

MIS Materials List : Primary Grades 1 - 4

2023/2024

Dear Primary Families,

Please find below a list of equipment that supports your child in having a successful start in the school year. For many items on the materials list, we have given a link to an item online. You do not need to purchase the exact item, the link is there for reference to the type of product required.

As we continue to use less plastic, we are excited to be partnering with a German environmentally focused school material supplier, who supports blind and partially blind employees and will help support ethically sourced and produced school materials. This company will provide coloured notebooks and paper folders for all classes. Parents and guardians will be invoiced at the beginning of the school year to cover the cost of these. We hope that this new process will make it easier for parents and provide students with the correct lineature books for their school work without the use of a notebook cover and to use less plastic. These notebooks will already be in the classrooms on the first day of school and students can label them with their teachers.

For all other equipment, please do not forget to label all of your child's property with your child's name and grade level. Please ensure you maintain the number of stationery objects throughout the year for your child. It is always beneficial to have refilled materials after a school break.

If you have any questions or require assistance before school starts, please do not hesitate to contact the school office.

Best regards,
MIS Primary Team.

Grade 1 - Please label everything with your child's name before bringing it in on the first day of school.

Article			Special Notes
<p>Grade 1 notebook pack.</p> <p>The Grade 1 notebook pack includes all the A4 notebooks, the vocabulary notebook and coloured paper folders which are required for Grade 1.
