**PROPEL**  
ANDREW STREET High School<sup>SM</sup>  
BRADDOCK HILLS High School<sup>SM</sup>  
MONTOUR High School<sup>SM</sup>

Propel High Schools are designed to build upon the foundation of academic excellence in our K-8 classrooms by ensuring all scholars have the necessary learning experiences for post-secondary success. From our rigorous curriculum, including Advanced Placement courses, to our individualized approach to learning, we are committed to ensuring equity for all scholars. Scholars are exposed to culturally relevant curricula, science, technology, and math integrated learning, financial literacy, and social-emotional wellness supports. Our program provides career preparation in various fields, including computer science, manufacturing, and nursing. A partnership with local career and technology centers allows scholars to develop the skills, work habits, and aptitude necessary for employment in occupational areas of technology, business, marketing and distribution, and trade and industry.

The Senior Expedition, Propel's capstone experience, encompasses a full-year journey combining deep learning on personal interest, community-based experiences, and post-secondary exploration. Upon graduation, scholars are ready for their next step whether it be a direct-to-career opportunity, technical training, or a two- or four-year college/university.

Our strong academics are coupled with a Scholar Opportunities Program that supports scholars in exploring career and academic options. At Propel Schools, our educators redefine school so that our scholars can defy expectations.

- Hip-Hop On L.O.C.K

### Defying Expectations

Our caring educators and staff understand the importance of positive, nurturing relationships in preparing scholars for success after high school.

### Career Exploration

Propel scholars explore various high-priority career fields that include nursing, business and technology. Scholars can earn up to 20 college credits at no charge.

### Performing Arts

The innovative Propel Performing Arts Academy gives our scholars the space to create and express themselves through various art forms. Scholars are accepted into this competitive showcase through an extensive audition process.

### Athletics

Propel Athletics offers opportunities in volleyball, basketball, bowling, cheerleading track & field and football (at Propel Braddock Hills High School only) while focusing on skill development and providing scholars with the opportunity to gain valuable life lessons such as teamwork, sportsmanship and hard work.
