

Instructions on extra credit in TAC 3.0

1. Make sure that the category you put the extra credit in is a category that you have used to date.
2. DO NOT put extra credit in an unused category.
3. It looks like it doesn't matter what point value you put in (1.00 below).

Here is a screen shot:

The screenshot shows a software interface with a table of student grades and an 'Assignment Details' dialog box. The table has columns for Grade, Average (84.35), and Points. The dialog box shows fields for Title, Date Assigned, Due Date, Description, Category, Points, Weight, Extra Credit, Publish, and Cannot Be Dropped.
