## Non-Resident Students Oversight

1. Is your district currently a host district for a 1306 facility?

No

1. Describe the host's educational oversight to ensure students with disabilities are educated in the least restrictive environment while in the 1306 facility? (If not a host, answer as if you were.)

The district does not serve as a host district for any children's institutions. There are none located within the boundaries of the district. If there were, the IEP team would focus its discussion on program implementation in the least restrictive environment.

2. Describe the district's procedures for communicating with 1306 facilities and how the district ensures a successful transition back to school?

When the district has 1306 students residing in another school district, we work with the host LEA to ensure placement in the least restrictive environment.

## Incarcerated Students Oversight

1. Does the district have an adult correctional facility that houses juveniles within its geographical boundaries?

No

1. Describe the system of oversight the District would implement to ensure that all incarcerated students who may be eligible for special education are located, identified, evaluated and when deemed eligible, are offered a free appropriate public education (FAPE).

There are no facilities for incarcerated youth located within the boundaries of the district. If there were, we would implement the same child find procedures we have in place throughout the district to ensure that all potentially eligible students are evaluated, identified when deemed eligible, and offered a free appropriate public education if found eligible. The district would take this as its responsibility but would do so in collaboration with the child's district of residence.

## Least Restrictive Environment

1. Review the district's data for Least Restrictive Environment. Highlight areas of improvement.

The percentage of students placed outside the district is well below the state average (0.9% versus 4%) for the 2021-2022 school year. The district is above the state average for instruction within the regular education classroom for 80% or more of the day (62.2% versus 61.8%) for the 2021-2022 school year. Finally, the district is below the state average for instruction in the regular education classroom for less than 40% of the day (8.7% versus 9.9%) for the 2021-2022 school year. In the past, the district has realigned staff to allow for an elementary level and a secondary level autistic support inclusion facilitator. These two individuals are itinerant teachers with no caseloads. Their primary responsibility is to consult with regular education teachers on strategies for working with higher functioning students with autism. Through this consultation, we are able to assist teachers with helping students be successful in the regular education classroom so that there is not a need for a more restrictive setting. Through our Focused Professional Development programs, staff either voluntarily or with prompting can participate in 2 or 3-day training series. As an example, there is an ongoing 3-day program on reading assessment and interventions. On-going training and support is conducted to address inclusive practices. In addition to training for the professional staff, training is provided for support staff, including our bus monitors. Specifically, the district has worked with IU and/or PaTTAN staff for training in Indicator 13, reading instruction, School-Wide Positive Behavior Support, Inclusive Practices, and Quality Indicators of Emotional Support.

2. What universal practices does the district utilize to address the academic and social/emotional needs of all students in need of accommodations to their learning environments?

The District ensures that children with disabilities are educated to the maximum extent possible with non-disabled children through compliance with the evaluation, identification, and the IEP development process. In most cases, the district goes beyond the legal requirements to involve parents in the process and ensure that all modifications and adaptations have been exhausted prior to moving the student to a more restrictive placement. A thorough evaluation is conducted by the multi-disciplinary team to identify a child's specific needs. Programs for students are developed with all team members committed to implementing the IEP in the least restrictive environment possible.

3. Describe the academic programming and training efforts the LEA utilizes to ensure meaningful participation of students with disabilities in the general education curriculum.

