LEA designated Asbestos Coordinator

RE: Asbestos Management

DATE: Plan July 1, 2023

This memo is to notify you that Calloway County Schools are in compliance with both Federal and State Regulations and Laws that relate to building materials which contain Asbestos that have been used in building construction.

An inspection for building materials containing asbestos has been completed for all buildings owned, leased, or otherwise occupied by the Calloway County Board of Education. A certified inspector has conducted this inspection and an accredited laboratory evaluated the material samples.

A complete Asbestos Management Plan for the school district is on file and the Calloway County Schools Maintenance Building located at 2001 College Farm Road. Also, a copy of the Asbestos Management Plan for each individual school is on file at each respective school office.

We will continue to notify you at least once a year of the status of the Asbestos Management Plan. Should it be necessary, more frequent updates will be issued as a result of an additional inspection, normal surveillance practices, response actions and remodel work which might disturb ACM. Every precaution will continue to be utilized in order to protect the well-being of students and employees of the Calloway County Schools System.
