

# TLC Grant of Boise

---

June 2018

This is the third year that the Emmett School District has been the recipient of grant monies for fine arts classes. The TLC grant of Boise has been a very generous donor over the past years to support art and music classes throughout the district with new instruments, equipment, and supplies. The money comes from the TLC grant through the local Emmett Public School Foundation and then is used throughout the schools to fill needs in elementary, middle and high school classes. This year's grant supported the community-wide effort to raise funds for new band uniforms. It also covered the cost of a new bassoon and snare drums for the older students. The high school art program was supported with a full classroom set of steel stools with back rests. Elementary music classrooms were enhanced with recorders, drums, risers, music stands, and music rugs. The Emmett Public School Foundation and the Emmett School District staff and students greatly appreciate this grant and the ways in which it has added to the music and art experience for the local students.
