

AUTHORIZED RELEASE FORM

This documentation is to ensure a responsible person is home when your child is dropped off in the afternoons. If the parent or guardian is not available, they must have an Authorization Release Form submitted with the authorized person information documented. They also must have identification on them to present to the driver/monitor if they are receiving the student. If an adult is not present or the student cannot get inside the residence, the student will be returned to their assigned campus.
