

How to configure TAC 3.0 to weight grades properly:

Categories Tab – Input a quarterly specific weight for each category (I leave the default weight that for Q1, but as long as you are specifying all quarters, I don't think it matters(?))

Report Card Averages Tab – Override each quarter and input the category weights that **match** the Categories Tab

IPR Averages Tab – Override the CURRENT* quarter and input the category weights that **match** the Categories Tab

*Do NOT be fooled by TAC 3.0, you cannot input a weight that is specific to Q2, Q3 or Q4. Weights only work for the **CURRENT** quarter. Webticket is in.

Here are screen shots for a course that has a midterm, a major Q3 project and a final exam:

Category	Weight	Drop Lowest	Marking Periods	Exclude Missing
FE - Final Exam	25.00	0	Default	Exclude missing scores from the average
FE - Final Exam	25.00	0	Q4	Exclude missing scores from the average
HWK - Homework	20.00	0	Default	Exclude missing scores from the average
HWK - Homework	20.00	0	Q1,Q2,Q3,Q4	Exclude missing scores from the average
MID - MidTerm	25.00	0	Default	Exclude missing scores from the average
MID - MidTerm	25.00	0	Q2	Exclude missing scores from the average
PROJ - Project	40.00	0	Default	Exclude missing scores from the average
PROJ - Project	40.00	0	Q3	Exclude missing scores from the average
TEST - Tests	80.00	0	Default	Exclude missing scores from the average
TEST - Tests	80.00	0	Q1	Exclude missing scores from the average
TEST - Tests	55.00	0	Q2,Q4	Exclude missing scores from the average
TEST - Tests	40.00	0	Q3	Exclude missing scores from the average
