decreased the distance from met (DFM) by 17.8% in Language Arts. Our current 5th grade decreased DFM by 17.5% in Language Arts. In three of the four domains of Reading, Listening and Research & Inquiry, all grades for the 2018-19 academic year the percentage increased in the "above" standard area. Although we are extremely proud of the gains made by our students, it is also evident that 51% of our students demonstrated no movement in ELA. The domain of Writing has been identified as an area of focus across all grade levels. In order to address the areas of greatest concerns, the staff is committed to collaborate on best instructional practices to increase student engagement and address academic needs. We will dedicate PLC/Collaboration meeting time to discuss best instructional practices, primarily in Writing, Language Arts and Math. Grade level teams will dedicate up to an additional two hours a month to continue reviewing student progress and daily instruction. There will be some common topics and some grade level specific topics discussed during collaboration time. The areas of focus are discussed and reviewed during the monthly Leadership Team meeting. Collaboration time will include reviewing student data as well as analyzing student work samples. After reviewing student data on a six to eight week cycle, teachers will decide how to modify the small group interventions that are taking place during the day. Interventions can also be supported by small group instruction provided by Intervention Support Providers (ISP).

Conclusions based on this data:

As we compare several years of data, we have identified specific areas of strengths/weaknesses per grade level. The percentage of students in grades 3 and 4 in the "Above Standard" score almost doubled between 17-18 and 18-19 school years. Our current 4th graders decreased the distance from met (DFM) by 10.4% in Math. Our current 5th grade decreased DFM by 18.2% in Math. In all three of the domains of Concepts and Procedures, Problem Solving and Reasoning, all grades decreased the percentage of students below standard. Although we are extremely proud of the gains made by our students, it is also evident that 65% of our students demonstrated no movement in Math. In order to address the areas of greatest concerns, students not making any overall growth, the teaching staff is committed to focusing collaboration time on addressing best instructional practices to increase student engagement and Writing across content areas. Therefore, we are committed to using math journals and Math talks within our daily instructional practices. We will focus on best instructional practices during PLC/Collaboration time. Grade level teams have the opportunity to work together up to an additional two hours a month to continue reviewing student progress and daily instruction. The topics of discussion and collaboration have been agreed upon by site instructional leadership team. The areas of focus are discussed and reviewed during the monthly Leadership Team meeting. In addition, staff has begun working with the district Math Manager and using resources from Jo Boaler to discuss best instructional practices in Math. In the area of mathematics, growth mindset concepts will be implemented into the daily routine. The teachers that went to the summer math training on growth mindset are leading discussions within their grade levels. Collaboration time will include reviewing student data as well as analyzing student work samples. After reviewing student data on a six to eight week cycle, teachers will decide how to modify the small group interventions that are taking place during the day,

Conclusions based on this data:

The above data is two years old. Due to the COVID-19 school closure, the ELPAC was not assessed during the 2019-2020 school year. However, in reviewing the above baseline data, Writing is our area of greatest need. Our teachers have committed to writing across all content areas.

Conclusions based on this data:

Sierra Linda's student population is 91% Latinos, with 58.4% of the Latinos being English Learners. We will continue providing designated and integrated ELD to ensure language acquisition and increase ELPAC test results. The majority of our students at Sierra Linda are socioeconomically disadvantaged. Over 79% of our student population qualify for free or reduced meals. School-wide, we participate in 100% free meals for all students. We have a large number of students that qualify for Special Education services due to our four Special Day Classes and our two Resource classes. Our Outreach Specialist ensures that our homeless and socially disadvantaged youths are offered weekend food backpacks. Families are connected to community agencies for housing, food, tutoring and clothing. Although our African-American and White sub-groups are not considered a significant sub-group on the CAASPP Dashboard reporting system, we at Sierra Linda continue to focus on the needs of these students.

Conclusions based on this data:

Sierra Linda's students improved in CAASPP Language Arts and Math results. Third through fifth grade students improved 3%-12% in Language Arts. They improved 4%-11% in Math. We are very proud of the results. However, we remain with an average of 27%, third through fifth graders in the top two levels. In math, our average of "at or exceeds standards" is 15%. Thus, Math is our area of most need and the area wherein we will focus our grade level collaboration. We will continue to focus on improving student achievement in ELA and Math. Through the CHAMPS initiative we have been able to improve our student attendance and also support our students with their social-emotional needs. We will continue to provide tutoring through the use of Title II funds.

Conclusions based on this data:

As we compare several years of data, we have identified specific areas of strengths/weaknesses per grade level. The percentage of students in the "at or above" standard increased while the percentage of students in the "below" standard decreased between 17-18 and 18-19 school years. In three of the four domains of Reading, Listening and Research & Inquiry, all grades for the 2018-19 academic year the percentage increased in the "above" standard area. Although, we are extremely proud of the gains made by our students, it is also evident that 51% of our students demonstrated no movement in ELA. In the domain of Writing for the 2018-19 academic year the percentage rate increased in the Near Standard or Below Standard Area which has been identified as an area of focus across all grade levels. In order to address the areas of greatest concerns, students not making any overall growth and Writing, the teaching staff is committed to focusing collaboration time on addressing best instructional practices to increase student engagement and Writing. The topics of discussion and collaboration have been agreed upon by site instructional leadership team. The areas of focus are discussed and reviewed during the monthly Leadership Team meeting. Collaboration time will include reviewing student data as well as analyzing student work samples. After reviewing student data on a six to eight week cycle, teachers will decide how to modify the small group interventions that are taking place during the day. Interventions are supported by small group instruction provided by Intervention Support Providers (ISP). In addition, classroom teachers are purposeful when providing small group intervention and initial lessons. We will continue to provide target interventions to our English Learners and include recently Reclassified English Learners with Title III funds. We will also continue

to provide target intervention during the school day by teacher, during Tier 1 (Universal Access) and Tier 2 (ISP) throughout the day and focus on all our subgroups.

Although we are extremely proud of the gains made by our students, it is also evident that 36% of our students demonstrated no movement in Math. In the domain of "Communication and Reasoning" for the 2018-19 academic school year, Sierra Linda's students made the least growth. In order to address the areas of greatest concerns, students not making any overall growth, the teaching staff is committed to focusing collaboration time on addressing best instructional practices to increase student engagement and improve "Communication and Reasoning". Conclusions based on this data:

Based on 2019 Dashboard English Language Proficiency Assessments for California (ELPAC) data, Sierra Linda Elementary classroom teachers will continue to strengthen both integrated and designated English Language Development (ELD) in order to increase English Learners' language proficiency skills throughout the instructional day. Students in Kindergarten will continue to receive 30 minutes of daily designated ELD instruction, while students in grades 1-5 will continue to receive 45 minutes of daily designated ELD instruction. English Learners will be clustered at each grade level to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum and supplemental materials. ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency. Oral and written language supports and scaffolds will also be integrated throughout all core subject areas by classroom teachers in order to enable English Learners to access grade level subject matter. Our focus during designated ELD will be on student language learning and writing across content areas. Along with targeted instruction and interventions throughout the school day, we will continue to provide targeted interventions to our English Learners during after-school tutoring with Title III funds.

Conclusions based on this data:

Students at Sierra Linda with perfect attendance receive incentives for attending school regularly. This has decreased or maintained chronic absenteeism across all sub groups. Students who are continually absent are placed on a mini-SARB contact and join our breakfast club. Staff, in particular the Outreach Specialist and the attendance clerk, conduct home visits. We will continue to conduct attendance meetings with parents to discuss the importance of daily student attendance. Our goal is to support the family, thus improve student attendance.

Conclusions based on this data:

Student suspension rates increased or maintained across some sub-groups and declined for our homeless and students with disabilities due to continual implementation of CHAMPS, which is a Positive Behavior Intervention System (PBIS). CHAMPS consists of a multi-tiered system of interventions (MTSS) for students that are demonstrating disruptive behaviors. Students are suspended when all other means of correction have been tried or behavior falls into the five state mandated reasons. Our school staff works diligently to provide a safe school environment wherein students can decompress and reflect on their behavior. Parents and staff work together to address students' social-emotional needs, so that students learn appropriate methods of dealing with sadness, anger or frustration. Our school counselor is available to instruct and support students by teaching character traits and coping skills to either individuals, small groups or whole classes. The schoolwide CHAMPS team is represented by one member of each grade level, a campus assistant and our school counselor. The CHAMPS team will meet monthly to address full implementation of procedures and protocols that support students in making positive choices. Sierra Linda staff is committed to teaching students alternatives to becoming aggressive towards self or others. Thus, before we suspend a student, they have been given several opportunities to learn how to cope with emotions, stressors or frustrations. There are several other pieces to CHAMPS that staff is planning to implement, for example, various ways for students to become involved and develop their peer leadership skills. We recognize that when students have a positive connection to their peers and staff their behavior improves, thus promoting a safer and positive school environment for all.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Based on measurable outcomes the overall implementation of our agreed strategies was successful. All grade levels increased in Math and ELA achievement based on STAR 360 reports from Fall 2019 to Winter 2020. On the CAASPP Test, 3rd grade exceeded their math and ELA goals to increase student achievement by 12% in ELA and 9% in Math. Fourth grade increased by 11% in ELA and increased by 11% in Math. Fifth grade increased 3% in ELA and 4% in Math. Most grade levels met their goal and others made progress towards goal in both STAR 360 Reading and Math assessments. Overall our activities and strategies were effective, especially in the area of ELA. In analyzing the performance assessments of our English Learner Subgroup, we have identified there is a discrepancy in achievement between English Learners and English Proficient students. This could be attributed to insufficient use of differentiation during instruction as well as insufficient implementation of EL instructional strategies.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Funds were allocated to purchase apps to support our academic goals; however, many of the apps were underutilized. As a result, data regarding the effectiveness of the use of these apps was invalid. In addition, the investment did not produce the academic boost in achievement that was intended. Thus, we decided to eliminate some APPS and reduce licenses in others.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