Building-level and district-level administrators are involved in all meetings where there is the potential for a move to a more restrictive setting. In addition, they review the IEPs, ERs, and RRs to make sure students are receiving services in the Least Restrictive Environment. For children receiving services outside of the school district, a special education supervisor attends these meetings and ensures there is a focus on movement to a less restrictive setting as soon as possible based on the student's needs. The district's Sloan Alternative School was developed with the expectation of bringing special education students back to the school district with their needs being met through this program when appropriate. Additionally, the high school supervisors of special education who are responsible for transition services play a primary role in seeing to the transition of students from placement to placement as well as to adult life. In this role, there is the expectation that students remain in their regular school programs rather than being placed outside of the district and that those students placed outside of the district have plans for transitioning back to the district. Serving students in the least restrictive environment is one of the district's areas of pride. There is a strong commitment to the least restrictive environment mandate and educating children in inclusive settings at all levels of the district. There are numerous co-teaching opportunities in all buildings. The district employs a large number of one-to-one instructional assistants in an effort to maintain students in the regular education classroom as much as possible. Related services are integrated into the regular classroom to the maximum extent possible. The district also provides a wide variety of assistive technology to students as an accommodation to foster integration. A staff member is designated as our assistive technology specialist. This position's sole responsibility is working with teachers through the SETT process to identify

appropriate assistive technology to aid the student in the least restrictive setting. Training for staff and parents on the use of devices is also an important function of this position. In addition, 6 other technology integration specialists (Two for elementary, two for middle school, two for high school) are available to assist staff, students, and families in utilizing the online learning management systems. Use of these systems have provided additional tools and strategies for allowing more students to have easier access to the general education curriculum. The district utilizes the services of 5 full time Behavior Analysts to develop behavior intervention plans in response to functional behavioral assessments, as well as to proactively consult with school based teams for students in need of social-emotional support. The also work in conjunction with building principals and teams to develop and revise building wide positive behavioral support programs.

4. Describe the supplementary aids and services the LEA utilizes to ensure meaningful participation of students with disabilities in extracurricular activities. The IEP team would asses any needs related to the child's disability that could keep the student from meaning participation in extracurricular activities, determine what services would be appropriate, and implement those services. The district provides itself on the level of participation of students with disabilities, and the extent to which coaches, sponsors, and teammates support that participation.
5. Describe the District procedures, which ensure that, to the maximum extent appropriate, children with disabilities placed in private institutions are educated with non-disabled children and have the opportunity to participate in district lead extracurricular activities?  
As a district we would work with the responsible LEA to ensure that the students were offered meaningful participation to the extent that they are otherwise eligible to participate in district lead extracurricular activities if the student was in a residential placement. If the student was in a day facility we would work with the private facility and family for the child to have meaningful participation to the extent that they are otherwise eligible to participate.
6. Discuss the district’s need to build capacity and expand programs and services in an effort to provide a continuum of services. (Consider the out of district placement chart)  
The district currently provides a continuum of servicesfrom K-21, and across all disability categories that is designed to meet the diverse needs of learners with IEP's in both the general education and special education classrooms. In the event that all district resources are exhausted, and the child's needs cannot be met within the continuum of services offered, only then would the team give consideration to a more restrictive, out of district placement. In these instances, the team will always have a goal of working towards bringing the student back to a less restrictive setting within the district.

### Out of District Placements

Facility Name	Facility Type	Other	Operated By	Service Type	Number of Students Placed

Lakeside	Licensed Private Academic	Comprehensive Therapeutic School		Emotional Support	1

