Superintendent, David Piperato, took this opportunity to publicly thank the many members of the community who have made positive contributions with regard to the ongoing challenges the District has faced relating to the mold remediation process. He thanked Mr. Travis Serfass, Director of Buildings and Grounds, the custodial and maintenance departments, the faculty and staff of PVI and PVE who all showed their commitment in meeting the challenges of the first two weeks of school. Mr. Piperato reviewed what transpired since the mold was discovered, the timeline of the remediation process, and recommendations made by Belfor Property Restoration and Hillman Consulting, the industrial hygienist firm. Mr. Piperato stated that the Board toured the buildings with representatives from Belfor. Present this evening were Mr. Josh Woolen and Mr. Barry Sasse from Hillman and Mr. Jeff Horvath from Belfor Property Restoration. Board members were given an opportunity to ask additional questions regarding, among other things, the cause and measures to prevent reoccurring mold in our buildings. President Len Peeters announced the meeting procedures which were attached to the agenda.

## **Pleasant Valley Citizens:**

Mr. Malcolm McKinsey, Polk Township, stated that he is representing his members at Pleasant Valley Intermediate School with regard to questions and/or confusion arising out of the remediation process relating to the manner in which teachers' personal material in their classrooms were handled. Lengthy discussion was held which included explanations and clarifications from Hillman and Belfor representatives as well as Mr. Piperato who reiterated his conversations with Mr. McKinsey and the members concerning this issue. Solicitor, Mr. Fitzgerald, interjected and clarified that during the public comment section of the meeting it is inappropriate and non-productive to have a debate-like discussion.

Ms. Danielle Darling, Chestnuthill Township, expressed her concern about the safety of the student body and staff and thanked the administration, security, and state police for their proactive and quick response to a recent potential threat. She expressed her concern regarding several issues and made suggestions including metal detectors in all buildings to be mandatory, enforcing the zero tolerance policy, and more detailed information given to

parents with respect to potential threats. She suggested forming a safety committee to work as a team and plan for strong innovative ways to protect our schools.

Ms. Desiree Pagleuca, Chestnuthill Township, expressed her concern about potential threats and the consequences of those actions should be to not allow those students back in school.

Mr. Donald Havansky, Polk Township, expressed his concern about security and safety of the buildings and stated that all doors should be locked and alarmed.

Ms. Kristen Ortiz, Polk Township, expressed her concern about the mold in the schools and stated that her son suffers from asthma and that the musty smell and humidity exacerbates his condition. She offered any help necessary, along with her husband who has experience in the HVAC field, to get to the root of the problem.
