

CHHS

- HVAC upgrades in the 1926 portion of the building, including replacement of old buried steam piping and improvements to hallway and classroom ventilation. Work will include floor trenching on the first floor as well as many ceiling removals and penetrations for new pipe and duct installation.
- Installation of air conditioning and ventilation improvements in the testing center, TAP center and community room.
- Replacement of data closet cooling systems.
- Replacement of the bleachers and the gym floor in the main (old) gym.
- Replacement of the fire alarm system in the entire building.
- Phone Upgrades to all classrooms

CROTON-HARMON HIGH SCHOOL

PVC

- Construction of a new kitchen and servery. Food prepared at the PVC kitchen will be provided to all three schools.
- Phone Upgrades to all classrooms

PIERRE VAN CORTLANDT  
MIDDLE SCHOOL

CET

- Replacement of windows in the 1st, 3rd and 4th grades, library, computer lab and offices.
- Replacement of the HVAC system for the nurses suite.
- Installation of new radiant heating panels in the 3/4 grade classroom ceilings.
- Construction of a cafeteria servery.
- Construction of a new maintenance storage building
- Phone Upgrades to all classrooms
