

September 3, 2021

Dear CHHS Families,

We missed having our students today and look forward to seeing them next week! We had a great first two days of school and it was wonderful to see our building full of the energy and excitement of a new school year. We are so grateful to have been able to welcome all of our students in person at the start of the year!

Thank you to our PTSA who helped us with our freshmen breakfast and lunch so that our members of the Class of 2025 could spend time in the building and share time with their big buddies. And thank you to our 10th-12th graders who started their first day of school at 10:00 on September 1 to allow our freshmen time in the building to get used to the space, find their classes, and connect with big buddies and teachers.

As a reminder, please help us get the day started safely and smoothly by ensuring that you fill out the LINQ health screener AND bring a green slip each day. When we do not have both, it slows down entry and getting students to their first period on time. If you are new to using LINQ and have not attached your child to your LINQ account yet, please follow [these directions](#). If you need any assistance with LINQ, please contact the nurse's office for assistance. Thank you for your support with this and thank you for your continued vigilance and monitoring of your child's symptoms. As a reminder, if your child has any symptoms at all, please do not send them to school until you have spoken to our school nurse.

Please also consider signing your child up for gateway testing as part of our screening testing program. We hope that all members of our school community will take part in this important mitigation strategy. We anticipate that the testing will take place at CHHS on or about September 14 during our school day. Please review the information and [complete the consent form](#) in order to participate in the testing program. Please complete the consent form *as soon as possible* so that we can prepare accordingly for this initial round of testing. We appreciate your consideration as this is one very important way that we can help everyone in our school community stay safe and healthy! Please review the [information previously provided](#) if you have any questions about the program.

Finally, below are upcoming dates, important information, and resources. Have a safe, healthy, wonderful long weekend. We look forward to seeing our CHHS students on September 9,

Laura Dubak

CHHS Principal

Upcoming Dates

- **September 6-8** - schools closed
- **September 9** - school opens again (C day)
- **September 9-10** - grade level meetings

- **September 16** - school closed
- **September 20-25** - homecoming week (home games every evening plus Saturday football!)
