

KUTZTOWN AREA
SCHOOL DISTRICT

Maximize potential, embrace change, create the future

Annual District Data Portfolio

Prepared by Diane Quinn, Ed.D.
Director of Curriculum, Instruction, and Professional Development
January 19, 2021

Welcome!

Kutztown is known for its unique cultural heritage and community spirit. While difficult to summarize the rich story of our 100 square miles, we offer here an album depicting that story in numbers, narratives, and graphics.

The publication of this volume comes in the midst of COVID-19, the world-wide pandemic which upended education on March 13, 2020, when our schools were closed by order of the Governor for the remainder of the 2019/20 school year. “Continuity of Education,” as it was termed by the Pennsylvania Department of Education, began in the Kutztown Area School District at the end of March as enrichment/optional activities and then transitioned to Remote Learning in April. During this period of the closure of our physical buildings, schools began distributing lunches on a daily basis in the parking lots to any student who wished to partake; laptops, Chromebooks, iPads, and internet hotspots were rounded up and deployed via drive thru, home offices for district employees were established, teachers participated in intense professional development, as the concept of school took on a whole new model. State testing was eliminated, and participation in virtual school was required but with considerable leniency for those whose home situations prevented students from attending daily.

As this portfolio is being prepared, the pandemic continues. Students are learning in full-time virtual environments as they video conference into classrooms, in full-time socially distanced school buildings, or a combination of both via the hybrid model employed in the high school. All of this while the country has been shaken to its core by racial unrest, violent protests, and a highly contested Presidential election.

Today, our focus is on ensuring students are safe - physically, socially, and emotionally, nourished with regular meals, and in the care of adults who are navigating new platforms and pedagogies and constant change while also dealing with family sicknesses, their own children’s school closures and remote models, and general unrest.

Most of the data contained herewith represents the 2019/20 school year, with expectations for data not collected due to school closures. Where historical data were available, they have been included as a point of context, to the degree that school pre-pandemic can be compared to school during-pandemic.

CHRONIC ABSENTEEISM

From PDE, “A student is considered absent if they are not physically participating in instruction or instruction-related activities on school grounds or at an approved off-grounds location. Chronically absent students include students who are absent regardless of whether absences are excused or unexcused; whatever the reason for the absence, instructional hours are lost.” Below, chronically absent students have missed 18 or more school days.

DROPOUTS

According to PDE, a dropout is a student who, for any reason other than death, leaves school before graduation without transferring to another school/institution. The Dropout Rate measures the proportion of students enrolled who drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.

SENIORS

Note: Some of the data, below, is provided by the Pennsylvania Department of Education and is only available one year previous to the current school year.

4-Year Cohort Graduation Rate

The cohort graduation rates are a calculation of the percentage of students who have graduated with a regular high school diploma within a designated number of years since the student first entered high school. The rate is determined for a cohort of students who have all entered high school for the first time during the same school year.

4-Year Cohort Graduation Rate

	KASD	State
2018/19	93.0%	86.5%
2017/18	97.3%	85.9%
2016/17	94.4%	86.6%

2014/15	90.4%	84.8%

Data Source: PDE. (November, 2020). *Cohort graduation rate* [Data set].

College Bound

A college-bound senior is defined by the Pennsylvania Department of Education as a high school graduate planning to enroll in a two- or four-year degree granting college or university or a specialized associate degree-granting institution.

% of Seniors College Bound

Year	KASD	State*
2018/19	71.3%	67.3%

ADVANCED PLACEMENT EXAMS (AP)

The [AP Program](#) offers college-level courses and exams that students can take in high school. Taking an AP course in high school can give students an advantage in college by earning college credits and skipping introductory courses in college.

Equity and Excellence

In this calculation, students who score a 3 or higher on an AP Exam are counted only once, regardless of how many AP Exams they took and were successful in.

Percentage of Group Scoring 3+ on at least one AP Exam

KEYSTONE EXAMS

The [Keystone Exams](#) are end-of-course state assessments designed to assess proficiency in the subject areas of Algebra I, Literature, and Biology.

Scores in this publication are derived from Spring assessments and represent the percentage of students scoring Proficient or Advanced.

PSSA

[From PDE](#): “The annual Pennsylvania System School Assessment (PSSA) is a standards-based, criterion-referenced assessment which provides students, parents, educators and citizens with an understanding of student and school performance related to the attainment of proficiency of the academic standards. These standards in English Language Arts, Mathematics, and Science and Technology identify what a student should know and be able to do at varying grade levels.”

Scores reported represent the percentage of students scoring proficient or advanced.

PVAAS

Pennsylvania Value-Added Assessment System

From PDE: PVAAS uses the state assessment data to measure the academic growth of groups of students from year to year at the district and school levels. The value-added (or growth) information analyzes available data from previous years (looking back) to help districts evaluate how much *groups* of students have gained academically in a school year.

If educators see that the PVAAS growth measure for a group of students is color-coded **yellow** or **red**, it indicates that there is moderate or significant evidence that the group of students did not meet the growth standard (i.e., the group lost ground academically). If educators see that the growth measure for a group of students is color coded **green**, it indicates that the

group of students met the growth standard – or, on average, the achievement of the group was maintained. If educators see that the growth measure for a group of students is color coded with **dark blue** or **light blue**, it indicates that there is moderate or significant evidence that the group of students exceeded the growth standard (i.e., the group gained ground academically).

Future Ready Index

The Future Ready PA Index is a collection of school progress measures related to school and student success. The Index includes a range of assessment, on-track, and readiness indicators, to more accurately report student learning, growth, and success in the classroom and beyond.

Efforts to mitigate the Covid-19 pandemic have impacted the availability of some data. Future Ready PA Index contains the most recent data available in the 2019-2020 school year.

Dynamic reporting features are available to access more specific data at www.futurereadypa.org. The following snapshots provide the building level overviews.
