

POST FALLS SCHOOL DISTRICT NO. 273

Series 500: Student Policy: Admission

Policy No. 502.3

Policy Title: Student Enrollment Options

Page 1 of 2

Both Post Falls School District resident and out-of-district students may apply for enrollment in Post Falls schools pursuant to the enrollment options program as provided by district policies. An out-of-district student is one attending school in a district other than his/her home district. A resident student is one attending school in his/her home district.

A student's residence is that of his/her parent or guardian, providing, however, the residence of a student between the ages of 18 and 21 is determined by the actual bona fide residence of the student without regard to the residency of his/her parent or guardian.

A district resident student may request a transfer to another school within the district. The requesting resident student may be accepted for enrollment at another school within the district when the acceptance would not create a hardship on the district and when the acceptance would meet the standards and guidelines set forth in district policies.

An out-of-district student may be accepted for enrollment in the Post Falls schools under the enrollments option program described in I.C. 33-1402, where tuition would be paid by the home district or waived as described in I.C. 33-1404, when the acceptance would not create a hardship on the Post Falls School District and when the acceptance would meet the standards and guidelines set forth in district policies.

In situations where openings are limited, the Superintendent or designee may give priority to certain students. Preference for admission to the district may include, but is not limited to, the following priorities in order of consideration:

1. All in-district students and all those out-of-district students who were enrolled and in attendance in Post Falls schools the prior year providing the out-of-district student remains in continuous attendance in Post Falls schools;
2. Siblings of students described in #1 (above).
3. Out-of-district students included in district-to-district agreements wherein the sending school contracts with the Post Falls School District to educate specific individuals or groups;
4. Out-of-district students whose parents are employed by the Post Falls School District.
5. Out-of-district students whose parents or guardians live in Idaho.

The application of a resident student for transfer to another school within the district may be rejected due to capacity limits or when such student has been suspended or expelled from school or is under suspension, expulsion or other disciplinary proceedings.

The provisions set out herein are not intended to and shall not prohibit the Board of Trustees from prescribing non-discriminatory preconditions or standards for admission where necessary to protect the health, safety and welfare of its existing students and/or to protect its educational process. Standards may include the capacity of a program, class, grade level or school building. Standards may not include ability, disability, race, ethnicity, sex or socioeconomic status.

The out-of-district student, or his/her parent or guardian, shall be responsible for transporting the student to and from the school if the requested admission or transfer is granted.
