

COUNCIL ROCK SCHOOL DISTRICT
School Health Services

Dear Parent or Guardian:

MEDICATION/TREATMENT GUIDELINES

- The Medication/Treatment Dispensing Form on the reverse side must be completed by both the prescribing licensed provider (physician, dentist) and the parent/guardian for all medication (prescription and over the counter) that must be administered during the school day. No medication will be administered without the proper completion of the Medication/Treatment dispensing form.
- Medication will be administered to a student during school hours only when such medication is needed by the student to remain in school and administration is required during school hours. If possible, prescribing licensed providers should time administration of medication to be given at home, before or after school.
- Prescription medication as well as non-prescription medications must be delivered to the school nurse in the original labeled pharmacy container or box by a parent/guardian.
- Failure to provide documentation will require the parent/guardian to be present in school to administer the medication personally.
- Under no circumstances will the first dose of an antibiotic be given at school due to the risk of an adverse reaction.
- Acetaminophen, for which the district has a standing order from the district physician, will be administered as needed to all students with the signed permission of a parent or guardian as noted on the student's emergency information form.
- Ibuprofen, for which the district has a standing order from the district physician, will be administered as needed to students in grades 7-12 with the signed permission of the parent or guardian as noted on the student's emergency information form. Ibuprofen can only be administered in grades K-6 with a signed permission for medication form from your private physician.
- In accordance with Act 187 of the school code and CRSD procedures, students requiring rescue inhalers and Epi-pens may be permitted to carry and self-administer medications with a completed Self Administration of Medication form and a competency assessment by the school nurse.
