SCHOOL DISTRICT**

Maximize potential, embrace change, create the future

Annual District Data Portfolio

Prepared by Diane Quinn, Ed.D.
Director of Curriculum, Instruction, and Professional Development
December 20, 2021

Introduction

This data portfolio largely represents data from the 2020/21 school year, the school year in which COVID-19 had a profound impact on education. Teaching and learning looked different than it ever had before. In the elementary grades, students had the option of attending in-person (with face coverings and social distancing) five days a week or attending classes completely online, with live, synchronous instruction in English Language Arts and Mathematics with online KASD teachers. Lessons were recorded and posted for Science, Social Studies, Art, Music, Physical Education, ID Studio, and Library. An additional change was the option of a half day Kindergarten for in-person students.

In the middle school, students either attended full time in-person but with restricted movement throughout the building, social distancing, and fewer activities. Alternatively, students were able to “Zoom” into classes, connecting with their teachers and peers via video, for the entire school day. Enrolling full time in the Kutztown Virtual Academy (KVA) was yet a third option, in which students engaged with content via third party providers.

At the high school, the model evolved throughout the year. The school year opened with half of the students attending in-person classes twice a week with all students taking classes online on Wednesdays, with their KASD teachers and peers. As mitigation efforts ensued and more was learned about maintaining a safe and healthy building, more students were able to participate in face-to face instruction throughout the year. The school year finished with all students able to attend in-person instruction five days a week. Throughout the year, students were also afforded the option of attending all classes virtually, connecting to live classes via videoconference. KVA was also a third option for high school students.

While state testing was still mandated, more parents opted students out of testing than ever before. In some instances, only 40% of a grade level participated in testing. As such, PSSA and Keystone scores are not reported herein.

While most of the data represents the 2020/21 school year, some data were not collected due to school closures and in other cases, public reporting lags one year behind. Where historical data were available, they have been included as a point of context, to the degree that schooling pre-pandemic can be examined in light of schooling during-pandemic.

CHRONIC ABSENTEEISM

From PDE, “A student is considered absent if they are not physically participating in instruction or instruction-related activities on school grounds or at an approved off-grounds location. Chronically absent students include students who are absent regardless of whether absences are excused or unexcused; whatever the reason for the absence, instructional hours are lost.” Below, chronically absent students have missed 18 or more school days.

*2020/21 was significantly impacted by student attendance in virtual and in-person instruction due to complications related to COVID-19 such as increased number of illnesses, quarantine, and disruptions to scheduling.

DROPOUTS

According to PDE, a dropout is a student who, for any reason other than death, leaves school before graduation without transferring to another school/institution. The Dropout Rate measures the proportion of students enrolled who drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.

SENIORS

Note: Some of the data, below, is provided by the Pennsylvania Department of Education and is only available one year previous to the current school year.

4-Year Cohort Graduation Rate

The cohort graduation rates are a calculation of the percentage of students who have graduated with a regular high school diploma within a designated number of years since the student first entered high school. The rate is determined for a cohort of students who have all entered high school for the first time during the same school year.

4-Year Cohort Graduation Rate

| | KASD | State |
|---------|-------|-------|
| 2019/20 | 89.2% | 87.4% |
| 2018/19 | 93.0% | 86.5% |
| 2017/18 | 97.3% | 85.9% |
| 2016/17 | 94.4% | 86.6% |
| 2015/16 | 93.4% | 86.1% |

Data Source: PDE. (December, 2021). *Cohort graduation rate* [Data set].

Post-Secondary Bound

A post-secondary bound senior is defined by the Pennsylvania Department of Education as a high school graduate planning to enroll in a two- or four-year degree granting college or university, a specialized associate degree-granting institution, or a school licensed or approved by the state to offer a certificate, diploma, or some similar type of recognition of achievement issued by the institution.

% of Seniors Post-Secondary Bound

| Year | KASD | State* |
|---------|-------|--------|
| 2019/20 | 68.3% | 63.6% |
| 2018/19 | 73.2% | 69.4% |
| 2017/18 | 77% | 71.7% |
| 2016/17 | 73.1% | 68.2% |
| 2015/16 | 72.4% | 68.9% |

ADVANCED PLACEMENT EXAMS (AP)

The [AP Program](#) offers college-level courses and exams that students can take in high school. Taking an AP course in high school can give students an advantage in college by earning college credits and skipping introductory courses in college.

Equity and Excellence

In this calculation, students who score a 3 or higher on an AP Exam are counted only once, regardless of how many AP Exams they took and were successful in.

KEYSTONE EXAMS

The [Keystone Exams](#) are end-of-course state assessments designed to assess proficiency in the subject areas of Algebra I, Literature, and Biology.

Scores in this publication are derived from Spring assessments and represent the percentage of students scoring Proficient or Advanced. Note: No assessments were taken in the Spring of 2020, and state averages were not available for Spring of 2021.

PSSA

From PDE: “The annual Pennsylvania System School Assessment (PSSA) is a standards-based, criterion-referenced assessment which provides students, parents, educators and citizens with an understanding of student and school performance related to the attainment of proficiency of the academic standards. These standards in English Language Arts, Mathematics, and Science and Technology identify what a student should know and be able to do at varying grade levels.”

Scores reported represent the percentage of students scoring proficient or advanced.

PVAAS

Pennsylvania Value-Added Assessment System

From PDE: PVAAS uses the state assessment data to measure the academic growth of groups of students from year to year at the district and school levels. The value-added (or growth) information analyzes available data from previous years (looking back) to help districts evaluate how much *groups* of students have gained academically in a school year.

If educators see that the PVAAS growth measure for a group of students is color-coded **yellow** or **red**, it indicates that there is moderate or significant evidence that the group of students did not meet the growth standard (i.e., the group lost ground academically). If educators see that the growth measure for a group of students is color coded **green**, it indicates that the group of students met the growth standard – or, on average, the

achievement of the group was maintained. If educators see that the growth measure for a group of students is color coded with **dark blue** or **light blue**, it indicates that there is moderate or significant evidence that the group of students exceeded the growth standard (i.e., the group gained ground academically).

STAR

STAR is an assessment used for screening (to determine which students may be in need of additional supports), progress-monitoring, and to measure student growth in Early Literacy, Reading, and Mathematics. This computer adaptive test adjusts to each answer a student provides and consists of approximately 20-25 questions. The reports, below, provide an overview of student performance as reported in four levels according to percentile rank, comparing all KASD students' achievement against national norms for the last assessment taken in each school year. NOTE: Additional years' data reflects the same students.

FUTURE READY INDEX

The Future Ready PA Index is a collection of school progress measures related to school and student success. The Index includes a range of assessment, on-track, and readiness indicators, to more accurately report student learning, growth, and success in the classroom and beyond.

Due to the impact of COVID-related changes in instructional models and school closures, data on the current Future Ready Index comes from school years 2018/19, 2019/20, and 2020/21.

Dynamic reporting features are available to access more specific data at www.futurereadypa.org. The following screenshots provide building-level overviews.
