

Physical Examinations of Students

Parents/guardians shall be encouraged to have their children physically examined prior to entering school and again prior to the fourth, seventh and tenth grades. A dental examination shall also be encouraged.

In any case where physical exercise is rather strenuous (such as physical education classes) and a student has any physical impairment whatsoever, the student may be required to present authorization for such participation from a physician or other licensed health care professional.

Students may be excused from physical education activities and from curricular requirements relating to physical education activities upon the statement from a physician or other licensed health care professional that such participation would be injurious to their health.

Teachers shall be alert to the general well being of students and shall refer any questionable situations to the school principal.
