Boyle County Middle School

We live in a digital society and Boyle County Middle School understands the importance of being a **responsible digital citizen**. BCMS is utilizing the DDL (Digital Driver's License) to ensure that students are learning how to become responsible digital citizens. This is a **requirement** to be a full-time user of the Chromebook. You will only have limited Internet access until you gain your license. Any student that has not passed the required sections with an 80% will have Level 1 Internet access and will be a "day user" of the Chromebook.

Directions

1. Go to the 'Students' tab on the Boyle County District website 'Digital Driver's License' or http://otis.coe.uky.edu/DDL/launch.php and click on "sign-in with Google".
2. Fill out all required fields.
3. The values are as follows:

   Graduation Year: If you are unsure of your graduation year please look on the bottom of your Chromebook

   District: Boyle County

   School: Boyle County Middle School
4. Check the box, "I am not a Robot" and click register.
5. Select Digital Citizenship to work on.
6. You must complete the following cases (the required "Prove-It" sections of each of these cases must be passed with a minimum of 80%).

   (K-8) Protect Yourself/Protect Others

   (K-8) Respect Yourself/Respect Others

   Digital Law, Rights & Responsibilities

   The Cumulative DDL Exam
7. When you earn your license, your advisor will be notified, your access rights will be increased, and you will become eligible to be a "take home" user.
