

NAHS LEARNING COMMUNITY PROFILE 2022-2023

NAHS LEARNING COMMUNITY PROFILE 2022-2023

New Albany, Ohio is approximately 20 minutes northeast of Columbus, and our schools are located on a central Learning Campus in the heart of the Village. The school district serves an area of 23 square miles. New Albany is both one of the oldest and one of the newest communities in Central Ohio. It was founded in 1837 and remained primarily a rural village for nearly 150 years before significant residential and commercial growth arrived.

Unlike some suburban communities that are sprawling with unregulated growth, New Albany is seeking to develop as a “balanced” community, a 21st Century village in which its 10,000 residents, business enterprises, developers, government entities, and schools share a common vision. Partnerships are key elements in community growth.

New Albany is home to a diverse group of people, traveling here from around the country and around the globe. New Albany is an evolving and developing business environment, and many families have chosen to live in the community because of the commitment to education. Our unique Learning Community values and embraces lifelong learning and cultural opportunities for all.

OUR SCHOOL DISTRICT

New Albany - Plain Local Schools is a consistent performer earning the maximum of indicators on the state report card issued by the Ohio Department of Education (ODE). Even though our district is in the top 10% of districts in the State of Ohio, we continue to pursue even higher levels of excellence. The district's Index score has steadily risen every year, demonstrating our constant pursuit of raising student achievement.

The district's buildings are designed in a Georgian Architectural, campus-style complex on 80 acres, connected by tree-lined walkways, and surrounded by an 120-acre nature preserve. From our technology hub and student center on the high school campus green, to the adjoining Environmental Land Lab, the Learning Community Campus is as unique as it is functional, creating outstanding educational opportunities.

The District opened its newest facility in 2015, completing the campus as it accommodates district growth until the year 2024. The 150,000 square foot innovative learning facility is now the New Albany Intermediate School, but also provides opportunities for student learning K-12 through STEM and other various labs. The Easton "E3" (Energy, Engineering, Environmental) Land Lab (solar house) is an educational opportunity for students grades K-12 as well as providing opportunities to additional central Ohio schools and the community.

There are more than 5,100 students in the district, served by some 356 faculty and 286 staff members. Parent involvement and community support are integral to the success of our nationally recognized, award-winning school district. We strive to promote strong connections between the school and community, and – most importantly — establish education as our top priority, today and for the future.

OUR HIGH SCHOOL

New Albany High School (NAHS) is a four-year comprehensive high school accredited by the Ohio Department of Education and is recognized as one of the top 500 High Schools in the country by Newsweek Magazine and U.S. News & World Report. Our school is consistently ranked in the top 25 in the state of Ohio each year.

Nearly all of our 1,600 high school students belong to a club or organization, and 67% of our students are also involved in athletics or a music program. NAHS offers a period called NEST that supports student social emotional growth and helps build a sense of belonging for all students. We are proud of our innovative scheduling components and educational opportunities that include: Senior Seminar – an in-depth capstone learning project that must be completed to graduate; self-directed learning opportunities in Programming and Robotics and a Career Pathways resource to help guide students as they think about their educational future. Collaboration with our local Government and businesses provides students with authentic learning experiences and internship opportunities as we grow our vision of a Professional Learning Community.

OUR CURRICULUM

Graduation Requirements

Each student is required to complete twenty-one (21) credits in order to graduate. Eighteen (18) are required courses while the remaining are student chosen electives. All required courses are rigorous college preparatory coursework taught by a dedicated, dynamic staff. Required units include:

• English 4 credits • Math 4 credits • Social Studies 4 credits • Science 3 credits • Wellness / PE 1 credit • Business/Arts 1 credit • Senior Seminar 1 credit

The Humanities at New Albany High School

The humanities are alive and well at NAHS. All New Albany students complete a rigorous Introduction to the Humanities course in their freshman year. This course is a combination of English (1 cr) and social studies (1 cr) which meets 2 periods each day and is co-taught by English and social studies faculty. Students can choose to continue the humanities format in grades 10, 11 and 12 by taking Honors Western Humanities ENG/SS, Intro to American Studies KC/English and Quest for Justice KC/English respectively. The importance of writing, critical thinking, and developing an appreciation for ideas from the past are ingrained into our humanities, English, and social studies curricula. We are committed to an education based in the humanities.

EDUCATIONAL HIGHLIGHTS

Arts Programming

Arts Education is a growing component of the school district's curriculum, beginning in kindergarten and continuing through high school. New Albany Middle School is enjoying a blossoming band, orchestra and choir program. NAHS has a theatre program utilizing the Jeanne B. McCoy Community Center for the Arts. Students are provided many opportunities in the visual arts to celebrate their work through contests and community art shows. Celebrations are also held throughout the year featuring student performances for diversity celebrations, such as Black History Month, "Spread the Word to End the Word" and the Cultures of the World Festival a component of the NAHS Peace Week Celebration.

Technology

The Learning Campus computer network is as large as many mid-sized Columbus businesses. Many resources are available to students and teachers, from collaborative learning environments to curriculum specific software and adaptive services for our special needs students. The district also launched the Bring Your Learning Technology (BYLT) initiative in 2012, enabling students to bring devices from home or utilize school provided devices for classroom work while learning the principles of digital citizenship. All district students meet state technology proficiency guidelines by 8th grade. In the fall of 2018, the district launched a One-to-One Technology Initiative for iPad distribution beginning with grades four through six and has continued to grow each year and now expands grades PK-12.

Woodlands, Wetlands & Nature Preserve

New in 2018 - the Easton E3 (energy, engineering & the environment) Learning lab is now open for student instruction district-wide. Additionally, there are 80 acres of woodlands, wetlands, ponds, streams, and meadows on and adjacent to the K-12 Learning Campus. The nature preserve is the cornerstone of New Albany's award winning Environmental Science Program. This nature preserve is also an extension of every classroom and a key component of our curricular goals in such areas as environmental stewardship, local history, interpretive writing, weather, geology, biology, math, and art. Recycled materials and solar lighting have been used on nature trails utilized by students as well as the community. In addition to the nature preserve opportunities, New Albany Intermediate School features green roofs, a greenhouse and several outdoor environmental learning labs for student use.

Senior Seminar

Senior Seminar is a graduation requirement for all New Albany High School students. It is a performance-based course that provides an arena in which students demonstrate K-12 cumulative learning and skills. Students are encouraged to go beyond the traditional school setting for this experience, and an exhibition of their work is presented to an audience. Some examples have been constructing a wildlife observatory, writing and performing original music, developing prosthetic limbs and devices with 3D printing and creating an event that raises money for childhood cancer.