## Positive Behavior Support

Date of Approval  
2017-06-15

Uploaded Files  
Board Policy 113.2.pdf

1. How does the district support the emotional, social needs of students with disabilities?  
School Board Policy 113.1 addresses Behavior Support of Students with Disabilities. It was revised in June 2017. The policy was written to reflect the requirements of the IDEA and Chapter 14. It emphasizes the need for positive rather than negative measures. It also discourages the use of physical restraints and stipulates the processes to be in place when such restraints become necessary. It stipulates what aversive techniques (i.e., corporal punishment, locked rooms) are prohibited. Finally, it addresses the requirements regarding a student's exclusion from his/her educational program. The district utilizes the services of 5 full time Behavior Analysts to develop behavior intervention plans in response to functional behavioral assessments, as well as to proactively consult with school based teams for students in need of social-emotional support. The also work in conjunction with building principals and teams to develop and revise building wide positive behavioral support programs.
2. Describe training provided to staff in the use of positive behavior supports, de-escalation techniques and responses to behavior that may require immediate intervention.  
The district offers two types of behavior intervention trainings on an ongoing basis. First is training by a district certified trainer from the Crisis Prevention Institute. This is for staff working with students with better-developed verbal skills. Second is training by a district certified trainer in Safety Cares. This is for staff working with students who are more non-verbal. Administrators, teachers, and support staff can receive this training on a voluntary basis. Additionally, when a student is identified as having the potential for aggressive behavior, all staff working with that student are required to attend training. Numerous training opportunities are available each year. It should be noted that both of these systems emphasize the use of preventative strategies to de-escalate potentially aggressive behavior.
3. Describe the district positive school wide support programs.  
In Council Rock, each elementary school is required to have a school wide positive behavior support system. These are reviewed annually in conjunction with a review of discipline data. Revisions are made as needed based upon this review. Each plan is required to be positive in nature and progressive should there be a need for consequences. Not only do the plans expect positive behavior on the part of students, the plans have a component that focuses on ways to teach and model appropriate behavior. Our ten elementary schools have already gone through School-Wide-Positive-Behavioral Support training through the IU. This past year, this training was initiated at the middle school level. Moving forward this will done at the high school level as well.
4. Describe the district school-based behavior health services.  
School based teams comprised of School Psychologists, Behavior Analysts, School Counselors, Inclusion Facilitators, CARES Coordinators, and Social Workers collaborate to asses and intervene in the area of student social-emotional-behavioral functioning. In addition, contractual mental health services are provided through K&S Consultants to assist in promoting consistent school attendance, as well as providing additional counseling services for our students

in the emotional support program at the High School level. Contractual psychological counseling services are also provided by a doctoral level psychologist to students in the autistic support program at the high school level.

5. Describe the district restraint procedure.

Behavior support programs should be based on the use of positive, rather than negative, measures. The use of restraints is considered a measure of last resorts and only used after less restrictive measures, including de-escalation techniques. The use of restraints to control the aggressive behavior of an individual student or eligible young child shall cause the school entity to notify the parent of the use of restraint and shall cause a meeting of the IEP team within 10 school days of the inappropriate behavior causing the use of restraints, unless the parent, after written notification, agrees in writing to waive the meeting. At this meeting, the IEP team shall consider whether the student or eligible child needs a functional behavioral assessment (FBA), reevaluation, a new or revised positive behavior support plan or a change of placement to address the inappropriate behavior. A restraint is considered to be a physical hold of the student's body to prohibit movement, either in the form of a device or technique, that lasts longer than 30 seconds. If the use of restraints is in a student's IEP, EVERY time a restraint is used: 1. Complete the Nonviolent Physical Crisis Intervention Reporting Form 2. Notify parent that restraint was used. It is preferable that this is through live phone contact. Send a copy of the reporting form to them with the Restraint Notification/Agreement to Waive Meeting form 3. Send a copy of the reporting form to the special education supervisor's secretary 4. If any member of the team, including the parent, does not agree to waive the IEP meeting, schedule within 10 days. If the use of restraints is not in a student's IEP: 1. Complete steps 1-3 above. 2. Schedule an IEP meeting within 10 days, unless parents waive in writing by signing the Restraint Notification/Agreement to Waive Meeting form. However, if this is not an isolated incident, an IEP meeting must be held. 3. At the meeting discuss the need for an FBA or re-evaluation or up-dated behavior plan and revise IEP as needed.

## Intensive Interagency

Please address any areas of concern with students who are placed on Instruction Conducted in the Home or who are at a substantial risk of waiting more than 30 days for an appropriate educational placement.

In situations where we have situations that require instruction in the home due to medical fragility caused by or substantially related to their disability, we would work with the IU and our own staff to provide appropriate instruction. In situations where a student has a substantial risk of waiting more than 30 days for an appropriate educational placement, we would work with the Interagency Coordinator of the IU to go through the interagency process to find an appropriate placement for the child. We currently do not have any students in either of these situations.