As a school, we developed criteria for choosing apps to support student learning by grade level. We cut apps that were underutilized or inappropriate for specific grade levels (ie. BrainPop, IXL). We prioritized preferred apps by grade level, compared them to school-wide needs, and will purchase accordingly. Additionally, we analyzed the data connected to academic progress provided by the ISP during Universal Access time. This guided our decision to add one position that will be funded with site funds. We are also providing new opportunities for English Learner academic development, which include before/ after-school tutoring and enrichment in the writing domain. We are also providing professional development in language acquisition strategies, writing, ELA, Math Mindset and NGSS.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Sierra Linda works hard at providing a safe school environment. Based on previous year discipline referrals and CHKS data, students will need more activities during recess (once we return to safe in-person school setting) to help them make positive choices and enforce our PBIS plan. In addition, we need to think about increasing our incentives for student attendance, especially during distance learning to increase student connectivity. CHAMPS team meet about once a trimester. We will set a monthly schedule of meetings to discuss professional collaboration and implementation of CHAMPS procedures and routines. We also need to create incentives that praise every child's increased attendance and not simply those with monthly perfect attendance. Academic incentives will be implemented to improve reading and participation in Accelerated Reader.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

The funds budgeted for attendance activities was sufficient to cover the planned activities. However, not all the activities or incentives were done consistently. Our attendance rate was not positively impacted, due to the fact that the attendance activities were focused on student behavior and not on parent awareness. The school closure due to COVID-19 also impacted the implementation the last trimester of 2019-2020.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Activities will be revised and added to increase attendance awareness for parents. Attendance incentives will be purchased throughout the year for individual students and classes that meet attendance goals. To ensure our goal to increase our daily attendance, we will be implementing monitoring protocols on a monthly basis. In order to increase positive and safe school environment, the CHAMPS team will meet once a month. We will monitor student disciplinary actions and provide socio-emotional supports to students as needed.

Goals, Strategies, & Proposed Expenditures

Complete a copy of the following table for each of the school's goals. Duplicate the table as needed.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Overall, we increased parent participation at ELAC and PTA by double the numbers. In addition, parents of English Learners who are also Special Education have become more involved at

monthly meetings. However, not many parents participated in the California Healthy Kids Survey. This is an area for improvement. Some of our parents followed Oxnard District's volunteer policy, thus participated in classroom activities and in field trips.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

The budget allocated for parent involvement was sufficient.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Sierra Linda we will send home a monthly calendar of events. We will also be more consistent about updating our website. We will be posting flyers on Peach Jar and using Class Dojo for extra points of communication with parents.

Budget Summary

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members
- 0 Secondary Students

| Name of Members | Role |
|--|----------------------------|
| Jorge Mares | Principal |
| Sheri Anderson (Secretary) | Classroom Teacher |
| Joy Hammel | Classroom Teacher |
| Melissa Bakody (Assistant Chairperson) | Classroom Teacher |
| Ginny Whitt | Other School Staff |
| Rosana Valdez (Chairperson) | Parent or Community Member |
| Susana Vasquez | Parent or Community Member |
| Abel Vasquez | Parent or Community Member |
| Pearle Diaz | Parent or Community Member |
| Otilia Rodriguez | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

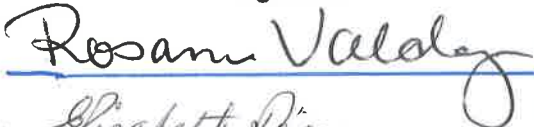

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

| Signature | Committee or Advisory Group Name |
|--|------------------------------------|
|  | School Site Council |
|  | English Learner Advisory Committee |

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10/15/2020.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

Signature

Committee or Advisory Group Name

School Site Council

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10/15/2020.

Attested:

Principal, Jorge Mares on 10/15/2020

SSC Chairperson, Rosana Valdez on 10/15/2020

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school’s identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school’s identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

| Juan Lagunas Soria Elementary School | 56725380119412 | October 15, 2020 | November 4, 2020 |

Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

The Vision of Juan Lagunas Soria School is to provide a happy, caring and stimulating environment through academics and the integration of Technology, Arts and Language (Te.A.L.) where children will believe in exceeding their potential. The Mission of Juan Lagunas Soria School is to educate and prepare confident students to become college and career ready in an ever changing global society.

As described within our Vision and Mission Statements, Juan Lagunas Soria School is committed to providing the best educational program possible for our students. The quality of our instructional program is a reflection of our highly committed staff. We are dedicated to ensuring Juan Lagunas Soria School is a welcoming, stimulating environment where students are actively involved in their education, emphasizing both academic and social/emotional learning. Through the shared vision of our staff, parents, and community, our students are challenged to reach their maximum potential. Our academic focus has centered on building strong foundations in reading, writing, and mathematics. Throughout the 2020-2021 school year, Juan Lagunas Soria School will emphasize building rigor across all grade levels and all core content areas with an emphasis on Technology, Arts and Language, our school's Te.A.L. Strand Focus, while scaffolding instruction to strengthen students' skills on grade-level standards. Students are encouraged and supported to build their literacy skills and reach their reading potential. Teachers will also concentrate on building students' writing ability across all core content areas to promote critical thinking and to better equip students with the skills required to meet expectations of state-wide summative assessments. Finally, teachers will continue focusing on implementing Mathematical Mindset strategies across all grade levels, enabling students to build their academic vocabulary and reasoning skills in the area of

Mathematics. As teachers continue providing instruction to students within a Distance Learning environment, Juan Lagunas Soria School will identify and address barriers to student learning generated by challenges related to internet connectivity, one-to-one devices, online learning platforms, student attendance/engagement, and parent support.

Our over-arching academic goal is to raise achievement scores for all students and all significant student subgroups (English Learners, Hispanic, Students with Disabilities, and Socioeconomically Disadvantaged). Working together within a Professional Learning Community context, teachers are engaged in ongoing, grade-level collaboration to analyze and discuss formative and summative assessment data so as to:

1. Identify learning targets and objectives from State-approved, Board-adopted curriculum that are aligned to the Common Core State Standards;
2. Inform effective classroom instruction practices in both Sheltered English Instruction (SEI) and Dual Language Instruction (DLI) contexts;
3. Provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills across all four language domains of reading, writing, listening, and speaking;
4. Integrate instructional technology (e.g., One-to-One devices, Promethean Boards, Hovercams, Canvas - Learning Management System) to enhance student engagement within the current Distance Learning context; and,
5. Develop and implement student support and intervention programs and services for underperforming students.

Utilizing a Multi-Tiered Systems of Support (MTSS) approach, student performance and progress are monitored by teachers implementing standards-based Tier I-Level instruction for all students. Students not meeting academic grade-level expectations are identified through the Coordination of Services Team (CST) and Student Success Team (SST) process to receive Tier II and/or Tier III-Level Intervention services and supports by classroom teachers before, during, and/or after the instructional day. Tier II to Tier III-Level Intervention services are provided by classroom teachers during small group instruction, English Language Development, and/or during before/after school tutoring, as well as being provided by Intervention Support Providers (ISPs) to support students' academic skills in small group settings. In order to address our students' social, emotional, and behavioral needs, the MTSS/CST/SST process is also used to identify students who are in need of receiving individual and/or small group counselling services provided by our school counselor. Students who qualify for Special Education receive Specialized Academic Instruction, Speech and Language support, and/or Counselling support services to meet their academic, language and communication, and/or social/emotional goals identified within their Individualized Education Plans. Students are also given the opportunity, based on need and availability, to enroll and participate in the Oxnard Scholars after school program to receive additional core instruction, academic enrichment, and study skills support.

Here at Juan Lagunas Soria School, we take pride in fostering a safe, positive, and professional learning environment. Our progressive discipline matrix assists teachers and administration with clear guidelines for responding to student behavior at both the classroom and school levels. The Positive Behavior Intervention and Support (PBIS) model concentrating on STOIC (Structure, Teach expectations, Observe and monitor, Interact positively, and Correct fluently) guides all staff in providing a proactive and positive approach to managing student behavior both in and out of the classroom. Our PBIS/School Safety Team meets on an ongoing basis to analyze student discipline data, identify areas of focus, and provide recommendations to school staff in order to strengthen our school's positive learning environment. Juan Lagunas Soria School hosts student assemblies to honor and recognize the hard work and positive choices students make by rewarding students with

praise, recognition, and incentives. In addition, our athletics program, extracurricular clubs, and student leadership program offer enrichment opportunities for students to excel in areas outside of academics. During the current Distance Learning context, however, Juan Lagunas Soria School will seek alternative pathways to engage students in social, team-based activities that ensure student safety and follow social distancing guidelines.

In order for students to achieve their fullest potential, we know that parent and family engagement plays a critical role in ensuring students' educational success. Our English Learner Advisory Committee (ELAC), Parent Teacher Association (PTA), and School Site Council (SSC), in coordination with our Outreach Coordinator, offer and encourage parents to become active participants in their children's schooling through a variety of engaging and meaningful educational experiences. The school's Parent Involvement Policy provides clear guidelines for parents to serve as volunteers in classroom and school activities. Our Back to School Night, Parent Nights, Athletics program, and PTA-sponsored social events further support and foster parental engagement. Moreover, by offering a rigorous academic curriculum taught using data driven instructional practices, by maintaining high expectations for student success, by fostering a safe, positive learning environment, and by strengthening home-school partnerships to increase parent and family engagement, Juan Lagunas Soria School will meet the goals identified within this School Plan for Student Achievement.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Ongoing data from both formal and informal classroom observations conducted weekly in Kindergarten through 8th grades throughout the school year, along with collaboration with the school site Leadership Team and Community stakeholder committees (School Site Council, ELAC, PTA), assisted with the development of the goals, actions, and services highlighted throughout this School Plan for Student Achievement. Analysis of this classroom observational data highlighted the need for improved, systemic, purposeful, and evidence-based teacher collaboration using both formative and summative data to inform SEI/DLI instruction, identify essential curriculum standards, and develop targeted student intervention and supports; a more robust implementation of the Multi-Tiered Systems of Support Model utilizing a cycle of inquiry approach; an emphasis on academic writing across all core subject areas; and continued focus on integrating Mathematical Mindset strategies to promote students' critical thinking and problem solving skills in the area of Mathematics.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

Use of state and local assessments to modify instruction and improve student achievement (ESEA)

The school utilizes data from both formative (Star 360 Early Literacy/Reading in English, as well as Spanish for Dual Language Immersion programs, Star 360 Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments at critical points throughout the school year to modify instruction based on Common Core State Standards in order to improve student achievement outcomes for all significant student subgroups.

Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Within a Professional Learning Community context, grade-level teams will collaborate frequently to analyze data from both formative and summative assessments in order to monitor student achievement and identify key learning targets within the Common Core State Standards to inform and modify instruction. Ongoing monitoring of formative and summative assessment data will also enable grade-level teams to identify, through the Coordination of Services Team (CST) and Student Success Team (SST) process, students in need of intensive, evidence-based small group intervention provided by the classroom teacher and/or the Intervention Support Providers (ISPs) during the instructional day or during before or after school tutoring.

Staffing and Professional Development

Status of meeting requirements for highly qualified staff (ESEA)

The district ensures that that all site staff meets requirements to be considered “highly qualified.” This is monitored by the district’s Human Resources Department.

Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Incoming teachers are appropriately credentialed and provided with various forms of support. New Teacher Orientation is offered which includes District expectations and procedures, training on current curricular materials and programs and tips on classroom management. The district works with the Ventura County Office of Education to provide Induction for new teachers. Professional development is also offered to teachers when new curriculum is adopted and follow up training is available for continuous support with curricular materials.

Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Professional development is provided at the site and district level to ensure that instruction is aligned to current Common Core State Standards. There is a district assessment calendar to ensure that student progress is sufficiently monitored throughout the year. Professional development and support is provided on the assessment system and on the specific types of assessments. Structures are in place at school sites to allow teachers to analyze data in collaborative groups in order to identify student needs and adjust instruction accordingly.

Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

The Educational Services Department includes Directors who provide support for Curriculum, Instruction, Biliteracy Programs, English Learner Services, Special Education and Pupil Services. An Instructional Specialist for science and a Math Manager work directly with teachers to support instruction in Science and Math. Site Principals and Assistant Principals function as instructional leaders.

Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Working together within a Professional Learning Community context, teachers are part of ongoing, grade-level collaborative teams that analyze and discuss formative and summative assessment data from state and local assessments in order to:

1. Identify learning targets and objectives from State-approved, Board-adopted curriculum that are aligned to the Common Core State Standards;
2. Inform effective classroom instruction practices in both Sheltered English Instruction (SEI) and Dual Language Instruction (DLI) contexts;
3. Provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills across all four language domains of reading, writing, listening, and speaking;
4. Integrate instructional technology (e.g., One-to-One devices, Promethean Boards, Hovercams) to enhance student engagement within the current Distance Learning context; and,
5. Develop and implement student support and intervention programs and services for underperforming students.

Teaching and Learning

Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

Collaboration, using the PLC (Professional Learning Communities) model, supports use of instructional strategies aligned to current CA Common Core State Standards. State adopted and approved curricular materials support instruction.

Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

Instructional minutes are monitored by the Business Services office. All school schedules adhere to the California Department of Education's recommended instructional minutes.

Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

The district assessment calendar and adopted curricula provide guidance on lesson pacing. Student needs are determined by data analysis and intervention courses are scheduled based on these student needs.

Availability of standards-based instructional materials appropriate to all student groups (ESEA)

Instructional materials provided for all students are managed by our district Textbook Coordinator. Participation in Williams Inspections confirms that all students have equal access to required materials.

Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Adopted and standards-aligned materials are provided for use in all classrooms. Intervention materials must be research-based and aligned to the Common Core Standards. Funds are allocated to sites to purchase any additional materials they determine are necessary to meet student needs.

Opportunity and Equal Educational Access

Services provided by the regular program that enable underperforming students to meet standards (ESEA)

Teachers first provide Tier I-Level standards-based instruction to all students, integrating all four levels of depths of complexity to increase the level of academic rigor throughout all core content areas. Through frequent, ongoing, and evidence-based collaboration, teachers are able to analyze ongoing formative assessment data to progress monitor student achievement and identify underperforming students in need of targeted intervention services. Utilizing the Multi-Tiered System of Supports (MTSS) model, specific and aligned intervention strategies are provided to underperforming students at the Tier II and III levels. Students' progress and response to these intervention strategies are closely monitoring through the use of pre and post-assessment data during six week long rounds of intensive intervention. Students not meeting the expected intervention outcomes are referred to the Coordination of Services Team (CST) process and will then receive Tier II level intervention for an additional six weeks. Students not meeting the expected outcomes from Tier II level intervention will then be referred to the Success Study Team (SST) process and will then receive Tier III level intervention. Students who still do not demonstrate adequate progress after having received Tier I, II, and III level intensive intervention may be referred for Special Education assessment if it is suspected that a student has a learning disability that is interfering with the student's ability to perform at grade-level standards.

Evidence-based educational practices to raise student achievement

Classroom teachers integrate evidence-based educational practices to raise student achievement outcomes for all students. These practices may include, but are not limited to, the provision of clearly articulated learning goals based on Common Core State Standards, integrating depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards, use of scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations, the provision of immediate feedback to students, reteaching of core subject matter based on formative assessment data, facilitation of student collaboration and peer modeling strategies, and teachers' belief of every student's ability to achieve success on grade-level Common Core State Standards.

Parental Engagement

Resources available from family, school, district, and community to assist under-achieving students (ESEA)

Juan Lagunas Soria School provides several opportunities throughout the school year to strengthen partnerships with family, school, district, and community stakeholders to assist under-achieving students. Parents are encouraged to volunteer in the classroom and in school activities as well as become involved in site-based parent groups such as the School Site Council (SSC), Parent Teachers Association (PTA) and the English Advisory Committee (ELAC). These parent groups play an active role in developing and monitoring school goals. Parent nights engage stakeholders in academic activities to raise awareness and understanding of the expectations set by the Common Core State Standards. Throughout the year, parents will be invited to attend Parent/Teacher Conferences to collaborate with their child and their child's teacher to review achievement data and identify strategies for improving student success. Parents will also be encouraged to attend Student Success Team meetings if their child has been identified as significantly below grade-level standards or is exhibiting significant needs in social, emotional, and/or behavioral areas. Parent trainings and educational workshops are coordinated and provided by the school's Outreach Coordinator to improve parents' ability to support their children's learning. These trainings focus on topics such as parenting classes, parent engagement and advocacy, nutrition classes, bullying, A through G requirements, and how to support students' academics and social-emotional needs. During the current Distance Learning context, these events will be held virtually to ensure the school is following social distancing guidelines. Fiscal resources provided by the Juan Lagunas Soria PTA assist in supporting standards-based field trips; providing supplemental instructional resources for classroom teachers; supporting student assemblies, extracurricular activities, and athletics; and providing funding for incentives and rewards for students who meet their learning goals and achieve school success.

Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Juan Lagunas Soria School will continue to prioritize parent and family engagement during the 2020-21 school year. Parents, community representatives, classroom teachers, and other school personnel serve a vital role in guiding the planning, implementation, and evaluation of ConApp programs. Parent representatives on the School Site Council, English Language Advisory Committee, and Parent Teacher Association are elected on an annual or biennial basis. School or district-adopted bylaws govern the protocols and decision-making process for each of these committees to ensure annual goals and fiscal spending is centered on student success. Throughout the 2020-21 school year, the school staff, community, and governance stakeholder groups will continue to monitor the actions identified to support the SPSA goals and to determine the school's effectiveness of meeting these goals for all students and all significant subgroups (English Learners, Hispanic, Students with Disabilities, and Socioeconomically Disadvantaged). School Site Council and the English Language Advisory Committee meet monthly to discuss and monitor the school's progress towards meeting the SPSA goals, as well as to review the implementation of supports, programs, and services identified within the SPSA. The Principal will meet with classroom teachers and other school personnel on a regular basis to analyze and monitor student achievement data in order to improve curriculum, instruction, and assessment.

Funding

Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

Analysis of current and longitudinal student achievement data guides the development of school goals and strategies to further increase achievement outcomes for all students, while also informing the identification, selection, and implementation of categorically funded services to enable underperforming students to meet grade-level Common Core State Standards. At Juan Lagunas Soria School, categorical funding from Title I, III, and LCFF is utilized to support student intervention and enrichment programs aligned with meeting the needs of underperforming students. Specifically, categorical funding is used to provide intensive, small group intervention before, during, and after the instructional day to students identified as not meeting grade-level standards and/or learning goals. Categorical funding supports standards and evidence-based teacher collaboration focused on analyzing and monitoring student achievement data to inform classroom and school-wide instructional programs and practices. Funding also supports the Outreach Coordinator position, who is responsible for coordinating and/or facilitating parent trainings and educational workshops aimed at improving parents' ability to support their children's learning. Funds will be utilized to support the middle school Advancement Via Individual Determination (AVID) program and the Associated Student Body (ASB) student leadership program.

Fiscal support (EPC)

The district receives Title I funding as we are considered a Title I district. All of our sites are considered "schoolwide." Title I funds are allocated to each school based on the number of qualifying students. Sites then determine how to use the funds based on specific student needs. The district also distributes Title III funding to sites in order for them to provide any necessary additional services or resources to support English Learners. The district receives Supplemental and Concentration LCFF funding. Sites are allocated a portion of these funds in order to provide additional resources toward student achievement.

Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

Involvement Process for the SPSA and Annual Review and Update

Juan Lagunas Soria School governance stakeholder groups were involved in the development of this School Plan for Student Achievement (SPSA). School Site Council met on October 1 and October 15, 2020 to analyze 2019-20 and current 2020-21 formative student achievement data to align categorical funding to students' academic and social/emotional/behavioral needs. In addition, School Site Council acknowledged the input provided by school staff to support the development of the three SPSA goals and objectives focused on setting high academic standards in Reading and Math, providing social/emotional support and fostering a positive and safe school climate, and increasing parent and family engagement. The Principal met with the English Language Advisory Committee on September October 13, 2020 to review the SPSA and discuss the strategies which focus on increasing parent and family engagement and building English Learners' language proficiency skills to ensure academic success. The school's Parent Teacher Association was also involved in supporting the development of the SPSA by aligning the PTA budget and activities to support the overall goals identified within the SPSA.

Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

While there has been a reduction in school site funding for the 2020-21 school year, several school site expenditures related to Distance Learning have been funded at the district level using special one-time COVID 19 funding received by the state. These expenditures have included the replacement of teacher technology equipment (laptops, docking stations, and hovercams), funding for one full-time Outreach Coordinator position to support parent and family engagement, the provision of two Intervention Support Providers to support literacy-based Tier II and Tier III-Level intervention for students not meeting grade-level standards, and the purchasing of a district-wide learning management system (e.g., Canvas), school-wide instructional applications and programs (e.g, ST Math, Lexia, MyOn), and grade-level instructional supplies to support students' Distance Learning in the home. Due to the extended current context of Distance Learning, other expenditures are no longer applicable while students remain at home and even when students do return to in-person instruction and social distancing guidelines are still in place. These types of expenditures include field trips, athletics, and extra-curricular activities. As a result, while school-site funding has been reduced relative to years past, there has been an increase in district-level funding to support Distance Learning as well as an increase in the number of limitations for the types of instructional activities, interventions, and enrichment that can be implemented as a result of the current COVID 19 pandemic.

| Grade 8 | 109 | 142 | 134 |
| Total Enrollment | 1,040 | 1,017 | 983 |

Conclusions based on this data:

From 2017 to 2020, based on ethnicity, there have been only two significant subgroups of students (30 or more students) at Juan Lagunas Soria School: Hispanic/Latino and White. The percent of total of enrollment for each of these two significant subgroups has remained consistent during this time. Based on analysis of student enrollment by grade level between 2017 and 2020, total enrollment has decreased by 57 students. It is important to note that this data reflects school enrollment from three (2017-18) and two (2018-19) years ago. Current Kinder through 8th grade enrollment for the 2020-21 school year is 955. This reflects a further decrease of student enrollment since the 2017-18 school year. As a result, Juan Lagunas Soria School staff will continue to monitor changes in student enrollment and the impact these changes have on the programs and support services provided at each grade-level.

| Reclassified Fluent English Proficient (RFEP) | 25 | 82 | 83 | 2.4% | 8.1% | 26.3% |

Conclusions based on this data:

Based on analysis of English Learner enrollment at Juan Lagunas Soria School for the 2017-18 school year, 28.6% of Juan Lagunas Soria School's total student population were English Learners. An additional 2.4% of Juan Lagunas Soria School's total student population during the 2017-18 school year was made up of students who had been redesignated as Reclassified Fluent English Proficient (RFEP) students. While the percentage of English Learners has remained fairly consistent throughout the past three school years from 2017 to 2020, the percentage of students being redesignated as RFEP has increased significantly from 2.4% in 2017-18 to 26.3% in 2019-20. As a result, Juan Lagunas Soria will continue to provide both Designated and Integrated English Language Development (ELD) to support English Learners' language proficiency skills throughout the instructional day, while, at the same time, continue to monitor RFEP students' academic performance in both SEI and DLI instructional settings.

Conclusions based on this data:

No data was available from the 2019-20 school year as the state-wide CAASPP summative assessment was cancelled due to the global COVID 19 pandemic. Based on analysis of CAASPP summative data for English Language Arts/Literacy, all students in grades 3-8 at Juan Lagunas Soria School have demonstrated improved student achievement outcomes between 2016 and 2019, with the total number of students who met or exceeded standard increasing from 44.4% in the 2016-17 school year to 48.8% in the 2018-19 school year. Although the percentage of students who nearly met standard stayed about the same: 22.81% in 2016-17 to 22.3% in 2018-19, the percentage of students who did not meet standard decreased from 32.79% in the 2016-17 school year to 28.89% in the 2018-19 school year. Analysis of data from the four CAASPP Claim areas shows that all students in grades 3-8 at Juan Lagunas Soria School showed greatest gains for students scoring above standard in the Claim of Listening between 2016 and 2019, with an increase of 5.3 percentage points. Overall, percentages of all students

in grades 3-8 scoring below standard in all four Claims decreased between 2016 and 2019, with the greatest decrease occurring in the Writing Claim in which the percentage of students scoring below standard fell by 5.07 percentage points. Based on percentages of students in grades 3-8 meeting or exceeding standards, Juan Lagunas Soria School classroom teachers will continue to implement evidence-based instructional practices within the designated language of instruction in order to provide all students clearly articulated learning goals based on Common Core State Standards; increased depths of knowledge levels throughout instructional activities to build rigor within and across grade-level standards; scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations; immediate feedback to students; reteaching of core subject matter based on formative assessment data; opportunities for student collaboration and peer modeling; and high expectations for student success on grade-level Common Core State Standards. Teachers will also provide underperforming students Tier II and Tier III-level intervention, including intensive, small group instruction before, during, and after the instructional day in order to increase students' skills in English Language Arts.

Conclusions based on this data:

No data was available from the 2019-20 school year as the state-wide CAASPP summative assessment was cancelled due to the global COVID 19 pandemic. Based on analysis of CAASPP summative data for Mathematics, all students in grades 3-8 at Juan Lagunas Soria School have demonstrated improved student achievement outcomes between 2016 and 2019, with the total number of students who met or exceeded standard increasing from 19.46% in the 2016-17 school year to 24.79% in the 2018-19 school year. Although the percentage of students who nearly met standard slightly decreased from 32.03% in the 2016-17 school year to 31.41% in the 2018-19 school year, the percentage of students who did not meet standard demonstrated a greater decrease from 48.51% in the 2016-17 school year to 43.8% in the 2018-19 school year. Analysis of data from the three CAASPP Claim areas shows that all students in grades 3-8 scoring above standard at Juan Lagunas Soria School showed similar gains in the Claims of Concepts and Procedures, Problem Solving and Modeling/Data Analysis, and Communicating Reasoning between 2016 and 2019, with increases by 4.12 percentage points, 4.72 percentage points, and by 5.17 percentage points respectively. Overall, percentages of all students in grades 3-8 scoring below standard in all three Claims decreased between 2016 and 2019, with the greatest decreases occurring in the Concepts and Procedures and Communicating Reasoning Claims in which the percentage of students scoring below standard fell by 6.08 percentage points and by 5 percentage points respectively. Based on the significantly lower percentages of grades 3-8 students meeting or exceeding standards in Math in comparison to English Language Arts, Juan Lagunas Soria School classroom teachers will focus on integrating Mathematical Mindset strategies throughout the instructional core Mathematics program to build students' critical thinking skills, while, at the same time, providing underperforming students intensive, small group intervention before, during, and after the instructional day. Classroom teachers will also implement effective, evidence-based instructional strategies in order to provide all students clearly articulated learning goals based on Common Core State Standards; increased depths of knowledge levels throughout instructional activities to build rigor within grade-level standards; scaffolding to connect students' prior knowledge and current ability levels to grade-level standard expectations; immediate feedback to students; reteaching of core subject matter based on formative assessment data; opportunities for student collaboration and peer modeling; and high expectations for student success on grade-level Common Core State Standards in the area of Mathematics.

Conclusions based on this data:

No data was available from the 2019-20 school year as the state-wide CAASPP summative assessment was cancelled due to the global COVID 19 pandemic. Based on analysis of ELPAC summative data, all students in grades K-7 at Juan Lagunas Soria School demonstrated a significant decrease in student achievement outcomes between the 2017-18 and 2018-19 school year, with students' Overall Language scores in Levels 3 and 4 decreasing from 83% in 2017-18 to 63.27% in 2018-19 (There were not enough students tested in 8th grade to yield statistically significant results). The total number of identified English Learners, however, did decrease by 46 students between these two school years possibly due to the number of reclassifications that occurred during this time. Similarly, Oral Language and Written Language scores for students in grades 3-7 also demonstrated significant decreases, with the percentage of students scoring in Levels 3 and 4 in Oral Language decreasing by 14.16 percentage points and the percentage of students scoring in Levels 3 and 4 in Written Language decreasing by 22.45 percentage points. It is important to note as well that the ELPAC scores in 2017-18 only reflect students in grades K-6, whereas the scores in 2018-19 reflect students in grades K-7. Based on the significant decreases in students' ELPAC scores from 2017-18 to 2018-19, Juan Lagunas Soria School teachers will focus on providing effective designated and integrated English Language Development, as well as intensive and strategic interventions and supports for English Learners, especially those identified as Long Term English Learners. In addition, professional development will continue to be coordinated and provided to classroom teachers to improve instructional strategies that focus on scaffolding core content to ensure English Learners can access grade level

standards without decreasing depths of knowledge levels and rigor in both Sheltered English Instruction (SEI) and Dual Language Immersion (DLI) settings.

Conclusions based on this data:

Analysis of Dashboard Student Population student group data revealed that there were a total of three significant subgroups at Juan Lagunas Soria School during the 2018-19 school year: English Learners (30.5%), Socioeconomically Disadvantaged (53.4%), and Students with Disabilities (7%). Analysis of Dashboard Student Population race/ethnicity data revealed that there was one significant subgroup at Juan Lagunas Soria School during the 2018-19 school year: Hispanic (91.3%). Based on 2018-19 Student Population data, Juan Lagunas Soria School will focus on strengthening both Integrated and Designated English Language Development (ELD) for English Learners (ELs) throughout the instructional day, while, at the same time, analyzing formative and summative student achievement data for ELs, Socioeconomically Disadvantaged, and Students with Disabilities subgroups in order to progress monitor student achievement outcomes, identify underperforming students, and develop targeted, intensive intervention and support for students not meeting grade-level standards.

Conclusions based on this data:

Based on 2019 Dashboard Overall Performance data for all students, Juan Lagunas Soria School will continue to focus on improving student achievement outcomes in the areas of English Language Arts and Mathematics to promote student success across all core content areas in both Sheltered English Instruction (SEI) and Dual Language Immersion (DLI) settings.

Overall Performance for all students within the 2019 Dashboard indicators of Chronic Absenteeism fell within the yellow range and indicators for Suspension Rate fell within the orange range. Juan Lagunas Soria School will continue to monitor and address daily student tardies and absences, implement effective preventative programs and incentives to increase students' positive attendance, and address students' behavioral, social, and emotional needs in order to administer progressive and meaningful measures of corrective and disciplinary action, while minimizing the need for student suspension. Juan Lagunas Soria School will focus on implementing the foundational principles of the Positive Behavioral Interventions and Supports program to foster positive school culture that strengthens student character and sense of belonging, safety and wellbeing.

