Takeaways

- Expenditure increase of 4.05% driven by:
 - General wage increases
 - Loss of grant revenue in BOE budget
 - Higher prices due to monetary inflation
- Strong revenue growth offset these increases
 - Higher interest income
 - Grand list growth
 - Incremental ARPA funds
- Proposed mill rate flat year over year
- Balance sheet is strong
- Capital needs are being funded

American Rescue Plan Funds

D7H Series II Service: Ed Baklik – Recommendations

1. Pin & Bushing Turn (With New Sprocket Segments)
 2. Repair of Blade Joints & New Parts (Weldments)
 3. Line Boring (From Cylinder Mounting to Blade Mounting & Pusharm Joints)
- Total: \$61,000.00 Est.

End Note:

We would not advise completing \$311k + overhaul to this particular machine. There are shared concerns that with the immediate attention items 1-3 regarding blade/undercarriage, too many powertrain risks exist to still establish continued "useful life". If we were to proceed repairing items 1-3, the machine could still incur a variety of powertrain failures at any time resulting in additional unforeseen investment. A 30-year life expectancy is deemed reasonable.

In addition, the machine has not been equipped with engine or drive guarding recommended to operate without damage exposure in a compost landfill/waste handling applications. These guardings are no longer available and excluded from item 4 rebuild quotation.

Town of Suffield
ARPA Committee

Dear Committee Members,

The Trees for Suffield Initiative is requesting \$75,000 of Suffield's ARPA funds go to the Trees for Suffield Fund.

During COVID the need for outdoor recreation was never more vital. The use of Town Parks, Town Greens and Main Street sidewalks exploded. Families and individuals flocked to these places because of the trees.

Trees provide both mental and physical healing benefits and help us gain a deeper connection with the natural world. Trees decrease our stress, increase oxygen, and provide shade and shelter to people and animals. These benefits are not limited to times of great stress, but they are essential to them.

Our greens and the fine old trees that grace our streets and sidewalks are here today due to the foresight of our forebearers. During COVID, Suffield residents could draw on these existing resources and did so in great numbers.

Unfortunately our public trees are at risk. They are experiencing a steep and steady decline. Costs for our initial plan to restore the tree canopy on Main Street and the Town greens are estimated at over \$100,000. We are also looking ahead to other areas in town where investment in the planting and care of new trees is anticipated, such as the former Bridge Street School property.

The Trees for Suffield Initiative seeks to ensure the future viability of our Town's greenways for generations to come. We look for your support to make that goal attainable.

Sincerely,

Sue Mayne

ARPA

- The VFW requested \$300,000 towards improvements to their parking lot, kitchen, and bathrooms. They will receive \$150,000 towards the renovations to the kitchen and 4 bathrooms to meet safety and ADA code requirements.
- \$75,000 will be given towards our Town's Historical Assets/Buildings for continued maintenance and preservation.
- \$40,000 will be given to the Suffield Land Conservancy to purchase a skid steer which will allow them to create new trails and maintain trails they currently have. We will enter into an agreement to share the skid steer with the Town.

ARPA

The Water Pollution Control Authority requested funds to assist in design and construction costs to the Stony Brook Interceptor. Supports and proper footings are needed to ensure the proper stability of the pipe. \$75,000 will go towards the \$300,000 design phase. Construction costs are estimated at \$2,500,000.