## Special Education Personnel Development

### Autism

Description of Training			
Overview of current diagnostic criteria and best practices in assessment, intervention, program development and/or intervention for students with ASD in both autistic support and regular education classrooms.			
Lead Person/Position		Year of Training	
Special Education Supervisor		2022-2025	
Hours Per Training	Number of Sessions	Provider	Audience
1	18	Intermediate Unit PaTTAN Other	Building Administrators Central Office Administrators General Education Teachers Special Education Teachers Other

### Positive Behavior Support

Description of Training			
Training on how to prevent behavioral incidents as well as how to effectively intervene when a student's behavior escalates.			
Lead Person/Position		Year of Training	
Special Education Supervisor		2022-2025	
Hours Per Training	Number of Sessions	Provider	Audience
7	15	District Intermediate Unit	Building Administrators Central Office Administrators General Education Teachers Paraprofessionals Special Education Teachers

### Paraprofessional

Description of Training

Staff observations and feedback forms, inclusive practices, as well as participation in the trainings mentioned in the other 4 areas. Online opportunities in the following areas: Lifts & Transfers, Safety in the Classroom, Cultural Competence & Racial Basis, Bullying: Recognition & Response, De-Escalation Strategies, Disruptive Student Behavior, Restraint & Seclusion, and Student Mental Health.

<b>Lead Person/Position</b>		<b>Year of Training</b>	
Special Education Supervisor and online		2022-2025	
<b>Hours Per Training</b>	<b>Number of Sessions</b>	<b>Provider</b>	<b>Audience</b>
3	6	District Intermediate Unit PaTTAN	Paraprofessionals

### Transition

<b>Description of Training</b>			
Indicator 13 compliant IEPs along with coordinated transition activities documented in IEPs.			
<b>Lead Person/Position</b>		<b>Year of Training</b>	
Special Education Supervisor		2022-2025	
<b>Hours Per Training</b>	<b>Number of Sessions</b>	<b>Provider</b>	<b>Audience</b>
7	2	District Intermediate Unit	Paraprofessionals Special Education Teachers

### Science of Literacy

<b>Description of Training</b>			
Training in assessment procedures and intervention strategies that can meaningfully drive IEP development and instruction.			
<b>Lead Person/Position</b>		<b>Year of Training</b>	
Special Services Supervisor		2022-2025	
<b>Hours Per Training</b>	<b>Number of Sessions</b>	<b>Provider</b>	<b>Audience</b>
1-7	3-5	District Intermediate Unit	Special Education Teachers

## Parent Training

<b>Description of Training</b>			
Parents will be given an overview of what special education programming looks like in the district as it relates to specific disability areas. Opportunities for both individual and/or small group parent training will be determined by IEP teams.			
<b>Lead Person/Position</b>		<b>Year of Training</b>	
Special Education Supervisor		2022-2025	
<b>Hours Per Training</b>	<b>Number of Sessions</b>	<b>Provider</b>	<b>Audience</b>
1-3	1-6	District	Parents

## IEP Development

<b>Description of Training</b>			
Participants will develop knowledge and understanding of the components for developing meaningful and legally defensible IEPs.			
<b>Lead Person/Position</b>		<b>Year of Training</b>	
Special Education Supervisor		2022-2025	
<b>Hours Per Training</b>	<b>Number of Sessions</b>	<b>Provider</b>	<b>Audience</b>
7	1	District	Special Education Teachers

## Signatures & Affirmations

Approval Date

Uploaded Files

- There are a full range of services, programs and alternative placements available to the school district for placement and implementation of the special education programs in the school district.
- The school district has adopted a child find system to locate, identify and evaluate young children and children who are thought to be a child with a disability eligible for special education residing within the school district's jurisdiction. Child find data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for its effectiveness. The school district implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
- The school district has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
- The school district will comply with the PA Department of Education, Bureau of Special Education's revision notice process.
- The school district follows the state and federal guidelines for participation of students with disabilities in state and district-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
- The school district affirms the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.