Both College/Career and Graduation Rate Dashboard indicators were both not applicable to Juan Lagunas Soria School in 2019.

Conclusions based on this data:

Based on the small percentages of all grades 3-8 students meeting or exceeding standards, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities significant subgroups, Juan Lagunas Soria School classroom teachers will continue to implement evidence-based instructional practices in order to provide all students clearly articulated learning goals based on Common Core State Standards. To increase student achievement for English Learners in the area of English Language Arts, teachers will provide both Integrated and Designated English Language Development (ELD) to improve English Learners' language proficiency skills. For Students with Disabilities, teachers will continue to scaffold standards-based instruction to connect students' prior knowledge and current ability levels to grade-level standard expectations. For Socioeconomically Disadvantaged students, teachers will continue to integrate depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards; provide immediate feedback; reteach core subject matter based on formative assessment data; provide opportunities for student collaboration and peer modeling; and promote high expectations for student success on grade-level Common Core State Standards.

Conclusions based on this data:

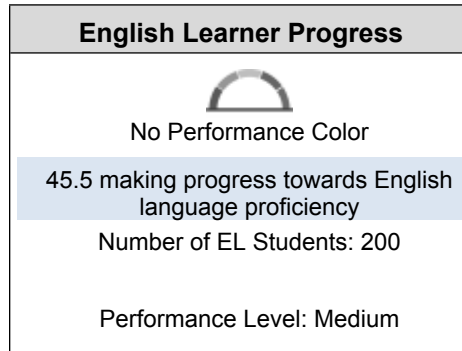

Based on the percentages of all students in grades 3-8 meeting or exceeding standards, including those representing English Learner, Socioeconomically Disadvantaged, and Students with Disabilities significant subgroups, Juan Lagunas Soria School classroom teachers will focus on integrating Mathematical Mindset strategies throughout the instructional core Mathematics program to build students' critical thinking skills, while, at the same time, providing underperforming students intensive, small group intervention before, during, and after the instructional day. To increase student achievement for English Learners, teachers will provide opportunities for student collaboration and peer modeling to build English Learners' oral and written language skills and academic vocabulary in the area of Mathematics. For Students with Disabilities, teachers will continue to scaffold standards-based instruction to connect students' prior knowledge and current ability levels to grade-level standard expectations. For Socioeconomically Disadvantaged students, teachers will continue to integrate depths of knowledge levels throughout instructional activities to increase rigor within grade-level standards; provide immediate feedback; reteach core subject matter based on formative assessment data; and promote high expectations for student success on grade-level Common Core State Standards in the area of Mathematics.

Conclusions based on this data:

Based on 2019 Dashboard English Language Proficiency Assessments for California (ELPAC) data, Juan Lagunas Soria School classroom teachers will continue to strengthen both Integrated and Designated English Language Development (ELD) in order to increase English Learners' language proficiency skills throughout the instructional day. Students in grades Kindergarten through 8th grades will continue to receive daily Designated ELD instruction, based on the instructional requirements determined for Distance Learning, Hybrid Model, and/or traditional school settings.

English Learners will be clustered to enable ELD teachers to provide targeted, standards-based language proficiency instruction using district-adopted curriculum materials.

ELD teachers will integrate appropriate scaffolding techniques to bridge students' current oral and written language levels in reading, writing, listening and speaking to levels more representative of language proficiency and fluency. Oral and written language supports and scaffolds will also be integrated throughout all core subject areas by classroom teachers in order to enable English Learners to access grade level subject matter.

Conclusions based on this data:

Based on 2019 Dashboard Suspension Rate data for all students, including those representing English Learner, Socioeconomically Disadvantaged, Students with Disabilities, Hispanic, and White significant subgroups, Juan Lagunas Soria School will continue addressing students' behavioral needs through the implementation of a progressive discipline policy in order to minimize the need for student suspension.

Classroom teachers will closely monitor and document student behavior throughout the instructional day and across a variety of contexts, including the Distance Learning context and more traditional classroom, playground, cafeteria, hallways, bathrooms, ingress, and egress contexts when students return back to school for in-person instruction. Classroom teachers will continue to maintain open lines of communication with parents to inform parents of behaviors that negatively impact the safe, positive learning environment within the school. The school will communicate to Spanish-speaking parents in their primary language to ensure parents have a good understanding of their child's behavior at school.

Infractions during Distance Learning will be communicated by classroom teachers to school site administrators electronically. When students return to in-person instruction on campus, minor infractions will be documented using a student behavior monitoring log. Major infractions will result in an office discipline referral, which will be followed up by the school assistant principal and/or principal. Consequences for student misbehavior will align to the severity of the infraction and will take into consideration the context of the infraction, the historical background of the student, as well as the students' social/emotional/academic/intellectual needs. For most cases, restorative practices will be provided to address the social/emotional harm caused or created by the infraction. The discipline process will emphasize student accountability, self-reflection, and problem solving in order to redirect student behavior and build positive outcomes with peers.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Throughout the 2020-21 school year, Juan Lagunas Soria School will emphasize building rigor across all grade levels, while scaffolding instruction to strengthen students' skills on grade-level standards in both Sheltered English Instruction (SEI) and Dual Language Immersion (DLI) instructional settings. Students are encouraged, supported, recognized, and rewarded for meeting their Accelerated Reader trimester goals to build their literacy skills and reach their reading potential. Teachers will also concentrate on building students' writing ability across all core content areas to promote critical thinking and to better equip students with the skills required to meet expectations of state-wide summative assessments. Finally, teachers will continue focusing on implementing Mathematical Mindset strategies across all grade levels, enabling students to strengthen their academic vocabulary and reasoning skills in the area of Mathematics.

Within a Professional Learning Community context, grade-level teams will collaborate frequently to analyze data from both formative (Star 360 Early Literacy/Reading/Math, CAASPP Interim Assessment Blocks, Writing prompts, ELD assessments, and curriculum-embedded assessments) and summative (CAASPP, ELPAC) assessments to monitor student achievement and identify key learning targets within the Common Core State Standards to target and modify instruction. Utilizing a Multi-Tiered System of Supports model approach, ongoing monitoring of formative and summative assessment data will also enable grade-level teams to identify, through the Coordination of Services Team (CST) and Student Success Team (SST) process, students in need of intensive, evidence-based small group intervention provided by the classroom teacher and/or the Intervention Support Providers (ISPs) throughout the instructional day.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Budget expenditures are aligned with the intended implementation of this school plan. Juan Lagunas Soria School is continuing to focus on building strong academic foundations for all students while tightening and being more purposeful and systemic with evidence-based teacher collaboration and instructional strategies.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Analysis of the 2019-20 SPSA and school achievement outcomes resulted in the need for improved, systemic, purposeful, and evidence-based collaboration; an increased number of common formative assessment benchmarks to more closely progress monitor student achievement; an emphasis on academic writing across all core subject areas; and continued focus on integrating Mathematical Mindset strategies to promote students' critical thinking and problem solving skills in the area of Mathematics. As a result of the current Distance Learning context, additional professional development for staff for integrating a new Learning Management System (e.g., Canvas) and improving instructional strategies for engaging students in daily virtual instruction was budgeted for within this school plan.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Juan Lagunas Soria School will continue to build on its success to address students' and family's challenges to attend school daily, especially during the current Distance Learning context. School staff, including the Outreach Coordinator, School Counselor, Attendance Tech, Assistant Principal and Principal, will meet regularly to monitor student attendance, identify students at-risk of being identified as chronically absent, and develop and implement appropriate and meaningful supports, services, and incentives to increase students' positive attendance. School staff will provide support to families and will recommend and/or refer students or parents to Ventura County-based social services, counseling, or other community-based services or programs with the intention of offering families support to address barriers which negatively impact student attendance.

In order to address our students' social, emotional, and behavioral needs, students are identified through the CST and SST process to receive individual and/or small group counseling services provided by the school counselor. Our progressive discipline matrix assists teachers and administration with clear guidelines for responding to student behavior at both the classroom and school levels. The Positive Behavior Intervention and Support model concentrating on STOIC (Structure, Teach expectations, Observe and monitor, Interact positively, and Correct fluently) guides all staff in providing a proactive and positive approach to managing student behavior both in

and out of the classroom learning environment, whether this be in person or virtual. Our PBIS/School Safety Team meets on an ongoing basis to analyze student discipline data, identify areas of focus, and provide recommendations to school staff in order to strengthen our school's positive learning environment. Trimester Awards Assemblies honor and recognize the hard work and positive choices students make by rewarding students with praise, recognition, and incentives.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Budget expenditures align to the intended implementation of this school plan. Juan Lagunas Soria School is continuing to focus on building strong foundations in social and emotional learning supports, while ensuring a safe and positive school climate for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on the analysis of the 2019-20 SPSA, chronic absenteeism and suspension rate data, the Juan Lagunas Soria School PBIS committee will analyze student discipline data more frequently to identify areas of focus and provide recommendations to school staff in order to strengthen our school's positive learning environment. The committee will also collaborate with school staff to develop learning activities that reinforce school-wide expectations for student behavior across all areas of the campus, including the playground, hallways, bathrooms, cafeteria, and front office. Students will be able to access all areas of the campus once it is safe to do so.

Annual Review

SPSA Year Reviewed: 2019-20

Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal, an analysis is not required and this section may be deleted.

