Mr. Gould also announced that there would be an executive session immediately following this meeting.

**Pleasant Valley Citizens:**

Ms. Laura Jecker, Chestnuthill Township, commended the district on its belief in community commitment as was expressed by the Comprehensive Planning Committee. She stated that in each building the PTO not only supports students but the people in the community. She provided a handout to the Board members showing information about Thon. Ms. Jecker expressed her concerns that the money raised is going to a community, Hershey Medical Center, two hours away and suggests that we raise money for Lehigh Valley Children's Hospital and CHOP because the children from our community and the county utilize these facilities. She feels our community is raising money for other communities that should be going to our community. She also stated that she has not seen the Thon event approved by the Board. Ms. Geary and Mr. Krebs addressed that issue stating that all fundraisers have been approved. Ms. Jecker also stated that the Thon is a 107(c)1 organization and although they receive charitable donations they do not have to disclose where the money is going. Ms. Geary addressed the issues raised by Jecker and stated that a majority of the money goes to research for pediatric cancer and that research benefits all. She highlighted all the events that take place to try to eradicate childhood cancer and that the children involved with this cause are learning what community commitment is all about through this process and that our students do benefit from the money raised through these fundraisers. Ms. Jecker also raised the issue of the training that is given by Dr. Riccomini stating that the children who are part of the research should not be with the children who are not part of the research. Ms. Geary and Mr. Newman addressed the research-based intervention explaining the process and stated that all students are learning the same content.
