

Robertson County School
Communication Team Minutes
March 18, 2015

The Robertson County Communications Team reviewed minutes from last meeting and district media release from March 16, 2015 board meeting.

Committee discussed ways to hear board members better during local board meetings. It is sometimes difficult to hear what is being said. Some suggestions were made such as speaking louder and possible microphones.

Mrs. Holly Linville is going to send an all call out to communicate to parents how the parent representative for the superintendent search screening committee will be elected.

Mr. Gifford is doing attendance goal signs to be displayed throughout the school so students are aware of attendance.

Superintendent Murray wanted to make sure that we are communicating to 1st period students how important it is to be in attendance and make roll call. Mrs. Linville has spoken with 1st period teachers and students regarding this.

Committee held discussion regarding how much communication has improved throughout the district. Positive feedback is expected from the TELL survey. The school culture is greatly improving.

Mrs. Schalch recommended that a break down on grade levels for teachers' meetings would be more beneficial.

It is very important that staff and parents be made aware of that there are things that can be communicated and some things that cannot be communicated due to confidentiality laws.

External communication has improved throughout the community as well. The Robertson County News has started coming to regular board meetings and district media releases are forwarded to the paper as well.

Superintendent Murray communicated how the district received the new school bus for anyone who had not heard yet.

Miss Teegarden would like to work with Holly and get information for a "What We Teach" instructional page for the district website.

Next meeting will be April 21, 2015 at 10:00am.