ANALYSIS

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Parent and family engagement is a critical factor to ensure students' educational success. Our English Learner Advisory Committee (ELAC), Parent Teacher Association (PTA), and School Site Council (SSC), in coordination with our Outreach Coordinator, offer and encourage parents to become active participants in their children's education by participating in the meaningful and productive opportunities offered, to the extent possible during the current Distance Learning context. The school's Parent Involvement Policy provides clear guidelines for parents to serve as volunteers in classroom and school activities. Our Back to School Night, Parent Orientations, and Parent Nights focusing on Literacy, Math, and/or the Strand Focus further support and foster parental engagement. Throughout the 2020-21 school year, parents will be invited to attend Parent/Teacher Conferences to collaborate with their child and their child's teacher to review achievement data and identify strategies for improving student success. Parents will also be encouraged to attend Student Success Team meetings if their child has been identified as significantly below grade-level standards or is exhibiting significant needs in social, emotional, and/or behavioral areas. Parent training and education will be coordinated and provided by the school's Outreach Coordinator to improve parents' ability to support their children's learning. Fiscal resources provided by the Juan Lagunas Soria School PTA assist in supporting standards-based field trips, providing supplemental instructional resources for classroom teachers, and supporting student programs and activities to enhance students' learning experiences.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

Budget expenditures are aligned with the intended implementation of this school plan. Throughout the 2020-21 school year, Juan Lagunas Soria School will continue to focus on building strong parent and family engagement to support student success for all students.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

Based on analysis of the 2019-20 SPSA and school outcomes, Juan Lagunas Soria School staff will focus on fostering creative and alternative ways for parents to get involved and support their child's Distance Learning. The school will also provide supports and/or training to parents to increase their knowledge and skills with utilizing technology, the district-adopted Learning Management System (e.g., Canvas), and supplemental instructional applications and subscriptions that teachers are using to support Distance Learning instruction.

Budget Summary

Complete the table below. Schools may include additional information. Adjust the table as needed. The Budget Summary is required for schools funded through the ConApp, and/or that receive funds from the LEA for Comprehensive Support and Improvement (CSI).

Budget Summary

| Description | Amount |
|---|--------------|
| Total Funds Provided to the School Through the Consolidated Application | \$80756.00 |
| Total Federal Funds Provided to the School from the LEA for CSI | \$0 |
| Total Funds Budgeted for Strategies to Meet the Goals in the SPSA | \$279,383.00 |

Other Federal, State, and Local Funds

List the additional Federal programs that the school is including in the schoolwide program. Adjust the table as needed. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

| Federal Programs | Amount (\$) |

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 1 Other School Staff
- 5 Parent or Community Members

| Name of Members | Role |
|-----------------------|----------------------------|
| Dr. Andres Santamaria | Principal |
| Jovan Mosby | Classroom Teacher |
| Alec Hess | Classroom Teacher |
| GinaMarie Alvarez | Classroom Teacher |
| Maria Magana | Other School Staff |
| Eva Gomez | Parent or Community Member |
| Jeannette Ramirez | Parent or Community Member |
| Joaquin Aboytes | Parent or Community Member |
| Jessica Carrillo | Parent or Community Member |
| Alvaro Melgoza | Parent or Community Member |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

| Signature | Committee or Advisory Group Name |
|---|------------------------------------|
|  | School Site Council |
|  | English Learner Advisory Committee |

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on October 15, 2020.

Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.

For programmatic or policy questions regarding Title I schoolwide planning, please contact the local educational agency, or the CDE's Title I Policy and Program Guidance Office at TITLEI@cde.ca.gov.

For questions or technical assistance related to meeting federal school improvement planning requirements (for CSI, TSI, and ATSI), please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Purpose and Description

Schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI) must respond to the following prompts. A school that has not been identified for CSI, TSI, or ATSI may delete the Purpose and Description prompts.

Purpose

Briefly describe the purpose of this plan by selecting from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Description

Briefly describe the school's plan for effectively meeting ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Stakeholder Involvement

Meaningful involvement of parents, students, and other stakeholders is critical to the development of the SPSA and the budget process. Schools must share the SPSA with school site-level advisory groups, as applicable (e.g., English Learner Advisory committee, student advisory groups, tribes and tribal organizations present in the community, as appropriate, etc.) and seek input from these advisory groups in the development of the SPSA.

The Stakeholder Engagement process is an ongoing, annual process. Describe the process used to involve advisory committees, parents, students, school faculty and staff, and the community in the development of the SPSA and the annual review and update.

[This section meets the requirements for TSI and ATSI.]

[When completing this section for CSI, the LEA shall partner with the school in the development and implementation of this plan.]

Resource Inequities

Schools eligible for CSI or ATSI must identify resource inequities, which may include a review of LEA- and school-level budgeting as a part of the required needs assessment. Identified resource inequities must be addressed through implementation of the CSI or ATSI plan. Briefly identify and describe any resource inequities identified as a result of the required needs assessment and summarize how the identified resource inequities are addressed in the SPSA.

[This section meets the requirements for CSI and ATSI. If the school is not identified for CSI or ATSI this section is not applicable and may be deleted.]

Goals, Strategies, Expenditures, & Annual Review

In this section a school provides a description of the annual goals to be achieved by the school. This section also includes descriptions of the specific planned strategies/activities a school will take to meet the identified goals, and a description of the expenditures required to implement the specific strategies and activities.

Goal

State the goal. A goal is a broad statement that describes the desired result to which all strategies/activities are directed. A goal answers the question: What is the school seeking to achieve?

It can be helpful to use a framework for writing goals such as the S.M.A.R.T. approach. A S.M.A.R.T. goal is one that is **S**pecific, **M**easurable, **A**chievable, **R**ealistic, and **T**ime-bound. A level of specificity is needed in order to measure performance relative to the goal as well as to assess whether it is reasonably achievable. Including time constraints, such as milestone dates, ensures a realistic approach that supports student success.

A school may number the goals using the “Goal #” for ease of reference.

[When completing this section for CSI, TSI, and ATSI, improvement goals shall align to the goals, actions, and services in the LEA LCAP.]

Identified Need

Describe the basis for establishing the goal. The goal should be based upon an analysis of verifiable state data, including local and state indicator data from the California School Dashboard (Dashboard) and data from the School Accountability Report Card, including local data voluntarily collected by districts to measure pupil achievement.

[Completing this section fully addresses all relevant federal planning requirements]

Annual Measurable Outcomes

Identify the metric(s) and/or state indicator(s) that the school will use as a means of evaluating progress toward accomplishing the goal. A school may identify metrics for specific student groups. Include in the baseline column the most recent data associated with the metric or indicator available at the time of adoption of the SPSA. The most recent data associated with a metric or indicator includes data reported in the annual update of the SPSA. In the subsequent Expected Outcome column, identify the progress the school intends to make in the coming year.

[When completing this section for CSI the school must include school-level metrics related to the metrics that led to the school’s identification.]

[When completing this section for TSI/ATSI the school must include metrics related to the specific student group(s) that led to the school’s identification.]

Strategies/Activities

Describe the strategies and activities being provided to meet the described goal. A school may number the strategy/activity using the “Strategy/Activity #” for ease of reference.

Planned strategies/activities address the findings of the needs assessment consistent with state priorities and resource inequities, which may have been identified through a review of the local educational agency’s budgeting, its local control and accountability plan, and school-level budgeting, if applicable.

[When completing this section for CSI, TSI, and ATSI, this plan shall include evidence-based interventions and align to the goals, actions, and services in the LEA LCAP.]

[When completing this section for CSI and ATSI, this plan shall address through implementation, identified resource inequities, which may have been identified through a review of LEA- and school-level budgeting.]

Students to be Served by this Strategy/Activity

Indicate in this box which students will benefit from the strategies/activities by indicating “All Students” or listing one or more specific student group(s) to be served.

[This section meets the requirements for CSI.]

[When completing this section for TSI and ATSI, at a minimum, the student groups to be served shall include the student groups that are consistently underperforming, for which the school received the TSI or ATSI designation. For TSI, a school may focus on all students or the student group(s) that led to identification based on the evidence-based interventions selected.]

Proposed Expenditures for this Strategy/Activity

For each strategy/activity, list the amount(s) and funding source(s) for the proposed expenditures for the school year to implement these strategies/activities. Specify the funding source(s) using one or more of the following: LCFF, Federal (if Federal, identify the Title and Part, as applicable), Other State, and/or Local.

Proposed expenditures that are included more than once in a SPSA should be indicated as a duplicated expenditure and include a reference to the goal and strategy/activity where the expenditure first appears in the SPSA. Pursuant to Education Code, Section 64001(g)(3)(C), proposed expenditures, based on the projected resource allocation from the governing board or governing body of the LEA, to address the findings of the needs assessment consistent with the state priorities including identifying resource inequities which may include a review of the LEA’s budgeting, its LCAP, and school-level budgeting, if applicable.

[This section meets the requirements for CSI, TSI, and ATSI.]

[NOTE: Federal funds for CSI shall not be used in schools identified for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Annual Review

In the following Analysis prompts, identify any material differences between what was planned and what actually occurred as well as significant changes in strategies/activities and/ or expenditures from the prior year. This annual review and analysis should be the basis for decision-making and updates to the plan.

Analysis

Using actual outcome data, including state indicator data from the Dashboard, analyze whether the planned strategies/activities were effective in achieving the goal. Respond to the prompts as instructed. Respond to the following prompts relative to this goal. If the school is in the first year of implementing the goal the Annual Review section is not required and this section may be deleted.

- Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.
- Briefly describe any major differences between either/or the intended implementation or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.
- Describe any changes that will be made to the goal, expected annual measurable outcomes, metrics/indicators, or strategies/activities to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard, as applicable. Identify where those changes can be found in the SPSA.

[When completing this section for CSI, TSI, or ATSI, any changes made to the goals, annual measurable outcomes, metrics/indicators, or strategies/activities, shall meet the CSI, TSI, or ATSI planning requirements. CSI, TSI, and ATSI planning requirements are listed under each section of the Instructions. For example, as a result of the Annual Review and Update, if changes are made to a goal(s), see the Goal section for CSI, TSI, and ATSI planning requirements.]

Budget Summary

In this section a school provides a brief summary of the funding allocated to the school through the ConApp and/or other funding sources as well as the total amount of funds for proposed expenditures described in the SPSA. The Budget Summary is required for schools funded through the ConApp and that receive federal funds for CSI. If the school is not operating a Title I schoolwide program this section is not applicable and may be deleted.

From its total allocation for CSI, the LEA may distribute funds across its schools that meet the criteria for CSI to support implementation of this plan. In addition, the LEA may retain a portion of its total allocation to support LEA-level expenditures that are directly related to serving schools eligible for CSI.

Budget Summary

A school receiving funds allocated through the ConApp should complete the Budget Summary as follows:

- Total Funds Provided to the School Through the Consolidated Application: This amount is the total amount of funding provided to the school through the ConApp for the school year. The school year means the fiscal year for which a SPSA is adopted or updated.
- Total Funds Budgeted for Strategies to Meet the Goals in the SPSA: This amount is the total of the proposed expenditures from all sources of funds associated with the strategies/activities reflected in the SPSA. To the extent strategies/activities and/or proposed expenditures are listed in the SPSA under more than one goal, the expenditures should be counted only once.

A school receiving federal funds for CSI should complete the Budget Summary as follows:

- Total Federal Funds Provided to the School from the LEA for CSI: This amount is the total amount of funding provided to the school from the LEA.

[NOTE: Federal funds for CSI shall not be used in schools eligible for TSI or ATSI. In addition, funds for CSI shall not be used to hire additional permanent staff.]

Appendix A: Plan Requirements

Schoolwide Program Requirements

This School Plan for Student Achievement (SPSA) template meets the requirements of a schoolwide program plan. The requirements below are for planning reference.

A school that operates a schoolwide program and receives funds allocated through the ConApp is required to develop a SPSA. The SPSA, including proposed expenditures of funds allocated to the school through the ConApp, must be reviewed annually and updated by the SSC. The content of a SPSA must be aligned with school goals for improving student achievement.

Requirements for Development of the Plan

- I. The development of the SPSA shall include both of the following actions:
 - A. Administration of a comprehensive needs assessment that forms the basis of the school's goals contained in the SPSA.
 1. The comprehensive needs assessment of the entire school shall:
 - a. Include an analysis of verifiable state data, consistent with all state priorities as noted in Sections 52060 and 52066, and informed by all indicators described in Section 1111(c)(4)(B) of the federal Every Student Succeeds Act, including pupil performance against state-determined long-term goals. The school may include data voluntarily developed by districts to measure pupil outcomes (described in the Identified Need); and
 - b. Be based on academic achievement information about all students in the school, including all groups under §200.13(b)(7) and migratory children as defined in section 1309(2) of the ESEA, relative to the State's academic standards under §200.1 to—
 - i. Help the school understand the subjects and skills for which teaching and learning need to be improved; and
 - ii. Identify the specific academic needs of students and groups of students who are not yet achieving the State's academic standards; and
 - iii. Assess the needs of the school relative to each of the components of the schoolwide program under §200.28.
 - iv. Develop the comprehensive needs assessment with the participation of individuals who will carry out the schoolwide program plan.
 - v. Document how it conducted the needs assessment, the results it obtained, and the conclusions it drew from those results.
 - B. Identification of the process for evaluating and monitoring the implementation of the SPSA and progress towards accomplishing the goals set forth in the SPSA (described in the Expected Annual Measurable Outcomes and Annual Review and Update).

Requirements for the Plan

- II. The SPSA shall include the following:
 - A. Goals set to improve pupil outcomes, including addressing the needs of student groups as identified through the needs assessment.

- B. Evidence-based strategies, actions, or services (described in Strategies and Activities)
1. A description of the strategies that the school will be implementing to address school needs, including a description of how such strategies will--
 - a. provide opportunities for all children including each of the subgroups of students to meet the challenging state academic standards
 - b. use methods and instructional strategies that:
 - i. strengthen the academic program in the school,
 - ii. increase the amount and quality of learning time, and
 - iii. provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.
 - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, so that all students demonstrate at least proficiency on the State's academic standards through activities which may include:
 - i. strategies to improve students' skills outside the academic subject areas;
 - ii. preparation for and awareness of opportunities for postsecondary education and the workforce;
 - iii. implementation of a schoolwide tiered model to prevent and address problem behavior;
 - iv. professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data; and
 - v. strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
- C. Proposed expenditures, based on the projected resource allocation from the governing board or body of the local educational agency (may include funds allocated via the ConApp, federal funds for CSI, any other state or local funds allocated to the school), to address the findings of the needs assessment consistent with the state priorities, including identifying resource inequities, which may include a review of the LEAs budgeting, it's LCAP, and school-level budgeting, if applicable (described in Proposed Expenditures and Budget Summary). Employees of the schoolwide program may be deemed funded by a single cost objective.
- D. A description of how the school will determine if school needs have been met (described in the Expected Annual Measurable Outcomes and the Annual Review and Update).
1. Annually evaluate the implementation of, and results achieved by, the schoolwide program, using data from the State's annual assessments and other indicators of academic achievement;
 2. Determine whether the schoolwide program has been effective in increasing the achievement of students in meeting the State's academic standards, particularly for those students who had been furthest from achieving the standards; and
 3. Revise the plan, as necessary, based on the results of the evaluation, to ensure continuous improvement of students in the schoolwide program.

- E. A description of how the school will ensure parental involvement in the planning, review, and improvement of the schoolwide program plan (described in Stakeholder Involvement and/or Strategies/Activities).
- F. A description of the activities the school will include to ensure that students who experience difficulty attaining proficient or advanced levels of academic achievement standards will be provided with effective, timely additional support, including measures to
 - 1. Ensure that those students' difficulties are identified on a timely basis; and
 - 2. Provide sufficient information on which to base effective assistance to those students.
- G. For an elementary school, a description of how the school will assist preschool students in the successful transition from early childhood programs to the school.
- H. A description of how the school will use resources to carry out these components (described in the Proposed Expenditures for Strategies/Activities).
- I. A description of any other activities and objectives as established by the SSC (described in the Strategies/Activities).

Plan Requirements for School to Meet Federal School Improvement Planning Requirements

For questions or technical assistance related to meeting Federal School Improvement Planning Requirements, please contact the CDE's School Improvement and Support Office at SISO@cde.ca.gov.

Comprehensive Support and Improvement

The LEA shall partner with stakeholders (including principals and other school leaders, teachers, and parents) to locally develop and implement the CSI plan for the school to improve student outcomes, and specifically address the metrics that led to eligibility for CSI (Stakeholder Involvement).

The CSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable);
2. Include evidence-based interventions (Strategies/Activities, Annual Review and Update, as applicable) (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" at <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>);
3. Be based on a school-level needs assessment (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
4. Identify resource inequities, which may include a review of LEA- and school-level budgeting, to be addressed through implementation of the CSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities; and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(A), 1003(i), 1111(c)(4)(B), and 1111(d)(1) of the ESSA.

Targeted Support and Improvement

In partnership with stakeholders (including principals and other school leaders, teachers, and parents) the school shall develop and implement a school-level TSI plan to improve student outcomes for each subgroup of students that was the subject of identification (Stakeholder Involvement).

The TSI plan shall:

1. Be informed by all state indicators, including student performance against state-determined long-term goals (Goal, Identified Need, Expected Annual Measurable Outcomes, Annual Review and Update, as applicable); and
2. Include evidence-based interventions (Planned Strategies/Activities, Annual Review and Update, as applicable). (For resources related to evidence-based interventions, see the U.S. Department of Education's "Using Evidence to Strengthen Education Investments" <https://www2.ed.gov/policy/elsec/leg/essa/guidanceuseseseinvestment.pdf>.)

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B) and 1111(d)(2) of the ESSA.

Additional Targeted Support and Improvement

A school identified for ATSI shall:

1. Identify resource inequities, which may include a review of LEA- and school-level budgeting, which will be addressed through implementation of its TSI plan (Goal, Identified Need, Expected Annual Measurable Outcomes, Planned Strategies/Activities, and Annual Review and Update, as applicable).

Authority Cited: Sections 1003(e)(1)(B), 1003(i), 1111(c)(4)(B), and 1111(d)(2)(c) of the ESSA.

Single School Districts and Charter Schools Identified for School Improvement

Single school districts (SSDs) or charter schools that are identified for CSI, TSI, or ATSI, shall develop a SPSA that addresses the applicable requirements above as a condition of receiving funds (EC Section 64001[a] as amended by Assembly Bill [AB] 716, effective January 1, 2019).

However, a SSD or a charter school may streamline the process by combining state and federal requirements into one document which may include the local control and accountability plan (LCAP) and all federal planning requirements, provided that the combined plan is able to demonstrate that the legal requirements for each of the plans is met (EC Section 52062[a] as amended by AB 716, effective January 1, 2019).

Planning requirements for single school districts and charter schools choosing to exercise this option are available in the LCAP Instructions.

Authority Cited: EC sections 52062(a) and 64001(a), both as amended by AB 716, effective January 1, 2019.

EDUCATION FOR HOMELESS CHILDREN**Definitions**

Homeless *students* means students who lack a fixed, regular, and adequate nighttime residence and includes: (Education Code 48852.7; 42 USC 11434a)

1. ~~Children and youths~~ *Students* who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals ~~or are awaiting foster care placement.~~

(cf. 6173.1 - Education for Foster Youth)

2. ~~Children and youths~~ *Students* who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as regular sleeping accommodations for human beings
3. ~~Children and youths~~ *Students* who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings
4. Migratory children who qualify as homeless because they are living in conditions described in items #1-3 above

Unaccompanied youth includes youth who are not in the physical custody of a parent or guardian. (20 USC 11434a)

School of origin means the school that the homeless student attended when permanently housed or the school in which he/she was last enrolled, including a preschool. If the school the homeless student attended when permanently housed is different from the school in which he/she was last enrolled, or if there is some other school that he/she attended within the preceding 15 months and with which he/she is connected, the district liaison shall determine, in consultation with and with the agreement of the homeless student and the person holding the right to make educational decisions for the student, and in the best interests of the homeless student, which school shall be deemed the school of origin. (Education Code 48852.7; 42 USC 11432)

Best interest means that, in making educational and school placement decisions for a homeless student, consideration is given to, among other factors, educational stability, the opportunity to be educated in the least restrictive educational setting necessary to achieve academic progress, and the student's access to academic resources, services, and extracurricular and enrichment activities that are available to all district students. (Education Code 48850, 48853; 42 USC 11432)

EDUCATION FOR HOMELESS CHILDREN (continued)

District Liaison

The Superintendent designates the following staff person as the district liaison for homeless students: (42 USC 11432)

(cf. 5141.31 - Immunizations)

(cf. 5141.32 - Health Screening for School Entry)

4. ***Has missed application or enrollment deadlines during any period of homelessness***

The principal or designee shall immediately contact the school last attended by the student to obtain the relevant records. If the student needs to obtain immunizations or does not possess immunization or other required health records, the principal or designee shall refer the parent/guardian to the district liaison for homeless students. The district liaison shall assist the parent/guardian, ***or the student if he/she is an unaccompanied youth***, in obtaining the necessary immunizations, screenings, or records for the student. (42 USC 11432)

If the student is placed at a school other than his/her school of origin or the school requested by his/her parent/guardian or an unaccompanied youth, the Superintendent or designee shall provide the parent/guardian or the unaccompanied youth with a written explanation of the decision along with a statement regarding the right to appeal the placement decision. (42 USC 11432)

The student may continue attending his/her school of origin for the duration of the homelessness. (Education Code 48852.7; 42 USC 11432)

To ensure that the homeless student has the benefit of matriculating with his/her peers in accordance with the established feeder patterns, the following shall apply: (Education Code 48852.7; 42 USC 11432)

1. ***If the student is transitioning between grade levels, he/she shall be allowed to continue in the same attendance area.***

EDUCATION FOR HOMELESS CHILDREN (continued)

2. *If the student is transitioning to a middle school or high school, and the school designated for matriculation is in another school district, he/she shall be allowed to continue to the school designated for matriculation in that district.*

If the student's status changes before the end of the school year so that he/she is no longer homeless, he/she shall be allowed to stay in the school of origin:

(Education Code 48852.7)

1. *Through the duration of the school year if he/she is in grades K-8*
2. *Through graduation if he/she is in high school*

Enrollment Dispute Resolution Process Resolving Enrollment Disputes

If a dispute arises over *student eligibility*, school selection, or enrollment in a particular school, ~~the student shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute~~ *the matter shall be referred to the district liaison, who shall carry out the dispute resolution process as expeditiously as possible.* (42 USC 11432)

The parent/guardian *or unaccompanied youth* shall be provided with a written explanation of ~~any the placement decisions, including an explanation~~ *related to eligibility, school selection, or enrollment and the right* of the parent/guardian's ~~right~~ *or unaccompanied youth* to appeal ~~such~~ the decisions. (42 USC 11432)

~~The written explanation shall be complete, as brief as possible, simply stated and provided in language that the parent/guardian or student can understand. The explanation may include contact information for the district liaison, a description of the district's decision, notice of the right to enroll in the school of choice pending resolution of the dispute, notice that enrollment includes full participation in all school activities, and notice of the right to appeal the decision to the county office of education and, if the dispute remains unresolved, to the California Department of Education.~~

The written explanation shall include:

1. *A description of the action proposed or refused by the district*
2. *An explanation of why the action is proposed or refused*
3. *A description of any other options the district considered and the reasons that any other options were rejected*
4. *A description of any other factors relevant to the district's decision and information related to the eligibility or best interest determination including the facts, witnesses, and evidence relied upon and their sources*

EDUCATION FOR HOMELESS CHILDREN (continued)

5. *Appropriate timelines to ensure any relevant deadlines are not missed*
6. *Contact information for the district liaison and state coordinator, and a brief description of their roles*

The written explanation shall be complete, as brief as possible, simply stated, and provided in language that the parent/guardian or student can understand.

The district liaison may use an informal process as an alternative to formal dispute resolution procedures, provided that the parents/guardians or unaccompanied youth have access to the more formal process if informal resolution is not successful in resolving the matter.

In working with a student's parents/guardians or unaccompanied youth to resolve an enrollment dispute, the district liaison shall:

1. *Inform them that they may provide written and/or oral documentation to support their position*
2. *Inform them that they may seek the assistance of social services, advocates, and/or service providers in having the dispute resolved*
3. *Provide them a simple form that they may use and turn in to the school to initiate the dispute resolution process*
4. *Provide them a copy of the dispute form they submit for their records*
5. *Provide them the outcome of the dispute for their records*

If a parent/guardian *or unaccompanied youth* disagrees with the liaison's enrollment decision, he/she may appeal the decision to the Superintendent. The Superintendent shall make a determination within five working days.

If the parent/guardian chooses to appeal the district's placement decision, the district liaison shall forward all written documentation and related paperwork to the homeless liaison at the county office of education.

Pending final resolution of the dispute, including all available appeals, the student shall be immediately enrolled in the school in which enrollment is sought and shall be allowed to attend classes and participate fully in school activities. (42 USC 11432, 11434a)

EDUCATION FOR HOMELESS CHILDREN (continued)

Transportation

The district shall provide transportation for a homeless student to and from his/her school of origin when the student is residing within the district and the parent/guardian, or the district

liaison in the case of an unaccompanied youth, requests that such transportation be provided. If the student moves outside of district boundaries, but continues to attend his/her school of origin within this district, the Superintendent or designee shall consult with the superintendent of the district in which the student is now residing to agree upon a method to apportion the responsibility and costs of the transportation. (42 USC 11432)

(cf. 3250 - Transportation Fees)

(cf. 3541 - Transportation Routes and Services)

The district shall not be obligated to provide transportation to students who continue attending their school of origin after they cease to be homeless, unless the formerly homeless student has an individualized education program that includes transportation as a necessary related service for the student. (Education Code 48852.7)

Eligibility for Extracurricular Activities

A homeless student who enrolls in any district school shall be immediately deemed to meet all residency requirements for participation in interscholastic sports or other extracurricular activities. (Education Code 48850)

(cf. 6145 - Extracurricular and Cocurricular Activities)

(cf. 6145.2 - Athletic Competition)

Notification and Complaints

Information regarding the educational rights of homeless students, as specified in Education Code 51225.1 and 51225.2, shall be included in the annual uniform complaint procedures notification distributed to students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622. (Education Code 51225.1, 51225.2)

EDUCATION FOR HOMELESS CHILDREN

The ~~Board of Trustees~~ Governing Board desires to ensure that homeless students have access to the same free and appropriate public education provided to other students within the district. The district shall provide homeless students with access to education and other services necessary for them to meet the same challenging academic standards as other students.

(cf. 6011 - Academic Standards)

The Superintendent or designee shall identify and remove any barriers to the identification and enrollment of homeless students and to the retention of homeless students due to absences or outstanding fees or fines. (42 USC 11432)

(cf. 3250 - Transportation Fees)

(cf. 3260 - Fees and Charges)

(cf. 5113.1 - Chronic Absence and Truancy)

When there are at least 15 homeless students in the district or a district school, the district's local control and accountability plan (LCAP) shall include goals and specific actions to improve student achievement and other outcomes of homeless students. (Education Code 52052, 52060)

(cf. 0460 - Local Control and Accountability Plan)

The Superintendent or designee shall designate an appropriate staff person to serve as a liaison for homeless children and youths. The district liaison shall fulfill the duties specified in 42 USC 11432 to assist in identifying and supporting homeless students to succeed in school.

In order to identify district students who are homeless, the Superintendent or designee may give a housing questionnaire to all parents/guardians during school registration, make referral forms readily available, include the district liaison's contact information on the district and school web sites, provide materials in a language easily understood by families and students, provide school staff with professional development on the definition and signs of homelessness, and contact appropriate local agencies to coordinate referrals for homeless children and youth and unaccompanied youth.

(cf. 1113 - District and School Web Sites)

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

Information about a homeless student's living situation shall be considered part of a student's educational record, subject to the Family Educational Rights and Privacy Act and shall not be deemed to be directory information as defined in 20 USC 1232g. (42 USC 11432)

EDUCATION FOR HOMELESS CHILDREN (continued)

(cf. 5125 - Student Records)

(cf. 5125.1 - Release of Directory Information)

The Superintendent or designee shall ensure that placement decisions for homeless students are based on the student's best interest as defined in law and administrative regulation.

Each homeless student shall be provided services that are comparable to services offered to other students in the school, including, but not limited to, transportation, educational programs for which the student meets the eligibility criteria (such as federal Title I services or similar state or local programs, programs for students with disabilities, and educational programs for English learners), career and technical education programs, programs for gifted and talented students, and school nutrition programs. (42 USC 11432)

(cf. 3550 - Food Service/Child Nutrition Program)

(cf. 3553 - Free and Reduced Price Meals)

(cf. 5148.2 - Before/After School Programs)

(cf. 5148.3 - Preschool/Early Childhood Education)

(cf. 6159 - Individualized Education Program)

(cf. 6164.2 - Guidance/Counseling Services)

(cf. 6171 - Title I Programs)

(cf. 6172 - Gifted and Talented Student Program)

(cf. 6174 - Education for English Language Learners)

(cf. 6177 - Summer Learning Programs)

(cf. 6178 - Career and Technical Education)

(cf. 6179 - Supplemental Instruction)

Homeless students shall not be segregated into a separate school or program based on their status as homeless and shall not be stigmatized in any way. *However, the Superintendent or designee may separate homeless students on school grounds as necessary for short periods of time for health and safety emergencies or to provide temporary, special, and supplementary services to meet the unique needs of homeless students. (42 USC 11432, 11433)*

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 3553 - Free and Reduced Price Meals)

The Superintendent or designee shall coordinate with other agencies and entities to ensure that homeless children and youth are promptly identified, ensure that homeless students have access to and are in reasonable proximity to available education and related support services, and raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness. Toward these ends, the Superintendent or designee shall collaborate with local social services agencies, other agencies or entities providing services to homeless children and youth, and, if applicable, transitional housing facilities. In addition, the Superintendent or designee shall coordinate transportation, transfer of school records, and other interdistrict activities with other local educational agencies. As necessary, the Superintendent or designee shall coordinate, within the district and with other involved local educational agencies, services for homeless students and services for students with disabilities. (42 USC 11432)

EDUCATION FOR HOMELESS CHILDREN (continued)

(cf. 1020 - Youth Services)

District liaisons and other appropriate staff shall participate in professional development and other technical assistance activities to assist them in identifying and meeting the needs of homeless students and to provide training on the definitions of terms related to homelessness. (42 USC 11432)

At least annually, the Superintendent or designee shall report to the Board on outcomes for homeless students, which may include, but are not limited to, school attendance, student achievement test results, promotion and retention rates by grade level, graduation rates, suspension/expulsion rates, and other outcomes related to any goals and specific actions identified in the LCAP. Based on the evaluation data, the district shall revise its strategies as needed to better support the education of homeless students.
